Extensive Damage But No Injuries In Some Accidents

In several recent crack-ups, there were no apparent personal injuries but vehicle damage was extensive. Several vehicles overturned and two were called a total loss in accidents about the county.

One car was called a total loss when it overturned after running into a ditch on Mattingly Hill road near U.S. Route 219 the night of September 6.

Paul J. Amoroso, Carnegie, Pa., was traveling south when he approached a sharp left turn. Being unfamiliar with the road, he failed to negotiate the curve, ran off the roadway and into the ditch. Tpr. G. A. Berkebile charged him with failing to reduce speed under the conditions.

Another car was totaled when it hit a tree off the Sand Flat road near the Boy Scout road late last Monday night.

William R. Lambert, Shippensville, Pa., driving north, apparently fell asleep, ran off the road and hit the tree. Tfc. L. R. Rosage made no charges.

One car turned over on its side in a U.S. Route 40 accident just west of the Allegany County line the afternoon of September 6.

Douglas R. Stanton, Grantsville, was traveling east when a vehicle in front of him slowed down. He applied his brakes, slid out of control and turned over. Trooper Berebile charged him with operating an unsafe vehicle.

An unidentified driver operating a car said to belong to James R. Whiteman, Piedmont, W. Va., was driving east on Green Glade road early August 30. The operator made a left turn to go north onto Md. 495 when the car slid, went over an embankment and overturned. Trooper R. C. Georg investigated.

Janice A. Malone, Grafton, W. Va., and William E. Beeson, Fairchance, Pa., in a pick-up were traveling west on Route 40 late August 6. Janice Malone was in the process of passing the Beeson truck when he changed from the right lane to the left, hitting the Malone car. Tpr. Berebile charged Beeson with failing to stay in his proper lane.

The familiar rear-end type collision happened on Route 40 near the Lower New Germany road just before noon September 10.

John T. McDonald, Cumberland, was stopped, westbound, on Route 40 to allow a vehicle in front of him to make a left turn. Paul D. Pickens, Cumberland, following McDonald, failed to control his speed and hit the rear of McDonald car. Tfc. Rosage charged Pickens with failing to control speed to avoid a collision.

Two cars parked along the west side of Route 219 south of Accident were hit by a third car just before noon August 8. The parked cars were those of Ferdinand H. Bittinger, High street, Oakland, and David McLean RD 2, Accident.

Theodore J. Allison, Friendsville, traveling south on Route 219, hit the Bittinger car, driving it into the McLean car. Tfc. C. D. Skidmore charged Allison with failing to reduce speed under conditions.

Another one-car mishap occurred on Mason School road about a mile south of Shady Dell road late Thursday.

James A. Finch, RD 2, Oakland, in a pick-up, was driving south on Mason School road, ran off the side when he tried to avoid hitting four deer on the roadway. The truck struck a ditch causing it to overturn on its top, blocking the roadway. Cpl. R. J. Reed made no charges.

THE REPUBLICAN

VOLUME 98 | OAKLAND, GARRETT COUNTY, MD. SEPTEMBER 26, 1974 | PER COPY 15c | NUMBER 30

Things Are More Wacky

All in all, there are some things that are wacky—or screwy, as you may determine after hearing about them.

One is close at home. Last Tuesday afternoon a citizen took a letter to the Oakland post office to mail to The Republican office. The Republican got it Friday morning because the office is compelled to send the letter to Cumberland to be cancelled, and then it has to be returned to the Oakland post office before it can be delivered. Yet the post office department claims to be efficient. When are they going to learn?

Another screwy item. On Saturday the 14th, motorists on U. S. 219 were stopped on the outskirts of Parsons, W. Va., and held for an hour and fifteen minutes, while the town held a parade on the main streets. The main street of Parsons is the only through street in the town. What if a stranded motorist was in an emergency situation? They could have held the parade on a secondary street instead of blocking a main national highway. A little peculiar, to say the least.

We felt the pay raise for federal workers, against the recommendation of President Ford was inflationary. Both Senators Mathias and Beall voted for the increase citing that federal workers should not be penalized. But this raise is the beginning of other pay raises which will wind up in swamping the economy. Congressmen are now indicating that they will go for a pay raise for themselves. The Unions are planning the same thing and away we go.

All of which will bring on an increase in prices for many commodities, and the inflationary spiral will go higher. Tight clamps are needed, or things will get more wacky and more screwy.

Autumn Glory Food Service Plans Complete

Plans are now being finalized for food service during Autumn Glory. The Oakland-Mt. Lake Park Lions Club is the sponsoring organization for all food service, catering, vending of either advertising material, food or merchandise.

Any group, civic or private, must be licensed to conduct any of the above on the streets of Oakland during Autumn Glory. Spaces are still available and permits may be obtained by calling Robert E. Proudfoot or applying in person at Proudfoot's Oakland Pharmacy in Oakland.

The Lions Club announced today that a chicken barbecue will be held on Saturday, October 12, beginning at 11 a.m. at the Oakland fire hall. The menu will be the same as the Lions have served for years at the Garrett County fair — cole slaw, baked beans, roll, butter, beverage, pie and barbecued chicken. Complete dinners will be prepared for take-out service.

Maryland seafood will be another exclusive feature of Autumn Glory and will be served in four downtown locations beginning at 11 a.m. on Saturday. French fried clams, oysters, fish and crabcake sandwiches along with french fries will be available from each. This program is conducted in cooperation with the Seafood Marketing Division of the State of Maryland's Economic Development department.

Southern High Band Boosters will provide home cooked turkey dinners in Southern High school's cafetorium beginning at 11 a.m., on the day of the Autumn Glory parade. Proceeds will help send Southern's band to the Macy Thanksgiving Day parade in New York.

Dave and Dot Davis, above, display some of the beautiful eggs which have been decorated for display at the arts and crafts show during the Autumn Glory Festival. Sponsored by the Civic Club of Oakland, there will also be a silversmith, a glass blower, jewelry, antiques, china and ceramics on display at the show Sunday at the National Guard Armory in Oakland. The eggs above have been gilded, painted and adorned to make a lavish display.

Crafts Show Will Feature Egg Art

An unusual arts and crafts show, featuring egg art and antiques is being planned by the Civic club of Oakland, to be held at the National Guard armory in Oakland during the Autumn Glory Festival, October 11, 12 and 13. In charge of the show will be Dave and Dot Davis, of Irwin, Pa., who were in Oakland Monday looking over the area. Mr. and Mrs. Davis just returned to their home after conducting a show in Toronto, Canada.

They had an egg display of what people will be able to see during the three day exhibit. There are real shells of goose eggs, hen eggs, turkey eggs, ostrich eggs, all profusely decorated. There are other features to the show. There will be a silversmith from New Jersey, a glass blower from N. Y. and a man with pre-Colombian jewelry from Brazil. Local antique dealers also will be on hand with displays which will be for sale. Painters of china and ceramics and workers in leather craft also are expected.

Mrs. Frances Riley, president of the Civic club, is chairman of the show which will cost 50 cents for admission. Food and refreshments will be available.

At the conclusion of the egg art show here Mr. and Mrs. Davis plan to attend an Eggers' international convention from October 23 to 27 at Niagara Falls, N. Y. The world's champion Egger will be determined at that time.

A sample of egg art may be learned from studying the photographs in this issue.

Area Gets First Frost Tuesday

First frost of the season hit the area Tuesday morning with readings in the 20s. It made the area feel much like Fall which officially began the morning before. This is a decided change from last week's highs in the 70s. Nearby Frostburg had 30 degrees and Thomas, W. Va. reported a chilly 23 degrees. The habit of scraping ice off the windshield also began and garden crops were frozen.

Tour Planned For Area Ag Leaders

The Maryland Agricultural Commission has scheduled a tour in Allegany County and a meeting with Agricultural Leaders from Garrett and Allegany Counties on Thursday, October 3, according to R. Franklin Burris the Commissioners's Executive Secretary.

Tentative plans call for the Commission to hold its regular business meeting at Allegany Community College on Thursday morning. After lunch, the Commission plans a tour of the Consolidated Orchards accompanied by Henry Miller the owner and the farming operations of the Teter Bros., at Flintstone.

At 8:00 p.m., the Commission will meet at the Allegany County Community College Auditorium with Agricultural Leaders, County and State Officials, Legislators and other interested persons to discuss the activities of the Commission and Agricultural Problems in the two-county area. Mr. Burris emphasized the Commission's interest in Agriculture throughout the State and its desire to become better acquainted with local agricultural matters. He said the meeting will provide an opportunity for dialogue between the Commission and local residence and will enable the Commission to better understand and serve the needs of Agriculture from this area.

Extension Agents from the two counties are cooperating with the Commission Tour Arrangements and will be participating in the day's activities.

More information is available from James McHenry, extension agent, at Oakland.

Freeway Sites Chosen For Study

A number of locations along the National Freeway in Western Maryland have been selected for feasibility studies as to how they should be developed once the highway is completed.

The locations were decided on by the Tri-County Council for Western Maryland at its board meeting last Wednesday. They include Keyser Ridge, Grantsville, Hoffman Hill, at Frostburg, and the Cumberland Narrows.

In addition the council agreed to add Williamsport and the U.S. route 40 interchange with the Freeway in Washington county.

The study will outline the existing facilities and attractions at each location and make recommendations as to what might be done to take advantage of the Freeway location.

The council also decided on 30 sites, 10 in each of the three Appalachian Maryland counties, for the Maryland Bicentennial Trial. In addition another five sites in each county were selected in the event there is more funding available.

The 10 sites in this county include Stone House, Casselman bridge, Casselman hotel, Fuller-Baker log house, Braddock walking trail, Swallow Falls state park, Deer Park hotel site, Cleveland cottage, Oakland B&O station, Garrett County Historical Society museum, and B&O viaduct at Bloomington.

The group plans to erect signs at each site. The council also announced that the Appalachian Regional commission would hold a public briefing in this county on October 11 at 9:30 a.m., at Garrett Community college at McHenry.

Several Larcenies Being Investigated

A series of breakings, enterings and larcenies in the past three months continued through this week, with five more reported.

The home of Mr. and Mrs. Cecil Tennant, located about two and one-half miles west of Oakland on Route 39, was broken into on Monday, September 23.

Missing were some firearms, a stereo and a camera. Entry was gained by smashing a window in the side door of the home.

Mr. Tennant had been expecting something to happen, since his home had been entered on Friday. Nothing was taken at that time, however. He was at tempting to keep an eye on his home, but was away between 11:30 a.m. and 1:05 p.m. when the robbery occurred.

Other items from the house had been piled in the living room, but apparently the thieves were frightened away before they could load all the items.

Other Larcenies

On September 20, the home of Joe Newman, Harvey's Peninsula, was broken into and a television and other household items stolen.

On Saturday, September 21, two larcenies were reported, one at the Gene Trainor residence near Deep Creek Lake; and another at Oak Grove Tavern on Route 39 west of Oakland. At the tavern some money was taken about 1 a.m., just after the tavern was closed for the night by owner James Stewart. No report was available on the Trainor robbery.

On September 22, a robbery was reported at the house of C. L. Spence, Lake Shore Drive. Entry into the house was again made by breaking a window, and missing was a boat motor.

Investigation into all robberies is continuing by law enforcement officers.

Piney Run Nature Trail Is Opened

A new nature trail has been opened on the Piney Dam watershed a few miles west of Frostburg, in Garrett County.

The Maryland Forest Service of the Department of Natural Resources and the Natural Resources Institute of the University of Maryland announced the construction of the Piney Run Nature Trail. Piney Run is the major tributary of Piney Dam, the reservoir of the Frostburg water supply in Allegany County. The nature trail is located three miles north of Route 40 on the Piney Dam Road.

The trail was created to provide area students and adults with an accessible site for observing the relationship existing between man and the forest environment. It was conceived and designed by Kent B. Fuller, conservation educator of the Natural Resources Institute in LaVale and by Frank J. Stark, project forester of the Maryland Forest Service. Construction was done by work forces of the Forest Service under Mr. Stark's direction.

A guidebook to the trail has been written by Mr. Stark and Mr. Fuller and illustrated by Connie C. Stark, a free lance artist. Copies of the guidebook are available to school teachers and leaders of adult groups.

$290,000 Solid Waste Grant Given County

Garrett County Commissioners have been notified of approval of a $290,000 grant from the Department of Health, Education and Welfare for the local Solid Waste project.

The monies will be used to fund the Solid Waste Management Bureau for this county, which needed federal monies to adequately do the job of collection and disposal of solid waste to comply with state and federal environmental standards. The Solid Waste Management Bureau has the responsibility of implementing the Solid Waste plan.

The county has already set up a solid waste management bureau and plans call for expanding landfill operations.

The county has had a solid waste program for some time on a small scale. The present landfill is located at Round Glade, about eight miles from Oakland.

A number of projects, such as purchase of equipment, operation of the management bureau and salary for a manager, will be set up with the grant money.

It is hoped that large trash containers will be placed throughout the county, and regular pick-ups by a truck equipped with a fork lift will be made. It may be two more years before the program can be fully implemented, however.

Two Injured In Savage River Road Accident Recently

Of two recent accidents on Savage River road, one resulted in injury to two persons. Animals were involved in two other mishaps.

Two persons were injured as the result of a dog jumping on the lap of the operator.

Richard S. Stewart, operator of the pick-up, and one of his two passengers, Thomasine Gates, both of Keyser, W. Va., were taken to the Potomac Valley Hospital. Stewart was driving south on Savage River road when a large dog riding in the pick-up, jumped onto the lap of the operator. This caused Stewart to lose control, run off the left side of the road, down an embankment and turn over. Tfc. Ronald Lewis investigated the accident which occurred the evening of September 13.

A combination of fog and some cows were blamed for an accident on U.S. Route 219 about 3.6 miles south of Red House early last Thursday morning.

Ready Reserve

Ready Reserve is a line of credit extended to checking account customers who would like to have an additional supply of cash. In some cases, that line of credit can be as high as $5,000 depending on the amount you wish to have, and the amount you qualify for.

All you have to do is tell us how much of your reserve you would like to use . . . and then write a check. For example, suppose your line of credit is $1,000 and you want to buy an appliance that costs $400 — but you only have $100 in your checking account. To buy that appliance without altering the balance in your checking account, you simply mail or bring into GNB a deposit order and ticket that tells us to transfer $400 of your reserve into your checking account. Then you can write a check for the cost of the appliance. The money you use becomes a low-cost loan repayable in convenient monthly payments. Your reserve is reduced to $600 . . . and the balance in your checking account remains $100. It's that easy.

The money you borrow from your reserve can be used for whatever you wish to use it for . . . appliances, home improvements, vacations, extra cash. In fact, the bank never has to know how you spend the money.

1. BE WISE, analyze. Then make up your mind. If you don't stand for something, you'll fall for anything.
2. DON'T COLLECT GARBAGE. Dump dirty thoughts fast.
3. STOP AND THINK BEFORE YOU DRINK. Why battle your way to the top and bottle your way to the bottom.
4. DRIVE TO ARRIVE ALIVE. It would be better to be a little late down here than too early up there.
5. BE SMART, OBEY AUTHORITY. You'll give orders yourself someday.
6. GIVE YOUR LIFE TO JESUS. He can do more with it than you can.
7. STOP POLLUTION. DON'T SMOKE. It's dumb, dirty, and deadly.
8. SELECT YOUR FRIENDS WISELY. You'll become what they are.
9. PLAY IT COOL, STAY IN SCHOOL. Your brain is no stronger than its weakest think.
10. DON'T HANG YOURSELF WITH THE DOPE ROPE. Dope today dulls hope for tomorrow.
11. CHOOSE A DATE FIT FOR A MATE.
12. LOVE, HONOR, and RESPECT your neighbor.
13. CONTROL YOUR TONGUE or you may wind up in your own mouth trap.
14. TREASURE YOUR TIME. Don't spend it, invest it. Live this day as if it were your last.
15. PURSUE AND PRAY FOR PEACE.
16. ATTEND THE CHURCH OF YOUR CHOICE every Sunday and avoid the Easter rush.
17. SUPPORT YOUR LOCAL PARENTS. You'll soon stand where they stand.
18. DO YOUR BEST. Good is the enemy of best. Success is sweet, but its secret is sweat.
19. READ THE BIBLE REGULARLY. Its Christian principles gave this nation a firm foundation.
20. MASTER YOUR HABITS AND HANGUPS or they will master you.

meeting, the commissioners approved an additional $500 for the Garrett County Commission on Aging. The Commission on Aging is responsible for implementing the bus system for the county in cooperation with the Maryland Department of Transportation. The State will pay 95 percent of the cost of the buses, with a five percent, or $750, cost to the county. The Appalachian Regional Commission has also contributed to the operation of the system until it should become self-supporting.

George Comp, project director for the Centralized Communications System, and Sheriff John Browning discussed installation of the radios for the sheriff's department vehicles. The new automobiles were purchased with Federal Revenue Sharing funds and state funds. The commissioners also met with representatives of the owners of the tower site to see if permission for a right-of-way could be worked out in order to install the antenna and maintain it.

The commissioners also discussed the contract with the Department of Economic and Community Development for a feasibility study on the proposed conference center for the county. The contract would include all aspects of marketing, environmental impact and ecunomic impact.

Chairman of the commissioners Wayne B. Hamilton informed the Water Resources Administration for the Department of Natural Resources that the commissioners feel a proposed deep mine site in the Grantsville area would benefit the ecunomy of residents there if fully operational, but that no exceptions to state and federal requirements should be permitted, as it may cause irreparable damage to the county resources

O'Leary Girl

(Continued From Page One)

in Grant county, W. Va.

Two of Potomac Edison's electric lines stretched across the stone, which is owned and maintained by the R. H. Armstrong company and Fairfax Sand and Crushed Stone Company, near Thomas, W. Va.

Lawyers for the O'Leary child, Pat Maroney and Sterl Shinaberry, Charleston, argued that Potomac Edison was liable under the National Safety Code, which requires that electric lines in rural areas be at least 15 feet above the highest natural contour.

Potomac Edison's attorney Clarence Martin, of Martinsburg, argued that Potomac Edison did not create the gravel pile, saying that others elected to pile gravel under the lines.

The trial involving R. H. Armstrong and Fairfax Sand is set for November.

Although children were instructed not to play in the area, there was no fence and no sign prohibiting trespassing. The O'Leary child and a seven-year-old boy were playing on the gravel at the time, and the girl was injured when she reached up her hands to wave at a friend.

Although the girl won $300,000 from Potomac Edison, she will not receive the total amount. A total of $27,421.72 will be used to repay her mother for money already spent on hospital bills and special medical care for Dawn, including two prosthetic devices to replace her arms.

The girl's lawyers received 25 percent of the remaining amount plus $925.75 for expenses such as travel costs and litigation fees, for a total of $69,109.58.

Government Thrift First

Our new President has named inflation as the country's No. 1 enemy and has taken the first step to start the war against it.

Unfortunately, to our way of thinking he has started out by shuffling his feet and has held back on his real knockout punch.

On August 21, he signed the bill he asked for, to set up a Council on Wage and Price Stability. The new council will monitor the various facets of inflation. However, it will adopt a "Look but don't touch" attitude, hereby escaping the mess the former Cost of Living Council created with its wage and price controls.

President Ford himself sees little immediate results coming from his new council. In signing the legislation creating it he said: "It would be unrealistic to expect the council to bring any immediate relief from inflation. Industry and labor will have their work cut out for them in exercising every possible restraint in price and wage increases. We face an uphill road, and we will make it through only if we all pull together."

The Council cannot have any effect on inflation except to point out where it is hitting the hardest and then attempt to persuade those involved to back up.

However, the President did make a statement that we believe should have been his first consideration in the battle against inflation, instead of setting up a Council simply to tell us we are suffering from higher prices. That first consideration should have been reducing the Federal Budget.

The President declared "We are going to hold the line on spending. The target of course, is a figure in this fiscal year of under $300 billion. We can do it. We are going to do it. And that ought to be reassuring, I think, to the American people."

Mr President, we agree that that is reassuring. We need a substantial cutback in government spending to beat inflation, a lot more than we need a Council to tell us how high prices and wages have increased.

County Receives Grant For EMS

The Garrett County Commissioners have received $42,800 from the State Department of Health and Mental Hygiene to develop an Emergency Medical Services plan for the region I EMS system in Maryland.

Region I includes Allegany and Garrett counties and the Garrett commissioners were chosen to handle the funds because of a similar grant they received from the federal Department of Health, Education and Welfare, through the Appalachian Regional Commission.

Chairman Wayne B. Hamilton of the commissioners, said the county had seen great strides in growth and professionalism of local rescue squads. "We now have competent personnel in the ambulances with the patients," he said.

The two rescue squads Northern Garrett County, and Southern Garrett County, have been in operation for two years. The County Commissioners purchased two new ambulances for the squads last year.

Effective emergency medical care in rural areas is a severe problem because of poor communications, indefinite addresses and isolated housing. Mr. Hamilton said the EMS plan is the first step that needs to be taken to eliminate some of the problems people have had in getting emergency medical attention.

Double Accident Occurs On Savage River Road Sunday

One accident followed another late Sunday evening on the Savage River road. Two other wrecks occurred late Saturday, one a hit-and-run. All four were investigated by Tfc. Ronald Lewis of the State Police.

Harold S. Warnick Jr., Lake, was traveling north and Lonnie L. Warnick, Westernport, south on Savage River road about 5 p.m. Sunday and met at a narrow spot in the roadway. The headlight was out on the left side of the car of Lonnie Warnick. This caused Harold Warnick to misjudge the passing space, resulting in a collision.

Trooper Lewis charged Lonnie Warnick with having only one of two required headlights lit.

Luther O. Arnold, Westernport was traveling south and stopped because of the above described accident. Robert L. Showalter, Keyser, following, hit the Arnold vehicle in the rear. Trooper Lewis charged Showalter with failing to reduce speed to avoid a collision. The first accident was marked by flares at the time of the second.

The hit-and-run occurred as Margaret A. Ward, Irwin, Pa., was headed west on Glendale road and stopped at the Glendale bridge waiting for traffic to cross. Her car was struck in the front by a car which failed to stop. The information on the second car was given to Margaret Ward and was found to be a car registered under the name of Edward M. Palinso, Charleroi, Pa.

A two-car mishap occurred on the Ben DeWitt road at U.S. Route 219 late Saturday night.

Mobile Eye Care Clinic Returning

The Eye Care mobile clinic is returning to the county Thursday, October 10, sponsored by Blind Industries and Services of Maryland and the county health department.

This year it will be necessary to collect fees from patients and other sources in order to help pay for the cost of operating the clinic, it was announced by Dr. William W. Pope, county health officer.

There will be three categories of fees, full: $18 per examination, 50 percent discount, $9, and a group which will be paid for by medicaid, social services or the crippled children's program. The clinic will remain four weeks and visit different areas. The examination will include ophthalmoscopy, refraction, gross visual field and muscle balance tests, tonometry, medical diagnosis, prescription of corrective lenses and or referral to continuing eye care as indicated, Dr. Pope said.

Appointments may be made by calling the health department. To qualify for 50 percent discount a family's income must be below the following: one in family, $350; 2, $400; 3, $450; 4, $500; 5, $550. Patients having medical assistance cards should bring these with them, as this will cover the cost of the examination.

To qualify for free service the patient must be 60 or over, disabled or blind, and have an income less than the following standards: one in family, $262; 2, $375; 3, $508; 4, $624; 5, $700. Final determination of eligibility for free services will be made by Social Services.

Children under 18, referred by crippled children's services will be examined at no cost to the patient, but cost will be picked up by the health department.

Last year 703 patients were examined at five locations. Prescriptions for glasses were given to 165 persons and 36 were referred for further observation and care to local eye specialists for suspected glaucoma and cataracts.

A new service this year will be scheduling follow-up clinics.

Cong. Byron Seeks White House Meet

Rep. Goodloe Byron has joined with Rep. William Steiger (Wisc) and Rep. William Wampler (Va) in requesting a special White House meeting to discuss the economic problem facing America's dairymen.

In a telegram to President Ford the group expressed concern over increasing dependence on dairy product imports and the "distorted cost price ratio" confronting the small dairymen.

Byron said the dairymen in Western Maryland face the same serious morale problem as dairymen in other parts of the nation.

Combined Groups Conduct Simulated Search and Rescue

A simulated search and rescue drill was held on Sunday Sept. 22. This test exercise involved six fire companies: Accident, Grantsville, Bittinger, Friendsville, Deep Creek Lake and Eastern Garrett Co. Representing the Md State Police were Lt. Wm. Turnbull Tfc. Carl D. Skidmore, Tpr. C. Ronald Georg, Tfc. Daniel E. Tharp the investigating officer, and Tfc. Frederick Yeager K-9 corps and Duke. Civil Defense George Comp, State Forestry Dept. Robert Warnick, and numerous members of Northern Garrett County Rescue Squad (NGCRS) with ambulance, EMT's and the county communications vehicle.

The victim, Michael Matese, 16, son of John and Lois Matese, Frostburg, was reported lost in a wooded area 2 to 3 miles East of Accident, near the home of Ronald Georg.

According to the youth's uncle, Carl Skidmore, he and Michael were "bird watching" when they became separated and Michael failed to return. The victim was reported to be a Diabetic and last seen around 8 o'clock a.m.

The call was initiated at 3 o'clock p.m. with the first units arriving within 20 minutes. After a 3 hour search under threatening skies and driving rain the victim was found, semi-conscious with Insulin Shock, a closed fracture of left femur, compound fracture of left radius, abrasions of left leg and ankle. His injuries were treated, his condition was stabilized and was transported by NGCRS.

Each search squad consisted of 10 persons, including 1 fireman of the area to be searched with a walkie-talkie for communications to the base station, 1 EMT with emergency care supplies, 1 person familiar with the area, the remaining 7 persons were volunteers.

The communications vehicle manned and housed by NGCRS screened and registered all volunteers. This vehicle was the base station for all communications during the search. This vehicle and personnel are available to both Garrett and Allegany Counties for any and all major disasters and searches.

Due to the numerous searches in Garrett County during the past few years, a plan was initiated by the Md. State Police-NGCRS, and local fire companies to provide a more thorough, organized, efficient system for a quicker recovery of the victim. The fire companies, Northern and Southern Rescue Squads have been briefed and adopted the aforementioned plan.

A similar assimulated search and rescue drill is being planned for the southern end of the county in the near future. A combined critique will follow the next test exercise.

Refreshment for the staff and victims were provided by Mrs. Ronald Georg.

Observers included peuple of the local area and members of the Southern Rescue Squad.

Injuries and Make-Up for the victim were expertly done by Mrs. Dotty Folk, and Mrs. Shirley Baker, members of the Northern Garrett Co. Rescue Squad.

To Observe 50th Event

There will be an open house honoring Mr. and Mrs. Charles R. Carr, of McHenry, on their fiftieth wedding anniversary on Sunday, October 6, from 2 to 4 p.m., at the Deep Creek fire hall in McHenry, it was announced. Friends and relatives are invited.

Who Is The "Establishment?!"

Under an immense geodetic dome at Southern Illinois University is a completely detailed map of the world which occupies the space of three football fields. Operating under grants from the Ford, Carnegie, and Rockefeller foundations (all interlocked with a super-rich conspiracy called the Council on Foreign Relations (CFR) a battery of scientists are making plans to control people. These elite planners conduct exercises in what they call the "world game." For example: There are too many people in Country A and not enough people in Country B. We need so many males, so many females, so many of this occupation, so many of a certain age. How do you get these people from Country A and settle them in Country B in the shortest possible time? Another example: We have an uprising in Country C (or as it would now be called, District C). How long does it take to send UN "Peace" forces to stop the insurgency?

If you plan on running the world, you need an all-powerful WORLD GOVERNMENT. You can't do this if individual nations have sovereignty. And before you can facilitate the Great Merger, you must first centralize control within each nation, destroy the LOCAL police, and remove the guns from the hands of the citizenry. You must reolace our once-free Constitutional Republic with an all-powerful central government.

The American middle-class is being squeezed to death by a sort of political vise. Pressure is being applied from the top, and from the bottom. At the bottom, we have avowed revolutionary groups such as the Black Panthers, the Young Socialist Alliance, the S.L.A. and the S.D.S. These groups chant that if we don't "change" America, we will lose it. By "change" these grouos mean Socialism. Virtually all members of these groups believe sincerely that they are fighting the ESTABLISHMENT. In reality, they are an indispensible ally of the ESTABLISHMENT in fastening Socialism on all of us. The naive radicals think that under Socialism the "people" will run everything. Actually, it will be the ESTABLISHMENT insiders in total control, consolidating and controlling all wealth. That is why these schoolboy revolutionaries are practically never prosecuted. If the ESTABLISHMENT wanted the revolutionaries stopped how long do you think they would be tolerated? Instead, we find that most of these radicals are recipients of largesse from major foundations, or are getting government handouts through the War on Poverty, etc.

The ESTABLISHMENT is NOT our government! It is a group of powerful men who are USING the government. The Rothchild-Rockefeller-C.F.R. Insiders at the too "surrender to the demands" for Socialism from the mobs below. The radicals are doing the work of those whom they hate the most.

Who is really fighting the ESTABLISHMENT? A group of 100,000 of the most informed and dedicated patriots in the world — the JOHN BIRCH SOCIETY. Is it any wonder the ESTABLISHMENT media have been trying to destroy us (very unsuccessfully!?? For more information on the C.F.R., read NONE DARE CALL IT CONSPIRACY. Curiously, it is not available on your local newsstand, nor is it ever reviewed by ESTABLISHMENT mags. Nevertheless, it is a best-seller. People pass them around.

Patients Who Read Are Happy With Library Programs

County nursing home patients who enjoy reading have been more content the past two years, since the inauguration of a reading program by the Ruth Enlow Library.

The library began the program at Cuppett-Weeks Nursing home with a semi-monthly film program, formerly handled by the nursing home Volunteer program. At that same time, they placed a collection of books in the home for the patients to read, changing the collection frequently.

Last year, the library personnel began operating a mobile library, consisting of a book cart containing a variety of books and magazines. A collection of large-print books, from the Maryland State Library for the Physically Handicapped, is also available from the cart.

This mobile library is wheeled from room to room once each week, and patients are invited to borrow as many books as they can read in one or two weeks. Pictorial magazines and books are loaned to those who cannot read.

The library project was first coordinated by Phillip Barton, project coordinator for the Community Center libraries, with the assistance of Mrs. Marilyn Cosby.

Later the duties were assumed by Mrs. Jane Garrett Nolan. Mrs. Ellen Zimmerman is doing the weekly honors for the library at this time.

The reading audience at the Home has steadily increased, so that now approximately 25 patients are served each week.

Arrangements have also been made to provide the nursing home with a few talking book machines and a rotating collection of talking books, made especially for those who can no longer read. These machines and books are also obtained from the Maryland Library for the Physically Handicapped.

Goodwill Program

Two years ago, a collection of books was deposited in the Goodwill Mennonite Nursing Home for interested patients. The collection is changed there as patients request it.

A few talking book machines are also on loan to this facility, as well as a rotating collection of the talking books.

In the spring of 1973, Dr. Jean Shaw held a workshop to train a group of people to read aloud to the aged. Participants included persons from the staff of the Library, Grantsville residents and students from Yoder School. Some of the participants, particularly a group of young girls from Yoder School, began regular visits to the home.

Also in 1973, a semi-monthly filmstrip program was initiated, largely conducted by a student from Yoder School. At present, neither the filmstrip nor read aloud programs are being conducted, although the latter may resume since school is again in session.

Miss Bonnie Elizabeth LeHew, Baltimore, became the bride of Sp4. Edward Bradley Kelley, Special Forces Airborne, Green Beret division, Fort Bragg, North Carolina, on Saturday, August 31.

The candlelight, double ring ceremony was performed by Rev. R. Greynolds at the Timonium United Methodist Church.

The bride is a daughter of Mrs. Genevieve Serio, Baltimore. The groom is a son of Mr. and Mrs. Cecil Kelley, Timonium, and a grandson of Mr. and Mrs. Harper Kelley, Grantsville, and Mr. and Mrs. Cecil Schroyer, Friendsville.

Given in marriage by her brother-in-law, Gary Ceska, the bride wore a gown of white satin fashioned with a full skirt and long sleeves. The high waistline and neckline were trimmed in lace which matched her veil. She carried an old-fashioned bouquet of white summer flowers.

Mrs. James Shewell was matron of honor. Bridesmaids were Misses Candy Adlam, cousin of the bride, and Pamela Kelley, sister of the groom. The matron of honor chose a pink and blue flowered dotted Swiss dress, fashioned similar to the bride's but with cape sleeves. She wore a large picture hat trimmed in blue and carried an old-fashioned nosegay of blue and white flowers.

The bridesmaids wore matching dresses of pink dotted Swiss, white hats trimmed in pink and carried pink and white nosegays.

Miss Karen Ceska, niece of the bride, was flower girl. Steven Davis Kelley, brother of the groom, served as ring bearer. Sp4. Phillip Yannacone, Fort Bragg, was best man. Ushers were Sp4. David Romansky and Sp4. Timothy Taylor, both of Fort Bragg. The ushers are serving with the groom in the Green Berets.

Mrs. Kelley, mother of the groom, chose a floorlength, sleeveless dress of soft blue trimmed in lace. The bride's mother wore a floor-length dress of pink lace trimmed with tiny buttons from neck to hem.

Zelma Kelley, sister of the groom, wore a dress identical to the bridesmaids' and acted as hostess. Jeff LeHew, brother of the bride, acted as host.

Following a reception in the church social hall, the couple left for a honeymoon in the southern states. They will reside at Fort Bragg, N.C.

Capitol Comment

By Charles McC Mathias
U.S. Senator

Keeping Warm This Winter

In some parts of Maryland, the price of home heating fuel has risen almost 50 per cent over last year's cost. This sharp increase poses a serious threat to many of our citizens who live on limited or fixed incomes and may be unable to buy the fuel they need to keep their homes warm this winter.

We can not tolerate that possibility, and we must act now to prevent such a situation from developing.

I proposed in the Senate that the government immediately study the feasibility of establishing a national fuel stamp program, which—like the food stamp program now in effect—would permit citizens with limited financial resources to obtain the home heating fuel they need.

The Senate quickly approved my proposal as an amendment to the Energy Supply Act. Regardless of the ultimate outcome of the complete bill, I think the Senate's action on my plan is a message that the government must heed because of the critical nature of the problem that many citizens face this winter.

I am urging, therefore, that the Federal Energy Administration and the Department of Health, Education and Welfare proceed with the 60-day feasibility study that I proposed so that it can be determined quickly whether a fuel stamp program can be established.

Such a program could operate through the machinery that already exists for the food stamp program—principally through local welfare offices.

A fuel stamp program must go beyond welfare recipients, however. It also must direct attention to persons on fixed incomes—men and women on Social Security, retired military or civil servants, or beneficiaries of other pension programs.

It is these citizens who are bearing the brunt of inflation, and the rising price of home heating fuel places an additional burden on their shoulders. I do not think it is asking too much for the federal government to assist them under these circumstances.

County Joins In W. Md. Consortium

Garrett county has joined with counties of Allegany, Washington and Frederick in a consortium, known as the Western Maryland Manpower Consortium, and as such this county will now be engaged in a public service employment program under Title II of the Comprehensive Employment and Training Act of 1973. The Commissioners have named Earl C. Savage as administrator of the program in this county and his office will be in the Court House.

Purpose of the act, according to Mr. Savage, is to provide job training and employment opportunities for economically disadvantaged, unemployment and under employed persons and to assure that training and other services lead to maximum employment opportunities.

Major objectives through the grant are designed to provide needed services to all areas of the county that have not previously been available under auspices of county government.

Participation will be limited to bonafide residents of the county. Special consideration would be given to unemployed Vietnam and disabled veterans, welfare recipients and former manpower trainees presently unemployed, Mr. Savage said.

All positions funded by this program will be listed with the Maryland State Employment Service office, which will be responsible for determining eligibility.

Mr. Savage said many positions within the public service areas are to be filled under the program including the solid waste disposal system, county-wide emergency communications system, forestry service, emergency rescue service, around the clock coverage at the county jail, additional employment in the county roads department, additional public clerical assistance, and others. All positions are to be classified as county employes with the county commissioners as the prime sponsor of the program.

French Fry Booth Sales Impressive

The financial statement concerning the results of the French Fry booth of the Oakland Rotary club at the county fair at McHenry in August shows some interesting statistics.

The club realized more for the six-day project than for any previous year, with a gross intake of $5,613.51, and a net profit of $3,696.90. Total expenses were $1,916.41. Largest day was Saturday with receipts of $1,529.14 for just French fry sales and soft drinks. The money will be used for local youth projects and foreign student exchanges.

The figures showed 9,600 pounds of potatoes used, 100 gallons of oil, 22 boxes of salt, 80 gallons of catsup, 20 pints of vinegar. There were 5,800 soft drinks sold.

The report was distributed at the club's weekly meeting last week by Frank Custer, project chairman.

County Coordinator Named By Byron

Rep. Goodloe Byron, two-term Democratic incumbent candidate for Maryland's 6th Congressional District, today named his campaign Coordinator for Garrett County.

Mrs. Bernard (Kitty) Gonder was appointed to the "Byron for Congress" post, the same position she held during Byron's 1972 re-election bid. She will organize and coordinate all campaign activities in Garrett County.

Mrs. Gonder is a life-long resident of the area and her husband, Bernard I. Gonder, Sr., served in the Maryland State Senate from 1943-45 and 1961-63.

Too many pressing responsibilities in the Lord's work. The congregation couldn't afford to have its church painted.

But painted it was!

That was a glorious Saturday—no picnic or ball games, just hours of hard work. And what with the paint supplied at cost by a local dealer, and the brushes loaned by the very painter who might have hoped for the contract—nobody made a nickel!

But the remarkable thing is that nobody in town thought all this remarkable . . .

You know Christianity has had a deep influence on the life of a community when we begin to take for granted the zeal and sacrifice of Christian neighbors. The next step is to add our strength and faith to theirs in the worship and work of the Church.

THE BIBLE SPEAKS

BY LAWRENCE W. ALTHOUSE

SURVIVING CHANGE

Lesson for September 29, 1974

Background Scripture: I Samuel 8, 12
Devotional Reading: Psalms 90:1-6.

We are fond of speaking of "the good old days." Of course, one man's "good old days" may be another's "hard times." Much depends upon your point of view.

For example, the people of Israel had quite a few periods of "good old days" to look back on. They could remember the nomadic days of Abraham, Isaac, and Jacob as "golden years." Others might look back to the days and years spent in Egypt before the Pharoah turned against them. Still others might look back with great nostalgia to the forty years in the wilderness under Moses and some might feel equally sentimental about the period of the Judges, when the twelve tribes took over the Promised Land from the Canaanites and Phillistines.

Rev. Althouse

A "New Fangled" Leader

In I Samuel we find that once again the people of Israel are in the midst of changing times. The "good old days" when the twelve tribes lived side by side in a loosely-connected federation with no central government were soon to be over. What had worked for many years no longer seemed to be equal to the challenge of changing times. The strength and capabilities of their enemies seemed to demand that they would need to come up with a new style of leadership and cooperation. The old voluntary, decentralized system was not adequate.

Still, the people of Israel were much divided over what they should do. Many feared establishing a monarchy. They could see the abuses and corruptions in the monarchies of their neighbors. They rightly feared that a centralized government would mean the loss of individual and tribal liberty. They correctly anticipated the tyranny that is possible in a centralized government. All the things they feared ultimately came true!

Call Upon The Lord

Yet, even though they were to radically change their way of life, even though the establishment of a monarchy would bring some hardships and call for some sacrifices, it was one of the facts of life they would have to face in the midst of changing times. Instead of wishing they could go back to Egypt or the wilderness, they had to face the fact that new days were demanding new ways.

How could they survive these changes that were taking place? The prophet Samuel showed them the way. Though they could not keep the world from changing around them, they could keep one thing constant and unchanging: their loyalty to God and their covenant: "Only fear the Lord and serve him faithfully with all your heart..." (12:24). If they would remain faithful, God would bring them through these trying times.

So, we find a message for our own changing times: we cannot stop the world from changing, but if we remain faithful in the midst of that change, God will bring us through with his love and grace.

Congressman Goodloe Byron

This regular column serves as another vehicle to keep in touch with all segments of my constituency. It is an open invitation for you to question me on issues, let me assist you with your problems, request information or comment on whatever happens to be on your mind. Letters should be sent to me, c o U. S. House of Representatives, Washington, D. C. 20515.

While space is obviously limited for printing all replies, I shall make every effort to answer each person who contacts me.

The following questions were typical of the kind asked of me in recent weeks:

Did Congress repeal the ignition interlock system on new cars?

Both the House & Senate overwhelmingly went on record in favor of repealing the federal requirement that all new cars be equipped with seat belt ignition interlock systems that made it impossible to start a car before the passengers had buckled their seat belts.

Who would our mayor contact to obtain details on federally-subsidized flood insurance?

Information on the National Flood Insurance Program is available from the Federal Administration, Washington, D. C. 20410.

How do I apply for a position in the foreign service?

Employment in the Foreign Service is based on a competitive examination system. Candidates may obtain applications and specifics by contacting the Board of Examiners, Rosslyn Station, Box 9317, Arlington, Virginia 22209.

Does the government publish any literature on boating, for novices?

The Maryland Department of Natural Resources publishes several leaflets on boating and fishing, including a self-instruction course on Basic Boating and a Boating Handbook for Maryland Waters. For further information, I suggest you write Department of Natural Resources, Tawes State Office Building, Annapolis, Maryland 21401.

Are all service stations now required to sell unleaded gasoline?

According to the Environmental Protection Agency, all service stations selling 200,000 gallons or more of gasoline a year must have at least one pump of unleaded gasoline.

I understand the 55 mile per hour speed limit will continue on our Nation's highways. Please verify?

Last week the Senate unanimously passed an interim highway measure which included provisions to make the 55 mile per hour speed limit permanent.

Do you have any information on hiking in our National Parks?

The Federal Government publishes two booklets which might be of interest to you: "Backpacking in the National Forest" (40 cents) contains pointers for backpacking, necessary equipment and a list of backpacking areas; and "Camping in the National Park System" (50 cents) details sites, fees, facilities and recreation areas in the national parks. You may order the publications directly from Consumer Information, Pueblo, Colorado 81009.

Where I Stand

By George C. Edwards

Republican Candidate for Garrett County Commissioner

"Bringing Government Back To The People"

The best way to determine what people think about county issues is to communicate with them.

We need to have open meetings in the evening in the different communities throughout the county to give people an opportunity to express their views on county issues.

I will talk and listen to the workers at their respective jobs about the ideas they have for improving our local government and for solving many of their individual problems.

I am not opposed to having special referendum elections on major issues that affect the entire population of Garrett County.

Garrett Countians have good ideas and I want to give them an opportunity to express them.

I feel that these are some of the ways to

CHEVROLET FOR 1975.
CARS THAT MAKE SENSE FOR TODAY.

Nova LN Sedan

Monza 2+2

GM

MONZA 2+2 The small car of tomorrow will probably be a little more powerful, handy and comfortable than ever. The 1975 Monza 2+2, shown above, offers this today. It has advances like rectangular headlights set in a soft front end, fold-down rear seat, and a new 4.3-litre V8 engine available.

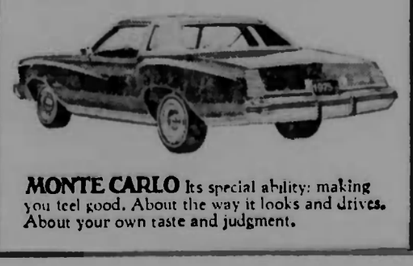
NOVA In the background above, our new Nova LN Sedan. A luxurious Nova with thick carpeting and wide-back reclining front seats. For 1975, all Novas have been emphatically refined along the lines of elegant European sedans. Nova's always been good. Now it's beautiful.

CAMARO Our sensibly sporty compact. It looks like a million and drives like it looks.

IMPALA America's favorite car continues to provide the room many families need plus plenty of quiet and comfort. Still the great American value.

WAGONS Big ones, small ones, in-between ones. Practical wagons that make sense for America. And you.

CHEVELLE Mid-size, easy to drive, room for six, mid-priced, strong reputation for value. America's most popular intermediate.



MONTE CARLO Its special ability: making you feel good. About the way it looks and drives. About your own taste and judgment.

CHEVROLET'S NEW EFFICIENCY SYSTEM FOR 1975 It's the key part of a program aimed at helping our new cars run leaner (more economically), run cleaner—and save you money every mile.

The Efficiency System is standard on all 1975 Chevrolets with V8 or 6-cylinder engines. It's a series of significant engineering improvements working together for the very first time.

Components include High Energy Ignition, catalytic converter, Early Fuel Evaporation and steel-belted radial ply tires. In sum, the System is designed to heighten the pleasure and lower the cost of driving a 1975 Chevrolet—to bring you a better running car in many ways, along with improved fuel economy, more miles between recommended maintenance and an engine that stays cleaner internally because of no-lead fuel.

Your Chevrolet dealer will gladly give you the details and answer your questions. See him and the sensible 1975 Chevrolets starting September 27.

Braddock Trail Plan Is Pushed

Plans are being made through the efforts of the counties Bicentennial Committee and the Historical society to construct a hikers' trail along the original traveled by General Edward Braddock in 1755. Preparatory work has been done by John S. Elliott, Grantsville, and Robert J. Buckert, Oakland.

Modeled after the Appalachian Trail which extends 2000 miles from Maine to Georgia, the Braddock trail will total only 100 miles from Cumberland to Turtle Creek, Pa., and the Monongahela River.

The history of Braddock's expedition, by Sargent, has been helpful in tracing the route followed. The route covers Allegany and Garrett counties in Maryland and Fayette and Somerset counties in Pennsylvania.

Mrs. Miriam K. Mirkin, chairman of the Allegany County Bicentennial committee, met with Mr. Elliott and Mr. Buckert in Grantsville last week.

Beverage Group Meets

Working committees of the group were selected for a chicken barbecue to be held at the Fairgrounds at Mcthony on Sunday, October 13, during the motorcycle races, sponsored by the Deep Creek Lake-Garrett County Promotion council.

Vice President Glenn Lyons reported on a state board meeting he attended at St. Mary's county in August. Delegates for the 25th anniversary convention at Ocean City in October will be Glenn Lyons, James McDonald, Mr. and Mrs. Harry Seggie.

Column For Homemakers

PICKLES

Look in old cookbooks and read the handwritten notes in them. You'll notice recipes in which Great-grandmother used grapes leaves in making pickles. She believed they helped make good pickles. Some modern cooks scoff at the idea, but research indicates oldtime pickle makers knew what they were doing.

Scientists today have discovered that grape leaves contain a substance that inhibits the development of the enzymes that cause cucumbers to soften in the brining.

Wash grape leaves and layer them with cucumbers in brine, discard them when you make pickles.

The mustard pickle recipe was given to me by a good homemaker. You don't need glass jars for this.

Mustard Pickles

3 gal. cucumbers, ½ gal. water, ½ gal. vinegar, 1 c. coarse salt for canning or pickling salt, 1 c. white sugar or 1½ c. brown sugar, 2 small boxes dry mustard, 1 tbls. powdered alum.

Mix all ingredients in a large crock. Wash cucumbers and put in vinegar solution. Put a plate and a weight on top to hold down cucumbers. The weight might be a jar of water. You can also add dill and garlic to this recipe, you can keep adding cucumbers as you have room. Pickles are ready to eat in 3 to 4 days.

Answers to questions on pickling:

1. What kind of salt should be used? Canning and pickling salt.
2. What causes pickles to become soft? Too weak brine and enought vinegar in the solution or vinegar too weak in acidity.
3. What acidity should be the vinegar for making pickles? 5%.
4. Why do pickles shrivel? Placing cucumbers at once in heavy syrup, very strong brine or vinegar. Allowing too much time between gathering and pickling.
5. In making dill pickles can the dill seed be used rather than dill weed? 2 tablespoons dill seed per quart jar may be substituted for dill weed.

FREEZING TOMATOES

Select firm, sound ripe or green tomatoes. Wash, core and peel. May be frozen whole or cut in slices one-fourth inch thick. Freeze slices on cookie sheet and put in freezer bags or boxes. If you pack before freezing use freezer wrap between slices.

LETTER TO THE EDITOR

Dear Sir:

Your newspaper is fortunate in having on its staff a writer of such proficiency as Carol Canan. Her recent two-part feature on the Bloomington Lake Project could not have been written with such accuracy and concern for detail without extensive research, and her ability to transform facts and figures into interesting readable prose implies considerable literary talent. Her photographs accompanying the article vividly illustrated the many phases of a complex undertaking, and was further evidence of her diligent quest for pertinent material.

This office has received numerous favorable comments on the feature, both officially and from the public. Many persons expressed surprise at learning of the existence of such a large project in the area, and were pleased to be informed of it through such a comprehensive treatment of the subject.

Compliments are certainly in order for Carol Canan, not only for this latest effort but for her excellent coverage of many other topics in the past. It is hoped the results of her writing abilities will appear again soon and many times thereafter in the pages of your publication.

Sincerely,
Kenneth E. Ridder, Manager

Employment Drops In State In July

Employment in Maryland, in July, dropped by 3,200 from June to 1,765,300, but still up 4.0 percent from last July, according to the monthly employment report released today by the Department of Employment and Social Services.

The decrease was attributed to seasonal factors, a decline in the number of new job seekers, and the summer closing of public schools.

During July, the Unemployment Insurance Division received, statewide, a weekly average of 5,166 initial unemployment insurance claims, and an average of 25,539 continued claims for a total weekly average claim load of 30, 705. In July, 1973, initial claims averaged 4,502 per week, and continued claims averaged 22,042, for a weekly claim load of 26,544.

Statistics for Garrett county showed a labor force of 10,030, with 9,335 employed and 695 unemployed for an unemployment rate of 6.9.

(Continued From Page 23)

the 15th day of July, 1973, at which time the said Kenneth Wayne Bittinger deserted the said complainant while they were residing in Baltimore City, Maryland; that although the conduct of your oratrix towards her said husband has always been kind, affectionate and above reproach, the said Kenneth Wayne Bittinger, without just cause or reason, abandoned and deserted her, and has declared his intention to live with her no longer, and that such abandonment has continued uninterruptedly for more than twelve months, is deliberate and final, and the separation of the parties is beyond any reasonable expectation of reconciliation; that two children were born of the said marriage, namely: Kenneth Scott Bittinger, born January 25, 1967 and Kimberly Ann Bittinger, born September 3, 1969 and who reside with your oratrix; that the complainant is a resident of Garrett County, Maryland, and has resided in this County and State for more than one year prior to the filing of this Bill of Complaint, while the respondent is a non-resident of the State of Maryland, and his last known address was: 709 Aledo, Coral Gables, Florida.

MAYOR AND TOWN COUNCIL OF OAKLAND, MARYLAND

$200,000 Town of Oakland Water System Bonds of 1974.

Sealed bids will be received by Mayor and Town Council of Oakland (the Town), in the offices of the Town in the City Hall, Oakland, Maryland until 12:00 o'clock Noon, E.D.T., on September 30, 1974, for the purchase of $200,000 Town of Oakland Water System Bonds of 1974, issued pursuant to the authority of a Resolution passed by the Town on September 16, 1974, in the denomination of $10,000, numbered consecutively from one upwards and maturing within a period of ten years, in the order of their consecutive numbers in serial annual installments of $20,000 (two bonds in each year).

The authority of the Town to pass such Resolution is set forth in Article 23A, Sections 31 to 39, both inclusive, of the Annotated Code of Maryland (1973 Rep. Vol., 1973 Cumm. Supp.), and Section 462 of Article 12 of the Public Local Laws of Maryland (Code of Public Local Laws of Garrett County, 1957 Ed., as amended).

The Bonds will be dated on the date of issue and interest will be payable thereon on the fifteenth day of April, 1975, and on the fifteenth days of April and October in each year thereafter until maturity. Both the principal of and interest on the Bonds will be payable in lawful money of the United States of America at the time of payment. Principal will be paid at the office of The First National Bank of Oakland, Oakland, Maryland, to the registered owner upon presentation and surrender of the maturing Bonds. Interest will be paid by check mailed to the registered owner at his address as shown on the registration books of the Town.

Bidders are requested to specify in their bids the rate or rates of interest to be paid on the Bonds on which rate or rates their bids are based and submitted. Bidders may not specify more than one rate of interest to be borne by any single maturity of the Bonds but may name a different rate of interest for each maturity. Bidders may not bid less than par value, and no conditional bid shall be entertained. Each bid shall state the amount of money per $100 which the bidder will pay for the Bonds.

The Bonds will be awarded to the bidder whose bid provides the lowest interest cost to the Town, such cost to be determined by deducting the total amount of the premium bid, if any, from the aggregate amount of interest upon all of the Bonds until their respective maturities. If two or more responsible bidders have made bids, each of which represents the lowest interest cost to the Town, then such Bonds may be awarded in a ratable portion among such bidders with their consent, or the Town may, in its discretion, determine to which of said bidders the Bonds will be awarded.

The right is reserved to the Town to reject any or all bids.

Bids must be enclosed in a sealed envelope, addressed to Mayor and Town Council of Oakland, City Hall, Oakland, Maryland, and so marked on the outside as to indicate that it is a bid for the Bonds hereby offered. Each bid must be accompanied by a Certified, Treasurer's, Cashier's or Official Bank check on a responsible banking institution in the amount of Four Thousand Dollars ($4,000.00), payable to the order of Mayor and Town Council of Oakland, to secure the Town against any loss which might result from the failure of the bidder to comply with the terms of his bid. No interest will be allowed on the amount of the deposit. Checks deposited by unsuccessful bidders will be returned to them when the Bonds are awarded to the successful bidder. The deposit of the successful bidder will be credited on account of the total amount payable for said Bonds.

The Bonds will be delivered at either Oakland, Maryland, or Baltimore, Maryland. Delivery elsewhere will be made at the expense of the purchaser.

The Bonds will be the unconditional obligation of the Town, issued upon its full faith and credit, which will be irrevocably pledged to the payment of the principal of and interest on all of the Bonds as the same fall due. The net proceeds derived from the sale of the Bonds will be used in conjunction with other available funds for the purpose of designing, constructing and establishing an extension to the Broadford Run Dam Municipal Water Supply System and for extending and improving the Oakland Municipal Water Distribution System. It is further provided in the Resolution authorizing the Bonds that the Town shall levy from time to time ad valorem taxes on the property assessable by the Town as may be necessary to pay the interest on and principal of the Bonds as the same become due and payable.

Under existing laws, the Bonds and the interest payable thereon, are exempt from taxation by the State of Maryland and by any county, municipal corporation or other political subdivision thereof, and the interest payable thereon is not taxable as income under present Federal Income Tax Law.

The legality of the issue will be approved by William W. Grant, Esquire, Attorney for the Town, and by Messrs. Miles & Stockbridge of Baltimore, Maryland, and the approving opinions of these gentlemen will be delivered upon request to the purchaser of the Bonds without additional charge.

At the time of delivery, the Bonds will be accompanied by the usual closing documents, including a certificate of the Town to the effect that no litigation is pending or threatened, as of the date of such delivery, affecting or impairing the validity of the Bonds.

Bid forms, copies of this notice of sale and financial information may be obtained from William W. Grant, Esquire, Attorney for the Town, 3 South Second Street, Oakland, Maryland 21550.

Disposal Plant Now In Operation Near Grantsville

A packaged sewage treatment plant has been installed at the New Savage Works, near Grantsville, by the Harbison-Walker Refractories division of Dresser Industries. Installation was made in cooperation with the Maryland Department of Health and Hygiene.

Preliminary studies began in the fall of 1972. Preliminary design and construction schedule were submitted to the Maryland department. Application design drawings were submitted to the state for permit approval in February, 1973. The permit was received in January of this year and by early summer construction had begun. The job was completed and the plant put into operation last month.

The project consists of new underground sewage lines, a wet well and pumping station and the installation of a 6,000 gallon per day Smith and Loveless package sewage treatment plant.

Leo Ianaro will serve as waste water superintendent. He will make daily checks for suspended solids removal, biological oxygen demand and chlorination.

Hetrick-Wagner Nuptials Held

Marriage vows were exchanged by Jeanie Darlene Wagner and William Merle Hetrick in a double ring ceremony on July 21, at the McHenry United Methodist Church, with the Reverend Frank Johnson officiating. Miss Linda Glotfelty, organist, accompanied Mrs. Nina Wagner, soloist.

The bride is the daughter of Mr. and Mrs. Daniel Wagner, McHenry. The groom is the son of Mr. and Mrs. Merle Hetrick, Grantsville.

Given in marriage by her parents and escorted to the altar by her father, the bride wore a gown of sheer nylon designed with a wedding band collar and full sleeves with wide cuffs of lace and ruffles. Ruffled Nottingham lace fashioned the sheer V-shaped bib of the bodice with covered buttons extending down the center. The softly gathered skirt was encircled at the waistline with a band of the same lace. The lace edged Chapel length mantilla was attached to a high pill box completing the total look. She carried a bouquet of white daisies, yellow rosebuds, white carnations, and long streamers tied in love knots.

Miss Patty Wagner, sister of the bride, was maid of honor. Miss Dawn Hetrick, sister of the bridegroom, and Miss Jenny Knox, Bittinger, were senior bridesmaids. Miss Debbie Wagner, also sister of the bride, was a junior bridesmaid. They were attired in an array of rainbow colors of flowered crepe. Miss Becky Leonard, niece of the bride, was flower girl. Miss Sally Beachy, Deer Park, was in charge of registering guests.

Craig Wengerd, Grantsville, was best man. Kris DeWitt, McHenry, Jack Campbell, cousin of the bridegroom, and David Hetrick, brother of the bridegroom were ushers.

A reception was held after the ceremony at the McHenry Fire Hall. Mrs. Ruth Georg, Miss Terri Georg, and Miss Debbie Ringer served punch and refreshments. Mrs. Pauline Chapman, aunt of the bride cut and served the cake. Miss Patty Wagner and Miss Sally Beachy attended the gift.

For travel to Ohio, the bride wore an orange suit with matching accessories, and a yellow rosebud corsage lifted from her bridal bouquet.

The bride is presently employed by W. H. Fratz, Inc. as secretary. The groom is an employe of Wagner Trucking, Inc.

The couple resides on Mosser Road, McHenry.

Eleven Are Killed On State Highways

Eleven persons lost their lives on Maryland Highways last week according to the weekly news release compiled by 1st Sgt. James Harvey of the Maryland State Police. Of those killed seven were drivers, none were passengers and four were pedestrians. At least four of those deaths could possibly have been prevented had seat belts been in use.

Alcohol was a known contributing factor in two of the deaths, speed in six and "driver error" in eight.

Again last week the "two-wheelers" contributed to the tragedy on Maryland Highways. Three motorcyclists and one bicyclist lost their lives.

Persons killed through September 22 totaled 472 compared to 600 for the same period a year ago.

Home Financing Program Available

The Maryland Home Financing program will be accepting applications for single family homes as of November 1, it was announced by the housing counselor, Cameron McClure, of the Garrett County Development corporation.

Objective is to increase opportunities for home ownership by making direct mortgage loans to individuals and families in the low to moderate income range, unable to obtain mortgages through normal sources. There will be a below market interest rate. An additional feature is the minimum down payment of 5 percent of the total cost of purchasing the property.

Currently the maximum adjusted income for county residents is $17,501. Other qualifications include being a Md. resident for the past three years, intending to use the home as a personal resident and not having any outstanding mortgages.

Loan requests are processed similarly to a request with a private lender. Credit reports and appraisals are ordered. The difference in processing would be the program's attitude toward marginal risks.

Assistance in applying would be available through Mr. McClure.

THE REPUBLICAN

VOLUME 98 | OAKLAND, GARRETT COUNTY, MD. OCTOBER 3, 1974 | PER COPY 15c | NUMBER 31

Use Your Head . . .

Hardly a day goes by that each of us does not run into some moral dilemma, where the problem is not only doing right, but deciding WHAT is right. At such times, a Christian may wish the Bible gave us more detailed instructions.

But if the Bible dealt with every possible situation, it would be as large as life itself, and we would be back where we started. What God has done is give us the principles with which to decide every moral choice we face. And He has called forth a Hood of guidance, from the Apostles to our own moral teachers, to help us apply these principles in our own lives.

Also—He wants us to "use our heads." He created us. He loves us. He delights in seeing us grow. We have His words to ponder, and act on, we have the teachers of our church. The greatest aid of all is simply to obey what we do know. Obedience is the supreme "opener of eyes." So hear and follow His words.

Brodak's Windows Shot

An estimated $800 damage was done to the large front plate glass windows at Brodak's Super Dollar, Route 219 north of Oakland, sometime last night, when eight shots were fired through the windows.

Deputy Van Evans of the sheriff's department investigated the incident, which occurred between 1 and 4:33 a.m. According to his report, it appeared the shots had been fired from a car along the highway. Ken Shaffer, Strochman bread employee, discovered the five broken windows when he arrived to make his bread delivery.

Super Dollar market is owned by George and Rose Brodak, Oakland.

Anchor Coal Co. May Scale Down Coal Mining Plans

The Anchor Coal Company has now apparently decided to scale down the size of its proposed mining operation near Grantsville, from 3,500 acres to only 750 acres for the first five years of the project.

The decision was indicated by the Tulsa firm several days ago after a meeting with state Water Resources Administration officials at Grantsville.

The main reason for the decision seems to be difficulty Anchor would encounter in meeting state requirements governing water runoff discharge.

Also, the firm has little more than a year to start producing coal or it must forfeit its lease with the group of property owners known as the Cassleman River Valley poolees.

Anchor must secure a total of 16 federal, state and county permits for the project.

If Anchor should not be able to meet its commitment to begin mining by January 1976, another firm may win the land rights, to the advantage of the poolees. The property owners will be getting only 15 cents for every ton of coal Anchor produces, compared to the likelihood of $1 a ton or more which the other companies have said they would pay.

When the lease agreement with Anchor was negotiated in early 1973, coal's status was at a low ebb. Since the energy crunch, coal has regained its importance as fuel, and prices have gone up as high as $60 a ton for high-grade minerals.

Until January 1976, Anchor is paying the poolee group $2 for each of the 3,500 acres leased from the property owners. The

Three Are Charged With Larceny At Deer Park Wed.

Three young people from the tri-state area were apprehended here Wednesday and charged with breaking, entering and larceny at a Deer Park home.

The home of Everett (Bud) DeBerry, on the Boiling Spring Road in Deer Park, was broken into about 10 a.m. and food and camping gear taken.

Dep. William Ferry of the sheriff's department had just been to the house to check on an earlier complaint and had been gone only about 15 minutes when a neighbor noticed another car pulling into the driveway and a young man entering the house. There was no one in the home at the time of the larceny.

The neighbor notified police, and was able to give the deputies who responded a description of the car. Deputies Ferry and James Riggs, and Oakland policeman Hubart Shillingburg began searching for the car and found it and its occupants at the Big Tee drive-in restaurant in Oakland.

Those apprehended are Lee Roy Swift, of Pennsylvania, Richard Allen Thrasher, Morgantown and Rebecca Ann Miller, Ohio. Swift and Miller are out on bond after Judge Lewis R. Jones accepted their Chevrolet car as collateral at a bond hearing Wednesday. Thrasher remains in the Oakland jail in lieu of bond. No trial date has been set.

Fire Damage At Alpine Village Set At About $40,000

Fire in an A-frame cottage at Alpine Village last Friday afternoon caused an estimated $40,000 damage to the ruined structure, according to owner Ted Lascaris, who also said the building was uninsured.

Deep Creek firemen were called about 2:20 p.m. to the fire, and almost immediately an assist call was made to the Oakland Volunteer fire department.

According to Assistant State Fire Marshal Robert Shimer of Westernport, the fire began in the living room when some sleeping bags were piled over a baseboard heating register.

A Kensington family had just begun their stay at the cottage. Some family members were on the porch overlooking the lake and were forced to jump from there when the fire started. One young woman was taking a bath at the time the fire started but she too was able to escape without injury.

Both fire companies were recalled to the scene about 6 p.m. when the fire rekindled.

P E Asking Increase In Retail Rates

Customer's Rate Increase Would Be About 22 Percent

Citing continuing critical financial conditions, The Potomac Edison Company has filed an application with the Maryland Public Service Commission for increases in retail rates in Maryland, and indicated that the Commission will be asked to approve part of the increase on an emergency basis.

PE is asking for an increase in general retail rates to provide about $11.9 million of additional revenues an on annual basis. The utility company's application stated that, by October 15, the company will file a petition asking that a portion of the requested increase be approved on an emergency basis, pending final determination of the full request by the PSC. The amount of the emergency request was not indicated, although its urgency was stated as stemming from the utility's need to maintain its bility to raise necessary capital funds.

J. M. McCardell, PE's executive vice president and general manager, said the company faced "continued escalating expenses, extremely high interest rates and the necessity for raising large sums of capital for such needs as replacing old equipment, adding pollution-control devices, and refinancing maturing bond issues."

McCardell said PE has just refunded nearly $17 million of long term bonds, which were due this fall, by short term borrowing. Those bonds were sold in 1941 at an interest rate of 3%, he stated, and permanent financing in today's record high interest rates, which are more than three times as high, will have to be arranged in the near future to replace the short term debt.

McCardell said, "We can generate only about one third of our capital needs from internal sources", and added that the electric utility industry, because of the vast amounts of capital needed, is more severely affected today's economic conditions than most other businesses. If we are to continue to serve our customers satisfactorily, we must be permitted to charge rates that will enable us to meet those capital needs and other operating costs."

McCardell said PE has been counseling conservation and continues to urge customers to "use energy wisely and thereby help reduce their own electric bills as well as stem the historic growth rate in energy consumption, and the need for new facilities."

The proposed rates would increase the cost of electric service to each class of customers by about 22 percent. This would result in an increase of about 8½ cents per day to the typical residential customer without electric heat or water heating. Bills to the typical electric heating customer would increase by about 28 cents per day.

LETTER TO THE EDITOR

September 30, 1974

Dear Editor

Although this letter is not addressed to you it is sent with hopes that it may reach attention of the addressee.

Mr. Gerald Ford
President of the United States of America.

Dear Sir

Plans now are being formed to celebrate the bicentennial anniversery of the founding of our Republic, a concept unique, in which the powers of government rest in the hands of the governed.

Would it not, at this time, be wiser to examine critically the results of this radically conceived idea of government as to its progress and make necessary corrections?

For radical it was, and great thinkers of the 18th century did not believe that such a government could long survive. Their main position being that the governed would soon discover that they could bestow benefits upon themselves and delegating in this would do so heartily as to force an ultimate collapse.

Were these thinkers so far from wrong?

Many other countries have followed suit, seeking to emulate our success. It does not serve our purpose today, with this world-wide inflation, to point out that of this trouble, theirs is the greater.

Ours is a great nation, designed and formed with the purpose of making history in the advancement of mankind, not just to drift in the tide of events. Corrections must be made sooner or later.

Have faith in us!

It is our wish for liberty that led us to this form of government. We desire that you make those corrections that must be made.

Let us be the first! ! !

Most Respectfully,
George P. Garman

Fuel Tanker Hit By Freight Train In Oakland Yesterday

Oakland firemen were called out about 11:40 a.m. Wednesday after a parked fuel oil tanker truck drifted onto the B&O tracks in Oakland, and was struck by a freight.

Charles Main had just fueled up his truck and parked it, with the emergency brake on, in front of J. P. Riley's fuel distributors, while he filled out a log report on his fuel.

When the Riley employes heard a crash, they assumed that a train had jumped the track and were amazed to see that Main's truck had drifted onto the tracks and was causing the disturbance.

Oakland firemen were on the scene in record time, due to all the flammable liquids stored in that area. Fuel oil, however, is not nearly so dangerous a substance as gasoline, and no fire occurred. Oakland firemen remained on the scene until another tanker had arrived and the remaining fuel was transferred to another truck.

The truck was called a total loss, as was about 340 gallons of kerosene which spilled from the ruptured rear tank.

Population Growth For Western Md. Charted

Western Maryland can expect many more people to take up residence here, if forecasts made by the State Department of State Planning and by Urban Research and Development, Inc. are correct.

Washington county is slated for the most drastic change, possibly tripling its population by 1990.

Allegany county may grow from its 84,404 residents to 93,400 over the next 20 years.

royally rate will go up to $5 per acre in 1976. Once the coal mining operation is underway, the property owners will get $5 per acre royalty or 15 cents per ton of coal, whichever is greater.

North Grantsville Coal

A number of firms are also interested in a coal-laced area on the north side of Grantsville, which is controlled by the North Grantsville Coal Association, Inc.

The nineteen-member group has just 2,000 acres of land to offer for coal mining at present, but the size could conceivably increase to as much as 20,000 acres.

North Grantsville's negotiations with firms such as Mineral Development Company, which now has an Oakland office, and a nationally-known New York firm, show that the property owners can receive up to five percent of the price each ton of coal brings.

low normal of 3.28 inches, in spite of the fact that at least a trace of rain fell on all but eight days. The heaviest rain day was the 6th (.67 inch) with the 11th following closely (.55 inch). A thunderstorm on the late afternoon of the 12th dumped .4 inch in about 45 minutes.

The highest readings were the 12th and 13th with 79 degrees each. The 6th was the coolest day with a high of only 58 degrees. Morning lows averaged 48.6 degrees or 1.2 above the normal. The lowest was the day of the heavy frost, the 21th with 27 degrees. The mercury dropped into the 30s the 6th, 25th and 27th, in addition to the 24th.

Other than the strong winds of the 29th, breezes were light to moderate and calm many of the days.

Statistics were compiled from data supplied by Logan Weber, local observer for the National Weather Service.

Morrison Tower Co. Awarded Bid For County System

Morrison Tower Company, Bridgeton, N.J. was the only bidder on the Communications system tower for this county, and was awarded the bid at $9,281.00 by the county commissioners Monday, September 30.

The Company will supply and erect the tower with a ten percent discount. The facility is to be 150 feet high with a wind loading of thirty pounds per square foot.

This is the second equipment bid awarded in efforts to implement a county-wide centralized communications system.

The Commissioners also met with representatives of Public Employment program and the Neighborhood Youth Corps to work out details for employment and payment of the employees. The county will take over the funding of these programs and bill the Western Maryland Manpower Consortium for reimbursement.

According to commissioner chairman Wayne Hamilton these funds are made available by the U.S. Department of Labor and it is up to the commissioners to see that some of the local youth get jobs or training that will eventually give them permanent employment.

The Commissioners also met with Dr. William Pope, county health officer, to discuss the solid waste management plan. The men agreed that in a recreation county such as this, it is most important that the county keep its picturesque qualities.

Members of the Commission on Aging met with the Commissioners to review the status of the Garrett Bus System, since the additional work at the state level to submit bids for the buses has caused a time delay for delivery.

Representatives of Maryland Department of Transportation will be contacted to see whether a commitment can be made for delivery of the vehicles.

Paul Douglas Thayer, K street, Mt. Lake Park; Charles Stark, Oakland and Roger Keiper, Deer Park, all pleaded not guilty to larceny of $300 in cash from Paul's Pennzoil, Third and Oak streets, Oakland.

Hearings Planned On Proposed Trails

A hearing on proposed regulations designating 51 miles of trails in state forests for supervised use of off-road vehicles will be held Wednesday, October 30, at 7:30 p.m. at the regional office of the Department of Natural Resources at Nave's Crossroad.

A public meeting will also be held October 29 in the grand jury room of the court house in Oakland.

Proposed trails are in Swallow Falls, Potomac, and Savage River, Green Ridge and Pocomoke State Forests. The DNA says the trails are located so as to minimize conflicts of use between off-road vehicles and other existing types of recreation, and to minimize disturbance of wildlife and disruption of habitat.

Trails may not be located in officially designated wilderness areas, parks, wildlife management areas, fishery management areas or areas where noise from ORV operation will interfere with picnicking and camping.

In Swallow Falls, proposals call for three trails totaling 11.1 miles. There are four trails totaling 9.4 miles in Potomac State Forest, and two trails totaling 10.3 miles in Savage River Forest.

Some sections of the trails are open to motorcycles, snowmobiles, and four-wheel drive vehicles, while others are restricted to one or more types of vehicles.

Trails in all three of the above would be closed during the six weeks prior to the spring turkey season.

Where WILL YOU SPEND ETERNITY? Someone has said, "You can go to HEAVEN without health, without wealth, without fame, without a great name, without learning, without culture, without beauty, without friends, yes and without ten thousand other things. But mister, there's one thing that's absolutely certain, you will never go to HEAVEN without Christ."

The Bible declares in no uncertain terms "That except a man be born again he cannot enter into the Kingdom of God" John 3:5; also in I John 5:11-12 it says "THIS IS THE RECORD, THAT GOD HATH GIVEN TO US ETERNAL LIFE, AND THIS LIFE IS IN HIS SON. HE THAT HATH THE SON HATH LIFE; AND HE THAT HATH NOT THE SON OF GOD HATH NOT LIFE." So then we can boldly declare to you on the authority of God's eternal Word, that regardless of what you have, who you are, who or what you know, you will NEVER go to HEAVEN WITHOUT JESUS CHRIST, GOD'S SON.

PLEASE REMEMBER: THERE'S ONLY ONE LIFE, T'WILL SOON BE PAST AND ONLY WHAT'S DONE FOR CHRIST WILL LAST. WHAT HAVE YOU DONE FOR HIM?

Farmers Asked To Make Nominations For Committeemen

Farmers are asked to nominate candidates of their choice to be on the ASC County Committee ballot, says Chairman Darrell Martin.

The ASC county committee election will be conducted from November 22 to December 2, by mail ballot.

ASC committees are responsible for managing government farm programs on the local level. Farmers will soon receive petition forms by mail and may begin submitting them to the county ASCS Office on October 3.

A few basic considerations should be kept in mind when circulating petitions, Chairman Martin said. In order to be valid, petitions must be limited to one nominee each, must include written certification that the nominee is willing to serve if elected, must be signed by at least three eligible farm voters, and must be received in the county ASCS office no later than October 29.

A farmer may circulate or sign nominating petitions for as many candidates as he chooses. Anyone wishing to nominate a farmer for the ASC committee election may contact the county ASCS office for full details, including eligibility requirements for office-holders.

Car Is Stolen On Third Street Monday At Noon

A parked car was stolen from a location in the 100-block North Third street around about noon-time Monday.

The car belonging to Wanda Houser of the Aurora, W. Va., area, was taken from near the Sharps' garage sometime between 11:30 a.m. and 1:30 p.m. It is a 1971 Buick LaSabre, blue-gray with white top bearing West Virginia tags number 9A5886.

The case is being investigated by Chief Percy Lawton of the Oakland police and the Maryland State Police.

Homemakers Meet

Lois Martin, president, presided over the business meeting of the Oakland Homemakers club with 21 members and three guests present.

September's theme on home furnishings led to a demonstration on terrariums given by Jamee Hanline. Green Acres Garden Center and Weber's Florists provided the club with professionally-arranged terrariums which aided the group in making their own arrangements.

Refreshments were prepared by Deal Bell, Arveta Savage and Barbara Swiger. Any interested women are invited to become members of the club, which will hold its next meeting October 10 at 7:30 in the Oak Park Church basement.

1 Juvenile Case Dismissed

Chief Judge Stuart F. Hamill, Jr., dismissed one juvenile case last week, a girl charged with being delinquent.

A 16-year-old female had been charged with being delinquent by reason of assualt and battery. Judge Hamill dismissed the case at a hearing last Friday.

Veterans' Cemetery To Be Started In Allegany Co.

State officials spent part of Friday, September 27, looking over several sites in Cumberland for one of six veterans' cemeteries which will be established in Maryland over the next few years.

Authorization for the cemeteries came during last spring's session of the General Assembly when a bill providing for creation of the cemeteries on state-owned land was approved and signed into law.

The one to be located somewhere in Allegany county will be for Allegany and Garrett County veterans, and will be maintained by the Maryland Veterans' Commission.

Members of a committee to push for the project include Paul Hoye, Oakland American Legion Post 71.

Wampler Invited To White House Meeting

President Gerald Ford invited Elton Wampler, Republican candidate for Congress, Maryland's sixth congressional district, to a meeting on National Problems at the White House on September 30.

Wampler said he would inform the President that "economic and social conditions throughout Maryland have deteriorated to the point that we are rapidly approaching depressed conditions. Citizens live in fear due to inflation and higher taxes. High school graduates leave the area at alarming rates, up to 80 percent in some areas."

DEER PARK

Mrs. Lambert Thrasher will be hostess to the United Methodist Women's group October 3 at 7:30 p.m., at her home.

Mrs. Anna Clatterbuck is a patient in Sacred Heart Hospital, Cumberland.

Mr. and Mrs. William Taylor, Salisbury, visited friends and relatives here this past week.

Pocket-Sized Parks

"The fall of a leaf is a whisper to the living."

We turned the corner of a budding in Manhattan, there to see a miniature waterfall with cobblestones, small trees, and tables and chairs for relaxing. The guide wanted me to see what some philanthropist had done with part of his wealth, for he had provided just what that guide, transplanted from western Maryland, had learned to value so much that he often walked extra distance to eat his lunch here with serenity surrounding him.

It is more than the green, more than unpolluted oxygen, or the persons one may encounter there. That little handkerchief of space immediately sets one apart from all activity, and an inward sigh could escape outwardly as one sat listening to natural tones. Strangely, the birds and squirrels called it home, this area cleared away from between two skyscrapers, with bustling crowds several yards away.

Elm Street in Chicago had a similar image when Adlai Stevenson began his law practice there. The biographer describes it thus: "Elm Street was remarkable in that it did actually have, in its narrow parkings, some puny specimens of the tree after which it was named. If they were slender plants scarcely taller than a man's head, if their crowns were but scraps of foliage during the warm seasons, they nevertheless brought green information of the world of nature into this man-made world of pavements and walls. Stevenson was grateful for them."

A vest pocket park in Frederick was recently planned for people "who want to sit down and relax" as the city superintendent stated. There will be small playing equipment for children as well as benches and a picnic area, made possible by the nomination of Mrs. Bonita Mace. Surely other eastern cities would benefit by operating similar parks.

And fortunate are condominium dwellers who see over open spaces — pocket-sized parks adjoining, all across the fields, all [illegible] Tamarack

One Insurance Plan Can Cover You, Your Home, And Your Auto.

At last, all the things covered in your homeowners policy and all the things covered in your automobile policy can be covered in one policy.

Continental Insurance's new Personal Comprehensive Protection plan: PCP.

It's so comprehensive, you can even add hospital, disability income, and mortgage life insurance.

You actually get more insurance coverage for your insurance dollar.

For example, with a homeowners policy, you have separate limits of coverage for your home and personal property.

If a loss occurs, and it's more than one of these limits, you can't use the other limit. Even if it isn't used up.

With PCP, you have one overall limit, regardless of whether your loss is on your home, personal property, or other covered items.

You get better liability coverage with PCP, too. There are no more separate limits for your home, auto, and personal-activity coverages.

Again, you have one overall limit.

To get all the details, including how easy it is to convert your present policies to Continental Insurance's unique new PCP plan, simply give us a call.

Northern Beaten 8-0 By Meyersdale

Rick Houston broke loose for a 40-yard touchdown run in the third period and that's all Meyersdale High needed to rack up an 8-0 football victory over Northern Saturday at Northern.

Houston also ran the two-point conversion as the Pennsylvania team notched its third win in four starts. The loss was Northern's fourth in as many games.

Except for that one explosive burst, the Northern team did a good job on containing its bigger opponents.

The Huskies twice lost the ball on downs at the Meyersdale one-yard line. The Huskies missed an opportunity to take the lead in the second when Rick Durst ran 60 yards with an interception for an apparent touchdown. It was nullified, however, by a Northern clipping penalty.

Auto workers received six pay raises this year.

Miss Haney Weds T. William Tower II September 21

First Methodist Church, Fairmont, W. Va. was the setting for the candlelight wedding of Miss Nancy Haney and T. William Tower II on Saturday, September 21. The bride is the daughter of Mr. and Mrs. Paul E. Haney, Fairmont, W. Va. The bridegroom is the son of Mr. and Mrs. Thurl W. Tower of Deep Creek Lake.

Rev. Wendell Lykes officiated at the double ring ceremony. Miss Barbara Brookover provided organ music, and Mr. and Mrs. David A. Haney, brother and sister-in-law of the bride, were vocalists.

Given in marriage by her parents, the bride wore a gown of maracaine and imported chantilly lace. The gown featured a sheer yoke bodice of lace, a high neckline, long fitted sleeves, and a chapel length train. Her headpiece was a victorian-style crown of chantilly lace with a four tier illusion veil. She carried a canterbury cascade of white roses and feathered carnations tied with white satin streamers.

Matron of honor was Mrs. Linda Bonasso, Morgantwn, W. Va. Bridesmaids were Mrs. Denise Riggi, Mrs. Kathy Rogers, Miss Debbie Stout, all of Fairmont, and Mrs. Joan Shultz, Brooklyn, N.Y. The attendants' gowns were of identical design, featuring a halter style bodice with an A line skirt falling from an empire waist, all of poly knit, with matching hooded jackets. The matron of honor was in lavender and the bridesmaids in orchid. They carried white wicker baskets of white carnations and purple statice.

Best man was Keith McLaughlin, Deep Creek Lake. Ushers were Edward Tower, brother of the bridegroom, and Alex Lindsay, both of Deep Creek Lake, Dorsey Sapp Morgantown, W. Va., and Allan McLaughlin, Clarksburg, W. Va. Acolytes were Steven Haney, brother of the bride, and Allan McLaughlin.

The bride's mother chose a formal blue gown of maracaine knit with matching accessories. Her corsage was of Cymbidium orchids. The bridegroom's mother wore a formal pink gown of polyester crepe, silver accessories and a corsage of cymbidium orchids.

Following the ceremony a reception was held at the Holiday Inn, Fairmont. Hostesses were Mrs. Evelyn Stout, Mrs. Idris Adams, Mrs. Pat Haney, aunts of the bride, and Mrs. Karen Brown and Mrs. Sandy Joe, cousins of the bride.

The bride is a graduate of West Virginia University with a bachelor of science degree in dental hygiene. Mr. Tower also graduated from West Virginia University with a bachelor of arts degree in sociology.

Following a wedding trip to eastern cities, the couple will reside for the present at Deep Creek Lake.

This regular column serves as another vehicle to keep in touch with all segments of my constituency. It is an open invitation for you to question me on issues, let me assist you with your problems, request information or comment on whatever happens to be on your mind. Letters should be sent to me, c/o U. S. House of Representatives, Washington, D. C. 20515. While space is obviously limited for printing all replies, I shall make every effort to answer each person who contacts me.

The following questions were typical of the kind asked of me in recent weeks:

I recently read that G.I.'s can now select the duty station of their choice—Please explain?

You are probably referring to a new Army Retention and Reenlistment Program that is available to qualified first term soldiers who are scheduled to leave the Army this year. In order to provide an incentive to extend current service these soldiers will be allowed to select a station of choice for a twelve month extension. Selected station of choice assignment will be dependent on skill and grade position vacancy.

Where can I obtain a copy of the 1971 Yearbook of Agriculture?

The 400-page, hardbook Yearbook—"A Good Life for More People"—is available free from my office in Washington. But the supply is limited. Interested citizens may order their personal copy by dropping me a line, c/o U.S. House of Representatives, Washington, D.C. 20515.

How do you fell about the proposal for sending nuclear reactors to the Mid-East?

I do not support the idea of nuclear sales to foreign nations because there are too many risks and uncertainties involved. Fears of weapons production and terrorist attacks, questions about the stability of recipient foreign governments, and the need to cut back on foreign aid are just a few reasons for my stand.

Does the government publish any publications on how to conserve on car fuel?

In light of the nation-wide effort to conserve energy, the General Services Administration has published a new energy conservation bulletin entitled, "Tips for Conserving Gasoline." The pamphlet includes tips on driving techniques, car maintenance and car use and includes a gas mileage checklist for your car. You may obtain a free copy of this helpful and informative booklet by writing Consumer Information, Pueblo, Coluradu 81009.

I recently had to stop working because of severe chest pains and shortness of breath. I applied for Social Security disability benefits but was denied for no apparent reason. Can you do anything?

Upon receipt of your letter my office contacted the Social Security Administration on your behalf. As you know, based on the additional medical evidence you have provided, your benefits have now been approved. Citizens experiencing similar difficulty in obtaining government benefits justly due them should feel free to contact my office in Washington for assistance.

Listen, Americans!

President—National Education Program

Since the dawn of man's history, there has been the practice of capital punishment for certain crimes. Primarily, the crime of murder demanded the life of the murderer. Then, in 1972, the Supreme Court of the United States handed down a decision in Furman vs. Georgia, (408 U.S. 238, 1972), which declared that capital punishment as then applied and administered in this country, was unconstitutional.

For a number of years prior to the Supreme Court decision, most of the States had bowed to the pressures of the opponents of capital punishment and had suspended carrying out death penalties — even of those who had been condemned to the death penalty by the courts. While many governors openly expressed their endorsement of the death penalty, still over 600 prisoners languished on death row in various prisons across the country waiting the outcome of the Furman decision. Boiled down from its legal language, what the Supreme Court said was that laws requiring the death penalty were not drawn precisely for a jury to be able to make a constitutional decision requiring the life of another human. Thus, all present laws, state and federal, must be redrawn if capital punishment is ever to be considered again as constitutional.

Many state legislatures immediately went to work to pass new laws to be tested before the Supreme Court. Congress itself is in the process of passing newly drawn bills which make the death penalty mandatory for certain crimes, thus eliminating the judgment of a jury in deciding the degree of punishment upon conviction of those specified crimes.

This article is not criticizing the Supreme Court Decision in Furman vs. Georgia. That is a matter of law and the wording of certain statutes. But, we do call attention to some of the facts of the years between the time of the last execution in America and the time of the Court decision. The last exactment of capital punishment in America was 1967. Since that time, and for some years before that last execution a moratorium was and has been in effect against capital punishment. This was not because a majority of the people were opposed to it, but rather because the Supreme Court had been moving in the direction of making a decision which would be sweeping in its application.

Between the years 1966 and 1971, the number of murders in this country rose 61 percent, while the rate of murders per 100,000 persons rose 52 percent. More importantly, the percentage of all homicides that were known or suspected to be felony murders — homicides committed in the course of another crime — rose from 21.8 percent to 27.5 percent.

Yet, concomitant with this rise in homicide, indeed, in spite of it, the Court declared that the death penalty as it was then administered and implimented in this country, was unconstitutional.

Those who oppose capital punishment have been vehement in their assertion that it serves no useful purpose and, specifically, that it does not deter crime. Certainly a prescribed penalty that is not carried out will not deter anything. When the law is not enforced and its punishments are not imposed it loses credibility, and when it loses its credibility, it does not deter.

All students of the subject realize that the capital punishment laws of this country and the various states had their origins in Biblical history. Certainly most of the laws of justice had this common origin. The laws of justice, based upon the teachings of the Old and New Testaments, are often in complete harmony with the laws of reason only serves as additional evidence of the complete logic of the view of man as the creature of and in the image of God, possessed by his Creator with certain inalienable rights of human dignity and freedom.

Mason Glotfelty Looks Back On "Years With Ford"

1974 is a special landmark year for Mason J. Glotfelty—he can look back over 50 years of association with the Ford Motor Company.

As he recalls it, he became associated with the Ford company September 4, 1924, when Motor Sales at Confluence, Pa., owned by Dr. H. P. Meyers, in the days of the Model T Ford.

About 35 cars and trucks per year were sold from this dealership at that time. The Fordson Tractor, the first farm tractor marketed by Ford, also made its debut about this time.

In September 1926, Mr. Glotfelty applied for, and got, a job with L. S. Evans, Terra Alta. He began as a truck driver, graduated to collection of past-due accounts (sometimes taking a horse, cow or grain in part payment), and remained on the job throughout the depression years.

Mr. Glotfelty has many fond memories of Mr. Evans, calling him one of the smartest businessmen he ever knew. It was from Mr. Evans that Mr. Glotfelty obtained much of his sales and business knowledge.

It wasn't long after Mr. Glotfelty began going around collecting past-due accounts that he started selling cars.

He worked for Mr. Evans until February 1935 when he and Charles C. Reckard decided to open their own Ford dealership. They negotiated with Mr. Evans to buy his Oakland facility, and began their new careers with an order for four cars.

According to Mr. Glotfelty, all they had to offer Ford Company was ten years, selling experience by himself, and fifteen by Mr. Reckard. The two had no money, but the First National Bank cooperated to lend them the money to buy the first four cars.

After several carloads of cars, they were able to accumulate enough money to pay for the cars as they arrived in Oakland. First year they sold 120 new cars and trucks and had only six unsold cars on the lot by the end of the year.

In 1949, the business had expanded until it had outgrown its quarters, and a new location was begun on Third Street. During the open house December 15, 1949, 3,500 guests were registered, and a band concert was held that evening, sponsored by the company.

Mr. Reckard's health began failing in 1953, so Mr. Glotfelty purchased his interest in the business at that time. In 1956, when Mr. Glotfelty began thinking of taking things easier, he sold his business to Willis Shaffer, who began operating under the name of Shaffer Ford Sales.

Mr. Shaffer asked Mr. Glotfelty if he would stay on for a while, and Mr. Glotfelty obliged him by working for him the next 18 years. He is still working for him as a matter of fact.

One of Mr. Glotfelty's favorite stories is one told to him by Mr. Evans, who said, "A boy applied for a job as janitor at the high school. The first question he was asked was "Do you have a high school education?" When the boy replied that he did not, he was told that the employers were sorry, but they could not hire anyone without a high school diploma. The boy went to town and got a job as delivery boy for the local grocery store. Soon, he bought the store, then he began opening other stores in nearby towns and soon was the owner of a chain of thriving grocery stores.

One day he went to the local banker and asked for a loan to buy another store. The banker was very glad to oblige him and said "You have certainly been a successful businessman. Where do you think you would be if you had had a good education" He replied, "I would be the janitor down at the high school."

Mr. Glotfelty presents an example to today's citizens in regard to their work when he says that if he had his life to live over, he would pursue the same vocation.

Annual Springs Folk Festival Slated For This Weekend

October 4 and 5 are the two days of the 47th Annual Springs Folk Festival in the highest unincorporated village in Pennsylvania. Located on Route 669 between U.S. Route 40 at Grantsville and U.S. 219 at Salisbury, Pa., Springs is easily accessible to the thousands who will converge on this tiny village during this affair.

Approximately 100 persons will be involved in crafts demonstrations and sales, with 18 new craftsmen represented this year. The artists and craftsmen will be housed in the recently enlarged pole building, in tents and shelter nearby and also operating from trucks on the grounds.

Scores of "old-timers" will be demonstrating the early American Crafts of farm and shop, hollowing out wooden troughs, shaving shingles and axe-handles, making split oak baskets, dressing stone, hewing beams, splitting rails, flailing grain, a rustic shelter nearby.

and operating a two-horse treadmill. A huge ox team will add interest to the Festival Grounds.

Along the woods will be the usual line-up of cider-pressers, applebutter boilers and chow-chow makers. An old-fashioned smoke house has been added to show how meat was cured by our ancestors, and native mountain mint tea will be served from

Springs Museum, with three buildings full of treasures will put its best foot forward for the two days. Many new features have been added in the past few years, including a 30' x 50' cement block building which houses one of the most complete miniature mechanized communities in the area.

Mr. Diefenbach's famous rock and fossil collection continues to grow, with fossil-imprinted coal and rock. The geology display also includes a fine array of fluorescent rocks.

Food service on the lower grounds will again be extensive including many concession stands, a quick-service foods tent, and family style service in the Fellowship Center near Rte. 669. The famous Dutch Sausage dinner will again be featured from 11:00 a.m. to 6:00 p.m.

During the two days of the Festival authentic country music will be provided by musicians from the hills of West Virginia. Paul McCoy who handles equally well the plucked dulcimer, the hammered dulcimer, the banjo and the musical saw, will share his rare talents at intervals during the day. (Paul takes the place of Russell Thibarty, who cannot be present this year.)

Another group of three or four expert fiddlers and banjo players will move across the grounds and share their old-time music.

Gates to the Festival Grounds open at 10:00 a.m., and crafts men continue to demonstrate until about 5:30, both Friday and Saturday. No evening program will be offered this year.

Frank And Fuller Have Cranesville Article Published

Paul S. Frank, Jr. and Kent B. Fuller have had an article on the Cranesville Pine Swamp, Maryland Boreal Bog, published in the Atlantic Naturalist, autumn 1974 edition.

The article describes the history of the swamp, the plant communities, unusual animals and other facets of the area.

A nature walk through most of the plant communities is mapped out with distances and compass bearings listed.

Kent B. Fuller is conservation education specialist for the Natural Resources Institute, University of Maryland, LaVale. Mr. Frank is an assistant professor at Garrett Community College and is a regular contributor to "The Republican" with his "Events Above the Mountaintop" series.

They have completed a Leaders Handbook published by the Natural Resources Institute, also titled "The Cranesville Pine Swamp." Dale B. Fuller illustrated the work.

They request that visitors to this fragile area leave the area as they find it.

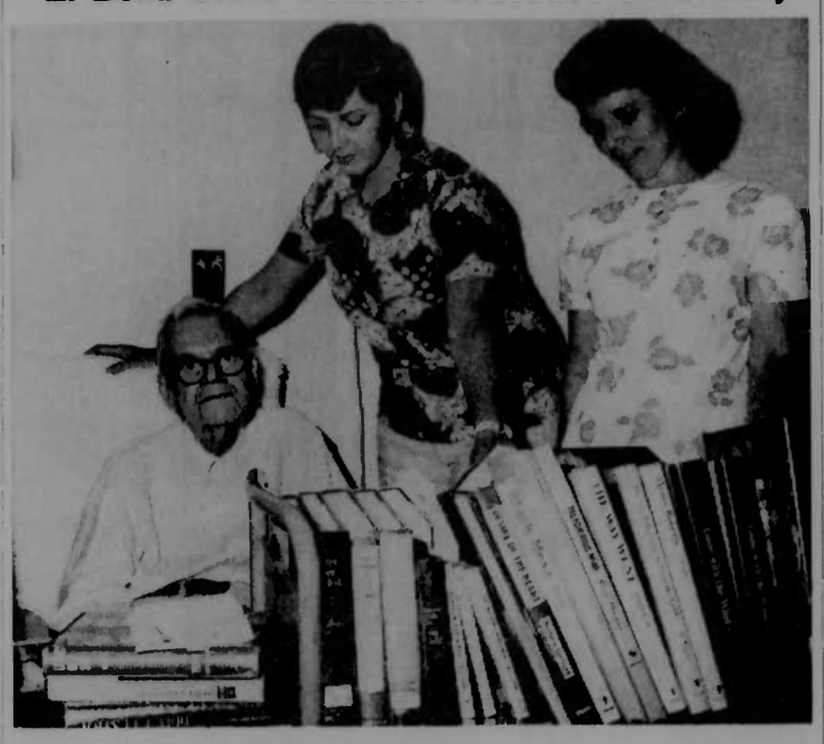
There will be meetings in all communities in the county to give the voting public the opportunity to meet the candidates.

Z. Bond Evans Donates Collection To Library



Z. Bond Evans, a prolific reader all his life, recently made a donation of his personal collection of books to the Ruth Enlow Library. Mr. Evans' outstanding collection numbered nearly 4,000 erudite works on local and national history, philosophy, and the like. It has taken the library personnel some months to catalog the books and prepare them for the shelves.

Bond and Josie, as they were known, to their many friends, were former Baltimoreans who resided in Aurora, W. Va. since their retirement a number of years ago.

Mrs. Evans passed away three years ago, and Mr. Evans is now a patient at Cuppett-Weeks Nursing Home, Oakland, where he continues to enjoy his favorite pastime, reading.

He is pictured above with Mrs. Jane (Garrett) Nolan, who piloted the mobile library cart at the nursing home until her resignation, and Mrs. Ellen Zimmerman, who is presently in charge of the nursing home library program. Although the library seldom can accept such donations, the quality and content of the Evans' collection caused the staff to make an exception in this case.

Jets, Steelers Win In Youth Football

The Youth Football league completed its fourth week of play last Sunday, with the Oakland Jets and Friendsville Steelers notching victories.

The Oakland Jets tuned up for next week's showdown with the Oakland Raiders as they shut out the Grantsville Colts 25-0.

In the second contest, the Friendsville Steelers upset the Terra Alta Dophins, 6-0. This Sunday's action will determine first place in the league, as the Oakland Jets and Oakland Raiders tangle with a 2:30 kickoff. Both teams have three wins and no losses.

The second game Sunday will have the Friendsville Steelers meeting the Grantsville Colts. All games will be played at the Southern Field.

Health Department Reminds Citizens Of Leaf Burning Rules

As leaves start drifting by windows, Garrett countians' thoughts generally turn to ways of getting rid of the red, yellow and orange blanket that annually covers the area. The Garrett County Health Department warns, however, that leaf burning is prohibited where private or public collection service is available.

In presenting the case against leaf burning County Health Officer, Dr. William W. Pope, emphasized that the smoke from burning leaves contains a high concentration (about 1 lb. of air pollutants for every 5 lbs. of leaves burned) of such pollutants as hydrocarbons, particulate matter, and carbon monoxide.

Because the leaf smoke is usually close to the ground, coupled with autumn weather patterns that prevent movement of the air, leaf smoke is more likely to be inhaled before it can dissipate.

Pollutants resulting from leaf burning can greatly aggravate the condition of persons suffering from respiratory disorders, and can cause eye and nose irritations, fever, coughing, and cramps in a healthy person. Additionally, the pollutants in the air can cause house paint to deteriorate, retard plant growth, injure shrubbery, and increase laundry and cleaning costs.

Other hazards of leaf burning include the increased risk of fires raging out of control, decreased visibility contributing to automobile accidents, and street damage, repairs for which are paid for by tax dollars.

In areas where there are too many leaves to be collected, or where no collection is available, Dr. Pope suggests that citizens investigate using these for mulching, plowing, erosin control, and compost piles. These processes return needed nutrients to the soil, while efficiently eliminating the leaves.

In addition, Dr. Pope stated that the Garrett County Health Department is receiving additional support from the Department of Forests and Parks in that the fire rangers will also be checking for violations of air pollution regulations in an effort to reduce forest fires caused by careless leaf burning as well as reducing air pollution.

Dr. Pope concluded his recommendations by stating that if collection services are not available, and other means of disposing of the leaves are ineffective, leaves can be burned between the hours of 4 p.m. and midnight, if the fire is not closer than 200 feet to the nearest building, and providing that no nuisance is created.

WOULD YOU...

sell your home for the face value of your homeowners policy? If the answer is no, your home may be underinsured.

Are you ploying with fire? A recent survey shows more than half of the U. S. single-family homes lack adequate insurance. The most common reason for this is the impact of inflation on construction costs.

Homes bought no more than five years ago are likely to be underinsured. The median price of a home during that period has increased to $26,000 from $19,350.

WHAT TO DO: Find out what it would cost to rebuild your home. Contractors are estimating $22 per square foot to build a standard home in this area today. The 80% rule: It's important to know that in order to be assured of full payment for any partial damage to your home, you must have it insured for at least 80% of its full replacement value.

EXAMPLE: If your $30,000 home is insured for $24,000 or more, and a fire does $2,000 damage to your basement, you will receive the entire $2,000 minus the $50 or $100 deductible. However —

If your home is insured for less than $24,000, you receive only a percentage of the $2,000, depending on how much the basement has depreciated in value prior to the fire.

WHAT TO DO: Shop for the best deal. Why? Rates vary from company to company. It's up to you to come up with the best price, check out the different homeowners policies available and see BEALL, GARNER AND GEARE.

A child is born with imagination, with the ability to see the magic of the world around him. Yet so much creativity—so much "seeing"—is often lost as we grow older and the complexities of life sweep over us.

When a child confronts nature, he isn't in a hurry. He takes time to study each blade of grass, to appreciate the colors of a butterfly, to marvel at a flower or the soft fur of a kitten.

We shouldn't lose this sensibility as we grow up. God created the world, but man has often abused it. So stop once in awhile and look, feel and listen. This is communion, restoration . . . like the spirit you find in church.

A LEADER FOR GOD

Lesson for October 6, 1974

Background Scripture: 2 Samuel 7
Devotional Reading: 2 Samuel 7:12-20.

If perfection were a qualification for the leadership of God's people, David would never have made the grade. He was, the Bible makes clear, an imperfect man of mistakes, vices, weaknesses, and some serious sins.

Rev. Althouse

Nevertheless, the Jews have long revered him as their ideal king and the period of his reign is regarded as the "Golden Age" of Israel. Most of all, he is remembered as a great "man of God."

"I took you . . ."

How can we explain this seeming paradox between David's imperfections and his greatness?

First, the Bible makes it clear that one reason for David's great leadership is to be found in his selection by God for that purpose. The story of David is not just a success story of a man who by sheer ambition and talent lifts himself up to great heights of popular trust and acclaim. David was both ambitious and talented, but it was God who set his course when he chose David to become a leader for his people. "Thus says the Lord of hosts," pronounced the Prophet Nathan to David, "I took you from the pasture, from following the sheep, that you should be prince over my people Israel . . ." (2 Samuel 7:8). God saw in David the youth the potential for leadership and he marked him for growth toward that goal.

Then too, God has also been with him throughout his life, helping David toward this goal. "I have been with you wherever you went, cutting off all your enemies from before you . . ." (7:9). God has been at work in David's life and it has not been luck that has brought David to his place of prominence. This doesn't mean that David has been a passive puppet in God's hand. He could have rejected God's call and resisted his help. Instead, however, David has responded to God's help and direction and because of his response God's purpose for David was being fulfilled.

"I will make you . . ."

Furthermore, God will continue to work through David until his promise to David is realized: "I will make for you a great name, like the name of the great ones of the earth" (7:9). David's greatness, then, is dependent upon two things: God's promise and David's response to that promise.

What was David's response?

For all of his mistakes and weaknesses, David did not forget the source of his greatness. Looking back over his life and experiences, David can see God's hand at work in his life. Proud though this king must have been, he was humble enough to acknowledge the greatness and glory of God: "Therefore, thou art great, O Lord God: and there is no God besides thee . . ." (7:21).

No perfection, but a humble response is the qualification for a leader of God's people.

Homecoming Set at Stemple Ridge Church

The Stemple Ridge Centennial Union church members are planning a homecoming at the church on Sunday, October 6. The celebration will feature an all day meeting with special music and a program to follow. Present and former members and friends are invited for a picnic dinner and the homecoming.

The Stemple Ridge Centennial Union church has a history reaching back almost 100 years. Community members realizing the need for a church, a deed was recorded October 20, 1874 for land on which to construct such a building. The land came from Daniel F. and Mary E. Harsh and was transferred to trustees John C. Wotring, William T. Fansler, Issac Bolyard, Philo Wiles and Daniel P. Harsh.

It was decided to name the church the Union Centennial Chapel. Later it became known as Stemple Ridge church, and is located on the Stemple Ridge road about three miles southwest of U.S. route 50, near Aurora.

Men of the community who participated in work connected with the church were Philo Wiles, George W. Hauser, Martin Stemple, Jacob Lantz, William T. Fansler, Cyrus Schoonover, Jacob Stemple, Benjamin McGary, Doc and Jacob Wotring, all Lutherans: Daniel Harsh, Daniel Wotring, John Wotring, Isaac Bolyard, Jackson Stemple, Andrew Pifer, Joshua Pifer and Elias Lipscomb, all Methodists.

These men furnished the timber and delivered the logs to the mill. There they were manufactured into lumber by Franklin P. Calhoun on an up and down saw mill located at the headwaters of Horse Shoe Run. The lumber was kiln dried and dressed by hand on the church lot. In 1955 a basement was excavated under the church for Sunday School rooms and a furnace, exposing the hand hewed beams.

A year round Sunday School is well attended. Officers are chosen from each denomination. Recently in order to protect the church, storm windows were installed and insulation was placed in the attic. Work was done by Clayton Harsh, Willis Harsh, Oscar Lantz, Kenneth Arvile, Lester Hauser, Mrs. Steve Hauser, Mrs. Glenn Harsh and Mrs. Charlie Moore.

Those arranging the celebration are hoping to meet descendants of the original trustees. They are being asked to make themselves known.

To My Generation

Every mind must choose between truth and repose. It cannot have both. — Ralph Waldo Emerson

I am not only bringing you truth instead of comfort, but truth which may shatter a lot of the comfort you already feel. It is that, unless we can reverse forces which now seem inexorable in their movement, we have only a few more years before the country in which we live will become four separate provinces in a world-wide Fascist dictatorship ruled by police-state methods. The map for their division and administration is already drawn.

So what?

Each of us is looking for his purpose in life — a way to use his unique abilities to serve others and to fight evil in all its forms. These are man's highest and most rewarding aspirations. Our generation, like all the others, occasionally entertains dreams of forsaking all for the truth. BUT THE REAL TRUTH HAS BEEN HIDDEN FROM US.

Before we were born, the ESTABLISHMENT (Super-rich international figures) launched a huge and costly propaganda campaign to neutralize the young — and to sell us artificial purposes for our lives. Because of their extensive financial control of the education and communications media in this country, they have managed to keep our minds and energies focused on "matters of no importance" while they grab for more and more control over our lives.

Part of their program is to "regress" our society. Part of the plan was (in 1948) to "corrupt the young — get them interested in sex." This has been accomplished largely by glamorizing the "New revolutionary drug free-sex" cult all over the nation. It was done through music, through TV, through the textbooks in school, and the magazine stands. Most of us who play the hippy-revolutionary game are doing so because everybody else is. We think we are fighting "the Establishment" when, in reality, we are only doing what the ESTABLISHMENT wants us to.

In 1924 Lenin laid down for his followers his strategy for conquest. "First, we will take E. Europe, Next, the masses off Asia. Then we shall encircle that last bastion of Capitalism, the United States of America. We shall not have to attack; it will fall like overripe fruit into our hands."

His followers have never wavered from this three-step strategy in the 51 years since it was promulgated. Through famines which they deliberately caused in order to collectivize agriculture, through whatever industrialization they have achieved, through wars which they have cleverly and cold-bloodedly brought on and prolonged for the help of such wars in their plans, through apparent changes and reversals in the party line that make non-Communist heads swim in confusion, through every upheaval and opportunity, the Communists have always kept their eyes unwaveringly on this strategy.

It is late in the war, and despite what the news reports say (rather don't say), two of the three steps are already accomplished.

Before trying to fight "the Establishment," our generation needs to find out who the establishment is, and then find out the most effective way to do so legally. Read None Dare Call It Conspiracy.

High School Survey Results Are Listed

Interviews with high school students throughout the nation were surveyed recently by the National Association of Secondary School Principals. The Association serves 35,000 school principals.

Prehminary findings of the survey, entitled "The Mood of American Youth," probed attitudes on education, work, family relationships, marriage and other fields.

The young people feel

that schools are providing them with a satisfactory education 77 percent; 99 percent plan to finish high school.

that students should have the opportunity to work part-time during the school year, 81 percent.

that happiness at home, 92 percent, is more important than fame, a good family life is more important than a lifetime of interesting experiences, 74 percent to 25 percent.

78 percent plan to vote in every election for which they're eligible, but only one in ten would be willing to run for public office.

that overpopulation and ecology, poverty and the threat of a third world war are important global issues.

over 50 percent feel that the present constitutional government serves the U.S. citizens well, less than 6 percent said that it should be abolished in favor of another form.

Basketball Officials Needed Locally

The search is on for basketball officials at present in very short supply in this area. Right now there is only one registered basketball official in Garrett County.

Dick Travis, supervisor of Physical Education and Athletics in Garrett County, stated the need for officials in this area this week and asks that anyone interested in becoming an official contact him at the Board of Education office.

The date for applications is October 15.

Most of the officials used in this area are members of the TAABCO and the Potomac Valley District Officials Association Cumberland.

To certify for calling varsity games it is necessary for an official to be registered with an authorized board. This involves a written and mechanics test, along with attending various rules clinics.

Salisbury Woman Hurt In Route 40 Accident

A Salisbury, Pa. woman was admitted to Meyersdale Community Hospital with injuries sustained in a one-vehicle mishap at 12:50 a.m. last Thursday on Route 40. The accident occurred three and one-half miles east of Grantsville.

Injured was Marie Jane McKenzie, 55, who was traveling east on Route 40 when the left front tire blew, causing her to lose control of the car. The vehicle crossed the center line, went through a fence, across a field and overturned.

Charges are pending, according to Tfc. Dale K. Williams of the Maryland State Police, who investigated.

Acrobatics instructor Tammy Humberson works with Barbara DeWitt, 11, as they perfect routines for parades with the Northern Garrettes marching group. In the background is Douglas DeWitt. Members of the 3 and 4 year old group will not march in the Autumn Glory parade, the Garrettes' first public appearance. They will make their debut in Oakland's Halloween parade in late October. The girls uniforms consist of white turtleneck bodysuits, blue and white checked circle skirts, and white boots. Many businesses in the northern part of the county, and in the Oakland area, donated funds for the uniforms and for operating expenses of the group.

Northern Garrettes Group Is Formed

Garrett County now has a marching unit organized in the northern part of the county called the Northern Garrettes. So far, 42 girls have joined the group since it was organized August 24.

The group's first official appearance will be in the Autumn Glory parade in Oakland October 12.

The name of the group is obvious, since the members all are from the northern part of this county.

Kathy Carr is the color guard advisor. Rifles and flags for the color guard were provided by members of the Procter Kildow Post 71 American Legion. Mrs. Loretta DeWitt is director, and Mrs. Ann Kolbfleisch is assistant director.

Aerobatic instructor is Tammy Humberson.

Lois Bittinger and Pam Deal majorettes at Northern High School, are instructing the group. Marla DeWitt, an eighth grade student, is working with the small girls, aged 4-11 years. The Northern High School gymnasium and grounds are used as practice sites.

School Volunteers To Attend Training

A training program for volunteer working in the schools will be held on October 8 and 9 at the Board of Education Building in Oakland. The program is to orient new volunteers and to train them for the jobs they will be performing in the schools.

Volunteers help out a variety of ways which allow the teachers to provide more personal attention to the children.

Adult-age volunteers are needed in elementary schools throughout Garrett County. Anyone interested in serving as a volunteer is invited to attend the training program. For more information contact the school principal or David Miller at the board office.

Panthers Trounce Rams 36-14 Friday

Parsons knocked three Ronceverte fumbles into the end zone and converted three of them for touchdowns to move to a 36-0 lead over Southern Friday night on the Rams' field.

Parsons opened quickly, rushing for 185 yards in the first quarter and two touchdowns.

Recovering blocked punts in the end zone for Parsons were Delmar Nelson and Dave Knotts.

Southern's quarterback Kevin Liller was in on all the Rams scoring as he threw a 10-yard pass to Dave Shotwell and then ran over another TD from two yards out. He also carried over the conversion.

Parsons failed at all of their six extra point attempts.

Southern will play its third consecutive home game this Friday against West Virginia School for the Deaf and Blind at 8 p.m.

Senate Ratifies Railroad Retirement System Legislation

The Senate has overwhelmingly passed legislation that will revamp the railroad retirement system and provide improved benefits to wives and survivors of railroad employes.

Sen. J. Glenn Beall Jr., a member of the Railroad Retirement Subcommittee, notes that under the provisions of this bill, the entire retirement system will be overhauled, and that the new system provided for will more nearly parallel that of private industry.

Under the new system, Tier I benefits will constitute a Social Security benefit which will be paid to the recipient through the railroad trust fund. Tier II benefits will be based on the employe's railroad service.

The legislation provides some improvement in current benefits by moving forward the age for qualification. There are presently over one million railroad retirement beneficiaries nationwide.

ORDER OF PUBLICATION

A Bill of Complaint to procure a partition by the complainant, Edward L. Bowman, of property held jointly by the complainant, Edward L. Bowman and JoAnn Mae Davis, said property being described as all that lots of ground situate, lying and being in Garrett County, Maryland, Election District No. 11, which is known as a part of a tract of land called "The Resurvey of all the Chances," being the same lots or parcels of land conveyed to the complainant and respondent by deeds from Dora J. Bowman, dated October 16, 1962, and recorded October 21, 1963, in Liber R.L.D. vs.
Kenneth Wayne Bittinger
whose last known address was 709 Aledo,

Respondent
No. 6537 Equity
In The Circuit Court For Garrett County, Maryland

ORDER OF PUBLICATION

This is to give Notice that on the 14th day of August, 1974, a Bill of Complaint was filed in the Circuit Court for Garrett County, Maryland, by the complainant against the respondent, whose last known address was 709 Aledo, Coral Gables, Florida. The Bill of Complaint alleges in substance that on the 20th day of November, 1965, she was married to the respondent, Kenneth Wayne Bittinger at Cove, Maryland, by a duly ordained minister; that she resided with the said respondent until on or about the 15th day of July, 1973, at which time the said Kenneth Wayne Bittinger deserted the said complainant while they were residing in Baltimore City, Maryland; that although the conduct of your oratrix towards her said husband has always been kind, affectionate and above reproach, the said Kenneth Wayne Bittinger, without just cause or reason, abandoned and deserted her, and has declared his intention to live with her no longer, and that such abandonment has continued uninterruptedly for more than twelve months, is deliberate and final, and the separation of the parties is beyond any reasonable expectation of reconciliation; that two children were born of the said marriage, namely: Kenneth Scott Bittinger, born January 25, 1967 and Kimberly Ann Bittinger, born September 3 1969 and who reside with your oratrix; that the complainant is a resident of Garrett County, Maryland, and has resided in this County and State for more than one year prior to the filing of this Bill of Complaint, while the respondent is a non-resident of the State of Maryland, and his last known address was: 709 Aledo, Coral Gables, Florida.

The relief prayed in the Bill of Complaint is substantially as follows:

1) That your oratrix may be divorced A VINCULO MATRIMONII from the said Kenneth Wayne Bittinger.

2) That your oratrix may have the custody and guardianship of the said infant children, namely: Kenneth Scott Bittinger and Kimberly Ann Bittinger.

Whereupon, it is ordered by the Circuit Court for Garrett County, this 11th day of September, 1974, that the Petitioner cause a copy of this Order to be inserted in a newspaper published in Garrett County, once a week in each of four successive weeks, before the 11th day of October 1974, giving notice to the said non-resident defendant of the object and substance of the Bill of Complaint and warning him to show cause, if any there might be, on or before the 12th day of November, 1974, why a decree should not be passed as prayed.

Confidence In America

The notion that Americans have a negative view of their country has been carefully cultivated in recent years. If one believed everything said by commentators in New York and Washington one might conclude the Americans have lost confidence in their society and the strengths of American life. Confidence exists, however, and is frequently voiced with clarity by spokesmen on the local or state scene.

Recently, I received a letter—one of many—that pointed up that truth. The letter came from G. S. Funderburk, chairman of the board of the Bank of Huntingdon in Huntingdon, Tenn. I want to share Mr. Funderburk's positive philosophy with a wider audience. This is what he said:

"Through the 1960's and thus far in the 1970's there have been screaming voices, yes and shaking events, serving to loosen us from our moorings and trying to prove to us, that our worthiest ideals have been false. Over and over we have heard it reiterated that our civilization is crumbling, that mankind has become totally corrupt, that the Land of the Free and the Home of the Brave has become so much a land of tyranny and injustice that anarchy would be more tolerable.

"Yes, some things are bad. Some of our institutions are being severely tried. Some reforms are urgent. The human soul and human society are as much in need of saving, and of redemptive effort as ever.

"Yet, it is our observation and conviction that the voices that scream, the events that produce violence, the prophets of fear and hysteria are showing us a onesided picture of what is really going on in the world. Of our own experience we know there are legions of people we can still trust, that the structure of confidence and humane impulse has not broken down, that life is still worth living, and that opportunities for betterment are still open.

"If anyone is disposed to doubt this, let us suggest that he begin with an assessment of his own resources, circumstances, and those intangible pluses and minuses that really count. What we are suggesting, we are aware, is the quite old-fashioned exercise of counting one's blessings.

"The answer to calamity-howling and doubt begins with everyone's personal inventory of his reasons for thanksgiving. The ease for assurance and reassurance in our own lives extend with many ramifications into the lives of others and brings to light a shining texture of faith and decency in the world in which we live."

This kind of fundamental faith in America is widespread, though many fashionable pundits do their best to emphasize rejection of American values and institutions.

State Sen. H. L. Richardson of California, who is widely known on the West Coast as a writer and public speaker, recently emphasized the downgrading of national faith. "It's definitely the political fad to criticize what's wrong with America," he said. "There seems to be a mania to point up the inequities that afflict this country. As far as I am concerned it's a blessing counting time in our haste to correct contemporary inequities, we have taken far too much for granted. The first blessing I count is that the vast majority of Americans have a first-class love affair with this country. That kind of love is going to hold us together."

Some commentators may reject Sen. Richardson's comments as simplistic. But his statement has a natural eloquence that arises from conviction. He speaks a language that comes easily to millions of our citizens who are mindful of the greatness of the American heritage. It would be helpful to all Americans if the sentiments voiced by Sen. Richardson and Mr. Funderburk were given wider notice and more frequent expression. It is important that our people be reminded that dissent is not the prevailing public sentiment.

Two Sentenced, One Suspended In Circuit Court

Two men received sentences in Circuit Court from Chief Judge Stuart T. Hamill, Jr., last Friday, one being suspended. Both followed pre-sentence investigations.

Floyd Francis Wilhelm, Jr., was sentenced to three years to the custody of the Commissioner of Correction. The sentence was suspended on several conditions: that he refrain from further infraction of the law; actively seek and receive psychiatric treatment as long as deemed necessary by the psychiatrist; and he be placed under the supervision of the Department of Parole and Probation for four years and to abide by the rules and regulations of said department.

Wilhelm pleaded guilty of perverted practice at a trial August 22. A charge of assault was dismissed at the time.

Curtis Bradley Ridder, Oakland was sentenced to 18 months to the custody of the Commissioner of Correction.

Ridder was found guilty of resisting arrest at a jury trial August 2. He had pleaded not guilty on this and five other charges. Charges of disorderly conduct, disturbing the peace and possession of marijuana were dismissed at the trial. His plea was sustained on the two charges of assault.

Many Restaurants To Have Turkey Meals For Festival

Turkey dinners will be served in downtown restaurants on Friday, Saturday and Sunday of Autumn Glory, according to an announcement made today by the Oakland-Mt. Lake Park Lions Club.

Participating restaurants will include The Allegany Room, Cee Dee Restaurant, Cornish Manor, Englander's Pharmacy, Fireside Inn, Oak-Mar Restaurant, Starlite Restaurant, and the Oakland Country Club.

Turkey dinners have been traditional for Autumn Glory since the days when a large number of the birds were produced in this county, especially in the Bittinger-Accident area.

Another tradition is the Southern High Hand Boosters turkey dinners, served in the Southern High cafetorium for every Autumn Glory festival since the festival's inception. On that day, the band boosters turn to "basters" and prepare all the food from the cafetorium kitchens, aided by Mrs. Simpson and her staff.

Band Boosters turkey dinners are available Saturday from 11 a.m. and on Sunday from 11 a.m. until 2 p.m.

Stands Still Available

It is also announced that all vending stand applications must be made as soon as possible with Robert E. Proudfoot, Proudfoot's Oakland Pharmacy. A limited number of stands remain and any group wishing to operate any concession may still apply.

SUPPORT, PARTICIPATE, ENJOY

Autumn Glory

This is the week that pre-Autumn Glory jitters reach their peak for the selected citizens responsible for the activities — will it rain, or snow, on parade day; will all the featured artists show up — you name it and the promotion council, Lions club members and other organizations are probably worrying about it.

No matter how many activities you plan to enjoy during the Autumn Glory festival, take time out to realize how much work has gone into the planning and setting up of this festival.

Many people have spent countless unpaid hours to provide a festival with activities to appeal to everyone. It's our own private festival, designed to show off our county as well as reap some tourism benefits.

We should be thankful for our freedom to hold such events, and everyone should get out there and support the Autumn Glory Festival. It's still a beautiful world especially in the Autumn.

MML Meeting Attracts 195

Key Legislation May Need Big Push To Pass Assembly

Garrett County put its best autumn face forward Friday and Saturday to impress the 195 members and guests of the Maryland Municipal League here for a two-day legislative conference.

The conference opened at noon Friday with registration at Village Inn, McHenry.

At 1 p.m., William E. Hanna, Jr., president of the MML, gave the welcome and introduced some of the guests present, including H. D. Swartzentruber, mayor of Oakland; Wayne B. Hamilton, chairman of the county commissioners; and William A. Wilson, state senator from Garrett and Allegany counties. Delegate DeCorsey Bolden was also present.

Delivering the keynote address was the Honorable John Hanson Briscoe, speaker of the House of Delegates, who listed the seven points in a legislative package the MML plans to push in the January session in Annapolis, and gave his personal opinion as to the strengths and weakness of each. His prognosis for many of the proposals was not good, but Sen. Edward T. Conroy (D-Prince Georges) says the group will not give up the battle.

Democrat Briscoe is a native of the only municipality in St. Mary's County of Leonardtown. He was admitted to the Maryland Bar in 1960, elected to the House of Delegates in 1962 and installed as Speaker at the beginning of the 1973 General Assembly session.

Discussion of proposed legislative issues by various state officials followed, including talks by James R. Shay, councilman at Gaithersburg; Gerald A. Glaubitz, mayor of Morningside; John W. Robinson, executive director of MML; James K. Giese, city manager of Greenbelt; and Ned Dolan, intergovernmental Relations Advisor, Garrett Park; Larry N. Blick, city manager, Rockville; John E. Delbruegge, council, New Carrollton, and Edward T. Conroy.

Spouses of the delegates were given an opportunity to shop in Oakland via a bus sponsored by the Oakland merchants prior to a reception at 5:30.

Regional meetings began the next morning at 9 a.m. and lasted until around noon. A municipal attorneys' meeting was held from 10 a.m. until noon.

Gubernatorial candidate Miss Louise Gore flew in by private plane during the luncheon hour and paid a surprise visit to the group, addressing them briefly during their luncheon.

Between 10:30 and 4 on Saturday, a spouse tour of the county and a luncheon at Cornish Manor was given for the spouses of the delegates. The bus for the tour was provided by the county commissioners. Mayor Swartzentruber was tour guide.

70 Units, Led By Gov. Mandel, To Appear In Parade

Over 70 units will be riding, marching, playing and performing in the annual Autumn Glory parade this Saturday afternoon in Oakland.

With beautiful queens and princesses, floats, bands galore, marching units, even a locomotive, the parade will offer something of interest to nearly everyone.

The event will begin promptly at 1:30 p.m. according to Guy William Hinebaugh, this year's parade chairman for the Oakland-Mt. Lake Park Lions Club.

This year's parade route will follow Omar to Second Street, south on Second to Alder, east on Alder to Third and north on Third to Oakland Auto Parts, where groups will disband.

The parade will begin lining up on Route 219 north of Oakland at Douglass Boat Company, filling in positions toward the Big Tee.

Governor Marvin Mandel will serve as grand marshal of the parade this year. Other officials from the state will also appear in the parade, along with Miss Maryland, Miss Autumn Glory 1974, her princesses, and royalty from neighboring festivals.

High school bands from all over the tri-state area and beyond plan to March, inceluding groups from Harrisonburg, Va., Clarksburg, Fairmont, Parkersburg, W. Va.; Williamsport, Md. (judged the official band for the state in 1967 and 1969); both Northern and Southern high school bands; as well as bands from other local communities such as Aurora, Rowlesburg, Tunnelton, and Bruce of Westernport.

A U.S. Army Women's drill team and a similar unit for men will be marching, as will the Gordon Highlander Pipe Band, from Pennsylvania.

Some 21 floats, both commercial and amateur, have been entered. Many drum and baton corps and majorette groups have also planned to appear.

One of the favorite features of the day will be a 40 and 8 engine which will maneuver its way through the town.

Boy In "Guarded" Condition After Mini-Bike Wreck

Joseph Sagal, 9, of Bloomington, was reported in "guarded" condition earlier this week at Potomac Valley Hospital after the mini-bike he was riding collided with a car in his hometown.

The accident occurred about 6:50 p.m., according to Maryland State Police, who said the boy was traveling west on Lone Avenue, failed to stop at an intersection and ran into the path of a car operated by Geraldine Smith, also Bloomington, which was proceeding north on North Branch Avenue.

CROWNING QUEEN SHERRI is Lynn Beckman, president of the Deep Creek Lake-Garrett County Promotion Council. Sherri, a Southern High senior, is the daughter of Mr. and Mrs. William Ashby, Oakland. To her left is escort David Callis. Nearly $10,500 was received from the fund-raising dinner.

340 Attend Friends Of Garrett Dinner

Largest Crowd In History Hears Hon. Charles Sandman

The largest crowd ever, 340 persons, filled the Wisp Dining room Wednesday evening for the seventh annual Friends of Garrett county dinner celebrating the Autumn Glory Festival.

Over 400 reservations had been made for the event, the anual kickoff for the festival activities.

Invocation before the stuffed pork chop dinner was asked by Dr. Lawrence Sherwood, pastor of St. Paul's United Methodist Church, Oakland.

R. Thomas Thayer, Jr., chairman of the Friends of Garrett County dinner for 1974, was master of ceremonies. Lynn Beckman, president of the Deep Creek Lake-Garrett County Promotion Council, introduced Autumn Glory queen Sherri Ashby and her escort David Callis, and placed the queen's crown of office upon her head.

Brian Schofield, general chairman of the 1974 festival and executive director of the Deep Creek Lake-Garrett County Promotion Council, addressed several remarks to the group.

Principal speaker, was the Honorable Charles Sandman, (R-N.J.) of the House Judiciary Committee, who riveted the attention of those present with his serious comments on both former president Nixon's impeachment proceedings and the inflation problems of the country.

A member of the committee which investigated the case for impeachment of former president Richard Nixon, Mr. Sandman noted that only after conclusive evidence came before the committee did he swing in favor of impeachment.

He essentially closed the book on any further impeachment proceedings or other charges having to do with the former president.

Then he turned to the country's inflation problem, generally supporting Ford's proposals and criticizing the opponents who have hurriedly jumped on the bandwagon of their former opposition.

While he feels that President Ford's five percent surcharge announcement was premature, he stressed that the effect could be beneficial, but that the deficit spending must be curbed in order to have a wholesome economy.

CONGRESSMAN CHARLES SANDMAN (R-N.J.) told it like it was on the House Judiciary Committee while considering recent impeachment proceedings. To his left is Tom Thayer, Oakland realtor, and master of ceremonies of the 7th annual Autumn Glory kickoff dinner last night at Wisp.

Hershman Is Arrested For Paugh Murder

Oakland Youth Charged With Burglary, Later With Murder

Edward Lane Hershman, 18, of Rosedale, has been charged by the Maryland State Police here with the murder of Mrs. Mabel Gladys Paugh, 82, of Paradise Point Road on August 31.

Hershman had been picked up by State Police on Friday and charged with burglary and larceny of items valued at $3,065 from the residence of Dr. and Mrs. Alvin Friend, August 26 and had been taken to Cumberland for a bond hearing before Judge Miller Bowen. At that time, his bond was set at $25,000.

Further evidence then came to light, however, and he was also charged with the slaying of Mrs. Paugh. At a second hearing, this time on Saturday morning, before Judge Bowen, he was ordered held without bond and was taken to the Allegany county jail to await a preliminary hearing in Garrett County.

No date has been set for the hearing, which must be held before a trial date can be set.

He was charged on the murder count on Friday evening, some hours after he was picked up on the burglary charge.

Hershman is a son of Mr. and Mrs. Orval Hershman. He had dropped out of Southern High School last May, and was attending that school again this year to earn a high school diploma.

Mrs. Paugh's body had been discovered about 1:30 p.m. August 31 by her husband, R. Scott Paugh, who had been delivering eggs and vegetables during the morning. Robbery was thought to be the motive for the slaying since some money was missing from the elderly couple's house.

Recently, relatives, friends and concerned people of the county had promised a reward in excess of $5,000 for information leading to the arrest and conviction of those responsible for the murder.

Bloodmobile To Visit Grantsville

The American Red Cross Bloodmobile will be at the Fire Hall in Grantsville on Friday October 25, from 12:00 noon till [illegible] p.m. The quota for this visit is 100 pints, and a number of replacements are needed.

All eligible persons are urged to give blood. To be eligible, a person must be between the ages of 17 and 66, and weigh at least 110 lbs. Seventeen year olds will need to bring the proper consent form signed by a parent or guardian. These forms are available from Mrs. Philip Bender, Blood Program Chairman for Northern Garrett County.

Speaker of the House of Delegates John Hanson Briscoe of Leonardtown addressed the members of the Maryland Municipal League gathered for a conference at Village Inn last Friday and Saturday. Hon. Briscoe spoke to the members on Friday, giving his opinions on chances MML legislation has of being okayed by the General Assembly. Others pictured above are left to right, Sen. William Wilson, County Commissioner Wayne Hamilton, Oakland Mayor H. D. Swartzentruber, Hon. Briscoe, and William Hanna, president of the MML. Column For Homemakers

By Mrs. Freda Denison Extension Agent

Rice - A dish in a Dash

U.S. Department of Agriculture marketing specialists say we'll have an abundance of rice in October. So, start thinking rice. It's a hearty, nutritious staple dating back at least to 3,000 B.C.

Today there are endless ways to prepare and serve it. Color it saffron, curry it, combine it with vegetables, mix it in a salad, try substituting rice in place of potatoes for a salad, make it in a ring mold, serve it in a round mound, use it as a main dish casserole, combine it or use it plain for dressing, or try a rich, creamy dessert.

Try cooking it with chicken stock, beef broth, bouillon consomme, tomato or vegetable juice. Cook it with fruit juice, such as orange juice or apple juice mixed with equal proportions of water. Even maraschino cherry juice with two parts water has been tried successfully.

When buying rice, get the right kernel size and look for uniform color. Short grain rice cooks moist and tender and has a tendency to cling together. This makes it suitable for puddings, stuffings, rice rings, and Oriental cooking. Medium grain kernels are good with meat and seafood. Long grain kernels are light and fluffy and are inclined to separate. They are good as a side dish in salads, curries and stews.

Rice stores well. It's a convenient easy-to-prepare food for today's liberated woman.

When preparing rice in an oven, use a shallow pan. Fluff with fork or slotted spoon to separate grains and allow steam to escape. Keep covered until serving.

When holding rice for up to 1 hour before serving, cover and keep warm. Adding butter or margarine to cooked rice will keep grains separated. To avoid sticky rice, do not wash it before cooking, measure rice and and liquid carefully, time accurately, and remove from cooking utensil within 10 minutes after cooking and turn into a shallow container.

Congressman Goodloe Byron
Maryland—Sixth District

This regular column serves as another vehicle to keep in touch with all segments of my constituency. It is an open invitation for you to question me on issues, let me assist you with your problems, request information or comment on whatever happens to be on your mind. Letters should be sent to me, c/o U.S. House of Representatives, Washington, D.C. 20515. While space is obviously limited for printing all replies I shall make every effort to answer each person who contacts me.

The following questions were typical of the kind asked of me in recent weeks:

What are your thoughts on how we can control inflation?

Federal budget cuts, wage-price monitoring, a less restrictive monetary policy with regard to certain hard-pressed industries such as housing and construction, tax reform to slow excess profits and accord relief to those living on a relatively fixed income, and carefully managed public employment programs are some of the anti-inflationary proposals I would like to see Congress consider.

Where can I obtain the new EPA "1975 Gas Mileage Guide New Car Buyers"?

You may order your personal copy by writing Consumer Information, Pueblo, Colorado 81009. Bulk copies only, are available to qualified organizations by writing Fuel Economy, Federal Energy Administration, Washington, D.C. 20461.

Do you support the $2.5 billion foreign aid package currently before the Senate?

No. I want to see Congress sharply trim back its authorization and to save the monies for badly needed domestic programs. When you're in the midst of a recession you don't throw your money away overseas. If we are to cut inflation through tighter control of federal expenditures then we should begin by examining the value received from foreign aid.

Who do I contact for information on Presidential Sports Award materials?

Adults interested in earning the Presidential Sports Award in any of 38 sports can obtain Qualifying Standards and Personal Log Books free of charge by writing to Presidential Sports Award, P.O. Box 129, Radio City Station, New York, N.Y. 10019. Colleges, athletic clubs, military installations, YMCAs, YWCAs, recreation and park departments and other groups may obtain these materials in quantity, plus colorful display posters, from the same address.

What is the status of legislation requiring all radios to automatically be equipped with FM as well as AM receivers.

In mid-September the House Interstate and Foreign Commerce Committee authorized such a bill, amending it to apply to car radios only. The Committee decided to restrict its bill to car radios because almost all home radios had FM bands, but only 13 per cent of all cars on the road had FM radios.

What is your opinion of the $700-million in aid Congress recently voted for South Vietnam?

I am against such aid and would like to see drastic cutbacks in this program.

Seventh-day Church Has Mobile Relief Van Available

Disasters can occur in an instant and without warning, and one of the help for the unfortunate victims in the form of both manpower and equipment is a mobile Disaster Relief Van, maintained and operated by the Seventh-day Adventists in Maryland and West Virginia.

The van, which made its initial appearance in the Oakland area four years ago, carries first aid equipment, dehydrated food supplies, bedding and clothing for all ages.

Its self-contained power supply allows it to operate at any location.

The van, headquartered in Parkersburg, was used for the first time at the scene of the Consolidated mine explosion at Farmington, W. Va. in 1968. It was here last October so that local citizens could become acquainted with the relief program.

The vehicle, owned by the Mountain View Conference of Seventh-day Adventists, is on standby status 24 hours a day, and could arrive in Oakland within a three-hour time.

The van is driven by a qualified first aid instructor and more than 14 volunteers from the Oakland Seventh-Day Church would be immediately available—all of whom are being trained in Red Cross first aid procedures.

The program is designed to work in cooperation with local rescue squads, Red Cross officials and other emergency groups.

According to Pastor C. M. Bird, the project is financed through the church's annual "in-Gathering" program held each fall, and the service is readily available when needed.

Anchor Coal Co. Plans Production Within A Year

Full production at Anchor Coal Company is expected to get underway within a year, despite a decision to scale down production from 3,500 acres to 750 acres.

Frank Yonal, an agent for the Oklahoma-hased coal company, said Anchor's dceision to reduce, the size of its operatiou stems from the state's reluctance to grant a permit for the larger operation.

The state is concerned about the amount of water runoff the coal mine will produce, but Mr. Yonia says that actually there will be no problem. "In fact, the water coming out of nur mine will be cleaner than the water that is already in the Cassleman River," he stressed.

Anchor is faced with a January 1, 1976 deadline to begin coal production. If it has not begun production by that time, it must forfeit the lease with a group nf poolees who are leasing the acreage to the company.

Mr. Yonai also said that Anchor has dceided to give landleasers a substantial increase in the per-ton rate, since some of the poolees were allegedly unhappy over the 15-cents-per-ton rate they had originally agreed upon.

The firm still has only twn nf the 16 permits needed hefore digging operations can begin to mine even one pound of coal. Mr. Yonai feels that after the company is granted a permit from the state Water Resources group, the others will follow.

Anchor would like to start mining around the first of the year with 30 to 50 employes. Within a year's time, production should be such that 300 workers will be needed.

Mr. Yonai alsn said that he is interested in assuring county residents that the project will definitely enntinue, noting: "We've already spent $150,000 in getting ready."

Commissioners Review School Construction Plan

Garrett County Commisioners have taken under advisement the recommendations of the school construction plan placed before the board by Dr. Jerome Ryscavage at their Monday meeting.

The plan calls for construction of two new schools (Northern Middle and Southern Middle) and the replacement or renovation of all the other schools in the county system with the exception of Swan Meadow and Yoder Schools.

The plan also calls for consolidation of community schools in the southern end of the county, with the closing of four community schools.

Commissioner Earl Opel pointed out that additional schools will inevitably cost the county additional tax dollars and added that the plan would have to be carefully reviewed in order to keep the county from getting too deeply into debt.

Wayne B. Hamilton, chairman of the county commissioners, said that elimination of the community schools would cause a loss of identity for the children entering a consolidated school and that people lose their identities soon enough in life without being taken from the local school at such an early age.

The three also expressed concern for the added transporation costs.

They concluded by saying that until the presently constructed open space schools are in operation and results can be determined on the basis of performance of the students attending these schools, the county would have a difficult time approving further school construction. However, if the cost of new or renovated schools will improve the academic achievement of students, the commissioners, of course would support the school construction program.

The school construction plan is subject to review annually by the local Board of Education the County Commissioners and the Interagency Committee for School Construction. Any of these can disapprove of any portion of the plan.

Purchase Corliss Papers

In other action, the Commissioners purchased the papers, field notes and cabinets of the estate of Frank Robbins Corliss, Jr. for the county. Frank R. Corliss, Jr. and his father, Frank R. Corliss had been surveyors in the county since 1922, and much of their work documents the Pennsylvania Maryland state line.

The men met with George Comp, Civic Defense director, to discuss the status of the application for National Floodplain insurance for the county.

File Medicare Claims

Under the Medicare law, claims for services provided within the October 1972-September 1973 period cannot be reimbursed when received after year-end December 31, 1974, James E. Robertson, District Manager of Social Security Administration in Cumberland, announced today. He suggested that these claims be forwarded immediately.

In addition, Mr. Robertson urged all Medicare beneficiaries, who received doctor's services in any part of 1974, to also forward their claims for reimbursement now to avoid the Holiday mail rush, and the avalanche of Medicare claims filed each year from December through March of the following year. This results in a delay in payment of the doctor's bills submitted to Medicare during these months.

PRESENTS CHECK TO BAND — Bill Riley, president of the Oakland Rotary Club, presents a check for $300 to Harold Trickett, vice president of the Southern Band Boosters, to assist the band in participation in the Macy's Thanksgiving Day parade in New York. Minor Accidents Injure 2 Recently

Two persons were injured in a number of relatively minor accidents last week, in various parts of the county.

Mary Jane Hall, Baltimore, was injured in a one-car mishap last Thursday morning on Lower New Germany road about 2.3 miles south of the Avilton-Lonaconing road.

She was traveling south and started to round a slight curve. The car went out of control, off the left side of the roadway and turned over.

Joan D. Jones, Aurora, W. Va., was slightly injured in another one-car wreck early last Wednesday morning on U.S. Route 219 in the Gortner area. She was traveling south at high speed, failed to keep to the right side of the road, crossed the road, hit an embankment and overturned. Tpr. C. H. Hinnant charged her with operating at a speed too great for existing conditions.

There were no apparent injuries in several other accidents.

Larry D. Champ RD 1, Accident, was traveling east on the Accident-Bittinger road, late last Thursday in a pick-up, when a deer jumped from the left. Champ hit the animal and dragged it about 50 feet. Tfc. Dale K. Williams investigated.

Forrest R. Stollar, Sherrard, W. Va. was traveling east on Route 40 near the Casselman River bridge just past noon last Friday. He failed to note that he was being passed by a car driven by Kenneth W. Pavol, Star Route Oakland, also eastbound. Stollar cut into the path of the Pavol car. Tfc. G. D. Broadwater charged Stollar with improper passing.

Debra E. DeWitt, Star Route, Oakland, was traveling east on State Route 135 just west of Bloomington last Wednesday afternoon when her car ran off the right side of the road and hit a "speed" sign. She stated she was behind two slow moving vehicles when her brakes failed and she went to the right to avoid hitting the other vehicles.

Anthony D. Hinebaugh, RD 3, Deer Park, was traveling west on Old 135 and had stopped at a yield sign before entering State Route 135 last Tuesday morning. Frederick B. Tichnell, Mt. Lake Park, following, noted Hinebaugh then looked to the left and hit the Hinebaugh car. Cpl. R. J. Reed charged Tichnell with failing to reduce speed as necessary.

Dallas L. Jenkins, Markleysburg, Pa., in a pick-up was traveling north on State Route 42 late evening of September 28. Everett W. Harry Teter, Jr., executive director, said that this is one of thirteen meetings to be held in Appalachian States which seek to evaluate the past development efforts of the Commission in order to better determine future programs and directions.

The Mellenry meeting will be visited by one of three teams working throughout the month. Each team includes a member of the Commission's Executive Committee, the ARC state representative to the Commission and selected Commissioner staff members

Listen, Americans!

By DR. GEORGE S. BENSON
President—National Education Program
Searcy, Arkansas

It was Franklin Roosevelt, in one of his famous fireside chats who said, "Don't worry about the national debt, we only owe it to ourselves." That has been the watchword in many classrooms at all levels of education ever since, and nothing could be further from the truth. To test the truth of that statement, just divide 211 million into 30 billion. That comes out, roughly $142.00. If you did not get a check from the Federal Government for that amount, or a check for $568.00 if you are the father of a family of four, then someone else is getting your share of the interest paid on the national debt and you are not one of the "ourselves" to whom the debt is owed.

Of course, this is an over simplification of the problem of the national debt, but it illustrates the point that of the entire debt, amounting now to 500 billion dollars, only a very small part of it is "owed to ourselves" in the sense of individuals owning government bonds. The same 30 billion dollars in interest which will be paid on the national debt during the current fiscal year will be the third largest item in the entire federal budget. It has to be paid every year in cold cash. The deficit spending which has created the national debt has been proclaimed by outstanding economic thinkers from the chairman of the Federal Reserve System on down as the major cause of the inflation which is now "threatening the very foundation of our society," and we have added $100 billion to that debt in the past five years.

The average American, instead of collecting $142.00 a year in interest on a debt we owe ourselves, must pay $142.00 a year in interest alone, much of which goes to international bankers. The interest alone on the national debt this fiscal year will require an average of $568.00 from every family of four, or $142.00 from every single American from the oldest to the newest baby.

We have discussed some of the efforts which are being made by a handful of freshmen class congressmen to pass a Constitutional Amendment which would put a ceiling on federal spending and require the repayment of the national debt over a period of one hundred years. Needless to say, that movement does not have very much support. In fact, it was introduced two years ago, and has only 40 supporters in the House of Representatives at the present time. However, a companion Admendment was recently introduced in the U.S. Senate, and with the many voices now pointing the finger of responsibility at excessive government spending as the cause of inflation and with Arthur Burns and James Simon each speaking out in powerful tones, there will be more and more support for such a measure in the coming months. It is badly needed. In fact, unless such a measure is passed soon, we could very easily pass beyond the point of no return so far as inflation is concerned and find ourselves with total run-away inflation, which is already affirmed to be climbing at the rate of 12 percent a year.

Government spending alone is not causing the high level of inflation, though that is the principal cause. It is over-spending at all levels and total debt which that has created. At the end of 1973 the total public and private debt in America stood at more than two and a half trillion dollars. It is difficult for anyone to even begin to imagine such an amount, but it amounts to $12 thousand for every individual person in America, man, woman and child.

The national debt has now risen to a total of $500 billion. This is far exceeded by private debt. Corporate debt alone rose 13.6 percent and individual debt went up 11.6 percent. Of course, the biggest single item in the individual category is home mortgages which amounted to $374 billion at the close of 1973, an increase of $35 billion over the previous year.

Kenney Addresses Lions

Dr. William Kenny, a former NASA aide, presented an illustrated talk to the Lions and Lionesses of the Deep Creek Lake Lions Club at a meeting held at the Village Inn October 9.

Dr. Kenny, an astronomer, described the vastness of space confronting future manned and unmanned space vehicles. The social and technological achievements to be realized via NASA's soon-to-be implemented space station and shuttlecraft programs were also discussed.

The program chairman was Wendel Beitzel.

Master Shoe Offering Senior Citizen Discounts

Master Shoe, Green Street, Oakland, is the latest business in the area to join the Senior Citizen discount program.

Frank David, owner, said Master Shoe would allow Senior Citizens a 10 per cent discount on shoe repairs and the purchase of new shoes, and invited Senior Citizens to stop at his store to rest while shopping in Oakland. He said he has several chairs that can be used.

Other merchants participating are Englander's Pharmacy and Stemple's dry cleaning establishment.

Senior Citizens must produce canary yellow cards, available from Community Action to get the discounts.

Dale Ellis, director of Senior Citizens Program for Garrett County is in charge of the program.

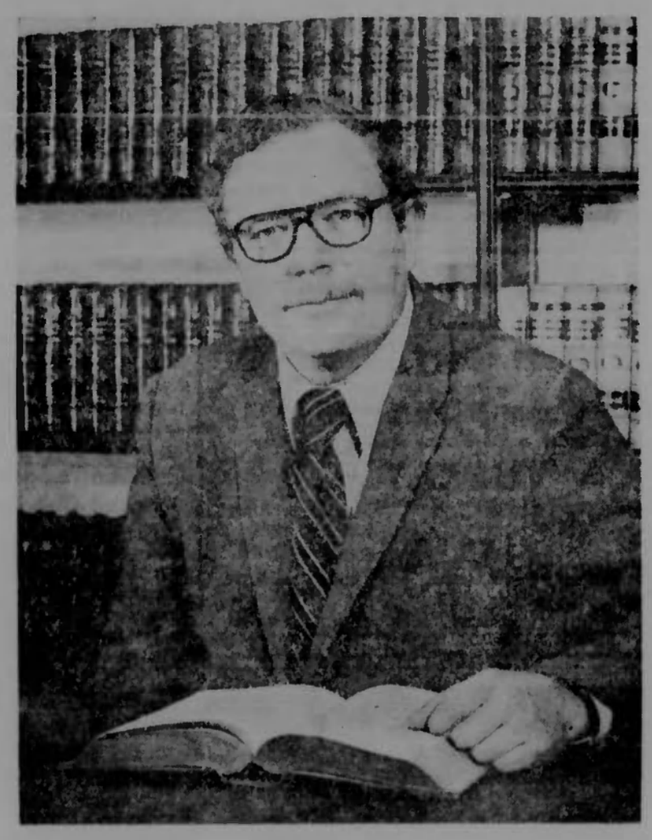
Ralph M. Burnett
Candidate For
State's Attorney



Garrett County, like much of the nation, is experiencing a rapid rise in violent crime. Vital to effective law enforcement in the drive to eliminate all crime and violence is effective prosecution by a State's Attorney who has these qualifications for office:

LEGAL ABILITY

Ralph M. Burnett graduated with a Bachelor of Arts degree from Dickinson College at Carlisle, Pennsylvania, and completed his legal education at the University of Baltimore with a Juris Doctor degree. He served as law clerk to Judge Robert Watts, Baltimore City Criminal Court, broadening his legal knowledge and has been actively engaged in the practice of law in Baltimore City and since October, 1972, in Garrett County, Maryland. Since selecting Garrett County as his home, Ralph M. Burnett has been named Adjunct Professor of Law at Garrett Community College, where he teaches criminal law courses.

EXPERIENCE

Ralph M. Burnett has prosecuted crimes in the western district of Baltimore City as an assistant to Baltimore City State's Attorney, Milton Allen, and since October, 1972, has been Assistant State's Attorney in Garrett County, with Fred A. Thayer, State's Attorney, with whom he is presently associated in the practice of law. In performing his duties, Ralph M. Burnett has tried virtually all of the criminal cases in the Maryland District Court as Assistant State's Attorney and numerous cases in Garrett County Circuit Court. He has assisted with Grand Juries, juvenile cases, investigations and in all facets of criminal prosecution. He will bring to the office experience of his past three years and has the full backing and support of Fred A. Thayer, the present State's Attorney, who has decided not to seek re-election.

DEDICATION

Ralph M. Burnett spends most of his productive hours on State's Attorney work. He maintains close relationships with State Police, Town Police, Wildlife officers and Sheriff's Department personnel. He participates, actively, in criminal investigations at all levels and is always available to law enforcement officials for legal guidance in criminal procedure and in all phases of his duties, both day and night, where teamwork with all law enforcement agencies is essential.

UNDERSTANDING

Ralph M. Burnett has developed an understanding of the broad objectives of law enforcement in Garrett County. His two years in the State's Attorney's Office here has led him to grasp the law enforcement's needs and goals of the county.

Ralph M. Burnett has been able to grasp the details of the role of the State's Attorney in the overall objective of law enforcement as it progresses through (1) investigation, (2) apprehension, (3) prosecution, (4) conviction or acquittal, (5) sentence or dismissal, and (6) appeal.

With this understanding, developed as a result of his legal ability, experience, und dedication, Ralph M. Burnett will strive for the ultimate goal of law enforcement: JUSTICE.

Students Learn Archery At Dennett Road

This young lady takes careful aim during archery lessons for fifth and sixth graders at Dennett Road School. Fundamentals of archery were taught before the children were actually allowed to shoot. Most youngsters hit the targets with at least two out of three shots.

The fifth and sixth grade physical education classes of the Dennett Road School under the direction of Lynn Posey, teacher, assisted by Miss Kordes and Miss Hill, student teachers from Frostburg State College, are currently learning the skills involved in the sport of archery.

Some of the skills and techniques that is hoped the students will develop are: Learning the anatomy of the bow and arrow; bracing of the bow; proper stance; proper aim; proper draw and release of the body, target; scoring and safety.

After the fundamentals are learned the students are broken down into groups for recreational shooting. The groups are named after famous Indian tribes: Cherokee, Sioux, Shawnee, Iroquois, Mohawk and Seneca.

Points are awarded to the students based on a simplified method of scoring.

During the practice of this unit, the following materials and equipment are needed: a bow and arrow set for indoor shooting (

Two ladies display correct form for bow shooting during physical education classes at Dennett Road on Monday. Lynn Posey, teacher, explained that youngsters in the fifth and sixth grades who usually like to play cowboys and Indians should learn the fundamentals of correct shooting while in school.

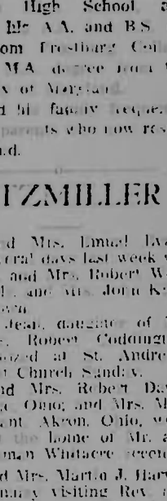
American Freedom and Christian Responsibility



By Rev. W. H. Leake, Deer Park, Md.

The Purpose of this column is to effect change in our community by means of a nonpartisan application of Biblical principles for the guidance of local and national affairs and this week I would like to quote the four goals of the Christian Freedom Foundation of Buena Park, California, with which the writer of this column is in total agreement.

1. Personal repentance of Christians for the sin of complacency and apathy in the face of growing evils which threaten the very foundations of civilization.

2. National repentance for tolerance of corruption throughout the length and breadth of our land, from the highest echelons of government to the organizations, institutions, cities, towns and neighborhoods in which our people work and live.

3. Spiritual salvation of the godless elements of our population through faith in our Lord Jesus Christ.

4. Development of Christian leadership capable of directing responsible Christian action which will be adequate to cope with the vital issues confronting our communities and our nation.

REMEMBER: OUR FOUNDING FATHERS WERE NOT ASHAMED TO IDENTIFY WITH THE GREAT GOD OF HEAVEN AND HIS SON JESUS CHRIST.

Postmaster Ward Livengood Urging Local Safety Drive

Postmaster Ward Livengood called for a community-wide drive to eliminate dangers at rural intersections and other safety hazards in the area speaking at a meeting of the Friendsville Rotary Club last week. His appeal was made as part of a national safety drive now underway by the U.S. Postal Service.

A common problem for rural carriers as well as other motorists the Postmaster noted, are long standing "blind corners" and other driving hazards which can be corrected through community efforts, such as removal of obstructions at intersections to create a clear view of the highways.

He urged the Friendsville Rotary Club to spearhead a community-wide safety effort directed at dangerous intersections and other hazardous conditions.

In line with this campaign he said rural carriers would be stepping up their efforts to get residents to adhere to proper standards for mailboxes.

The Postmaster said the new national drive by the U.S. Postal Service has a goal of reducing injuries and fatalities among about 500,000 postal personnel, including carriers who sustain more than their share of serious injury.

The Postal Service has one of the largest vehicle operations in the world, and more than 40,000 facilities conducting postal business. Smaller communities, he noted have the satisfaction of generally less severe crime than major cities, but there is no reason for complacency since rural areas and less populated communities frequently have many safety hazard problems.

Woodmen Present County Flag To Highlander Band

Members of Woodmen of The World Camp No. 11 presented a Garrett County flag to the Southern High School Band Boosters Friday evening during half-time activities in the Southern-WVSD game.

Making the presentation of the first double-faced flag of the county ever to be made and displayed were Tom Bernard, left, president of Crellin Camp No. 11, Woodmen of the World, and Spencer Graham, secretary of Camp 11.

Accepting the flag for the SHS Band Boosters was Harold Trickett, center, vice-president. Mr Trickett then presented the flag to Richard Clever, director of the Highlanders Marching Band, and Sue Tasker, captain of the color guard for the band.

Also at the presentation was John Forman, field representative for the Woodmen of the World. The flag, designed by Aza Stanton as the official Garrett County emblem, was presented complete with staff and carrier as the Woodmen's service project for the year.

The flag will be officially displayed by the color guard for the first time when the Southern Highlander Marching Band carries it in the Autumn Glory parade Saturday, October 12, in Oakland.

One Injured In Northern County Mishap Sunday

Two auto mishaps in the northern part of the county over the weekend resulted in injury to one of the operators.

James R. Artice, Elder Hill, Friendsville, was slightly injured but refused treatment after his car turned over, off Chestnut street in Friendsville about 1:30 Sunday morning.

Artice was traveling west on Chestnut street, west of Second avenue, when he lost control of his car which crossed a lawn and hit a parked car of Oliver Frazee. The impact caused the Frazee car to be driven into a telephone booth. The Artice car then overturned.

Tpr. G. A. Berkebile charged Artice with negligent driving.

James T. Laskey, U.S. Route 219, Oakland, was driving east on Mosser road and attempted to make a left turn onto Rock Lodge road late Saturday evening. When he realized he was at an intersection, he ran off the roadway and overturned. A 'stop sign' had been stolen from its proper place.

Trooper Rosage investigated this one also.

Democrat Central Group Recommends 3 For Board

The Garrett County Democrat Central Committee met Tuesday, October 1, at Jan Florists, Oakland.

All members, James Mathews, Ada Mae Welch, George Brady, Arthur Coddington, David Beard and Mike Naylor, were present to discuss plans for the Democratic headquarters which opened last week on Third Street.

The Committee authorized a letter to the Governor's appointment office recommending three local citizens for consideration for appointment to the vacant seat on the county Board of Education.

The Governor's office is expected to appoint an individual soon.

On Saturday, October 5, four of the committee members attended a state meeting of all the local Democrats State Central Committees in Towson. William James was re-elected as state chairman.

As an indication of the growing political force of women, young ladies were elected to the posts of co-chairman, treasurer and secretary.

Beall Wants Revenue Sharing Extension Bill

Reacting to the requests of state government officials throughout the nation, Senator J. Glenn Beall, Jr. (R-Md.) has joined in co-sponsoring a bill to extend Federal Revenue Sharing for another seven years. The current revenue sharing plan does not expire until 1976, but many states are already in the process of planning budgets for the nation's Bicentennial year, and need to know what funds will be available.

Local Farm Census Coming In January

Local farm operators may expect the 1974 farm census questionnaires in the mail in late December or early January, reports Raymond F. Jaeger, chairman of the Maryland ASC committee.

The law requires a census of agriculture every five years and also requires people to reply to census questionnaires completely and accurately.

The 1974 census will be conducted by mail beginning January 1975.

The Bureau of the Census assures farmers that all questionnaires are strictly confidential, and that information is tabulated statistically without reference to individual operations.

The local county ASCS office will be able to answer farmers' questions when the census forms start arriving.

AN UNSCHEDULED "DEMOLITION DERBY" involved six cars Friday morning near the Deer Park Manufacturing Company, one of which is featured above. The only injuries were to Barbara Haley, Oakland, who was treated and then released at Garrett Memorial. She also was charged with precipitating the chain of events which left the other five vehicles with from moderate to total damage.

Sharon Glass Is Chosen To Appear In "Who's Who"

Miss Sharon Glass, senior student at Northern High School, received notification recently of her selection to appear in the eighth annual edition of "Who's Who Among American High School Students".

Sharon, a daughter of Mr. and Mrs. Dale R. Glass, Grantsville, is one of less than three percent of the junior and senior class students nationwide who are awarded this recognition.

Miss Glass is active in several activities at school, including band, girls' basketball, magazine campaign director, and the school newspaper, The Viking. She has been on the honor roll and Quill and Scroll Honorary Society.

In addition to having her biography published in the book Sharon will also compete for one of ten scholarship awards which would be helpful to her next year in her freshman year at the University of Maryland.

Raiders, Steelers Notch Wins In Youth Football

Regular season play in the Youth Football League ended Sunday on an exciting note, as the Oakland Raiders and Friendsville Steelers notched impressive wins.

The Raiders edged out the Oakland Jets 8-0 when Raider running back Jim Simms scored with just 3:34 remaining in the game. Simms scored from eight yards out, and Jerry Watson booted a two-point conversion kick to finish the scoring.

In the second contest, the Friendsville Steelers had to hold off a late fourth quarter rally by the Grantsville Colts to capture a 19-12 win. The Steelers point production was handled by Larry Sisler, who scored two touchdowns, and Larry Edgar, who also scored a touchdown. The Colts got their scoring from Bill Bender and Dick Bender.

This Sunday, the playoffs begin with the Oakland Jets taking on the Grantsville Colts and the Friendsville Steelers meeting the Terra Alta Dolphins. The Oakland Raiders received a bye in the first round of the playoffs, which will be held at the Northern field starting at 2:30.

Four centuries of Portuguese rule in Guinea, Africa ended August 26.

Not long ago I was driving home along the parkway depressed and worried by many problems. The day was bleak and gloomy. Huge clouds boiled and churned above dark, forbidding mountains. Even the foliage hung limp and still.

Suddenly the clouds parted and a ray of sun streamed through. In that fleeting moment the landscape became beautiful: grayness transformed into mauves, deep blues and lively greens. It was like watching Creation. For the first time in a long time, I thought of God. And I prayed as I had been taught long ago in my church.

That was a turning point. Since then God and His Church have once more become a part of my life, and my problems have disappeared in a way I never dreamed possible.

God's goodness is always present. Go to your church and learn the truths that can transform your life.

THE BIBLE SPEAKS

BY LAWRENCE W. ALTHOUSE

A HOLY PLACE

Lesson for October 13, 1974

Background Scripture: 2 Chronicles 5 through 7.
Devotional Reading: 2 Chronicles 6:12-21.

In Jerusalem today on a hill called Mt. Moriah stands the beautiful Mosque of Omar, the third most important Moslem shrine in the world. This spot is also sacred to Jews for it is also believed to have been the site of the Hebrew Temple.

Rev. Althouse

Inside the mosque in the very center of that ornate place of worship is a large rock on which tradition tells us Abraham offered to sacrifice Isaac. Tradition also tells us that later this same rock served as the altar stone of the Temple.

People of all faiths usually find this spot one of spiritual significance. It seems a holy place, a place where in some way God is uniquely present.

God is somewhere

Of course, I know that God is not limited to specific geographical locations. Too long many Christians have assumed that the presence of God has been limited to the sanctuary of their churches. "I can worship God anywhere," we say and it is true.

A little boy asked his Sunday school teacher where God is. The teacher replied: "Why God is everywhere." "Yeah," replied the little boy, "but I want him to be somewhere!"

Without realizing it, the little boy was a theologian! He realized that it is not enough for God to be "everywhere." We need to find him in some specific places as well.

So there are "holy places" where God seems especially present to us. This doesn't mean that God is limited to geographical locations or that he is "more present" in some places than others. What it does mean, however, is that there are some places where, for one reason or another, we are more aware and receptive to his presence.

People will often say something like, "I can worship God just as well on the golf course," and it is true that they can. Yet, often, perhaps usually, although they can, they don't!

Glory filled the house

The Jews knew that they could worship God at many places—and they did. Still, they also believed that the most meaningful worship for them was that which took place in the Temple at Jerusalem. It was here that they found the ark of the covenant, a significant symbol of God's presence with them now and in the past.

It was here also that they found the two tablets of law that God gave to Moses, reminding them of the ethical and moral basis of their faith. Here also they were moved to sing praise and thanksgiving to their God to celebrate his "steadfast Love." And here they offered sacrifice and humble penitence, in return for which they received God's forgiveness and help in times of trouble and peril.

Everyone, regardless of what they call their religion, needs "holy places" where they can experience that kind of worship reality.

(Note: Mr. Althouse will conduct a 15-day tour to Bible Lands, February 12-26. If interested, write: Box 115, Mohnton, Pa. 19540.)

Gas Company Including "Scratch and Sniff" Insert

Customers of Columbia Gas of Maryland will be asked to take a "scratch and sniff" test when they receive their next monthly gas bills, according to William C. Deems, manager for the company.

To help customers become familiar with the smell of natural gas, the company is mailing a "scratch and sniff" insert with each customer's bill. A small spot inside an illustration has been impregnated with the chemical additive that gives gas its odor.

Mr. Deems says, "Everyone should be able to recognize the odor of gas and know to call the gas company so that we can send a serviceman to investigate the problem."

Rush Family Donates Land To Fort Necessity

Mr. and Mrs. John L. Rush and his son, Dr. John F. Rush, all of Farmington, Pa., have donated a 265-acre tract of wood and farmland to adjacent Fort Necessity National Battlefield, according to Superintendent Robert Davidson.

The property is located southeast of the park and represents the most significant addition to the battlefield since 1962 when Fort Necessity State Park was donated to the National Park Service by Pennsylvania.

The property includes approximately one-half mile of Braddock Road, two tavern sites and some acreage for hiking and nature trails.

The Rush family will maintain personal use and possession of the land during their lifetimes.

Sebold-Diehl Nuptials Held In Grantsville October 5

Miss Judith Marie Diehl, daughter of Mr. and Mrs. Robert Diehl, Grantsville, became the bride of Gary Edward Sebold, also of Grantsville, October 5 at a double ring ceremony performed at Christ Evangelical Lutheran Church.

Rev. David E. Fetter, pastor, performed the 11 a.m. ceremony.

The groom is a son of Mr. and Mrs. Cecil Sebold, Grantsville.

Mrs. Irma Miller provided organ music, accompanied by vocalists Mrs. Betty Sisler and Miss Cindy Sisler, who sang "We've Only Just Begun," "For All We Know," "O Perfect Love," and "The Lord's Prayer."

The church was decorated with white Fuji mums and white roses.

Given in marriage by her father, the bride wore a floor-length gown of Angelskin peau over taffeta, fashioned in an A-line silhouette. Venise lace adorned the high neckline, Victorian sleeves and a half-moon sheer yoke. The skirt was accented with appliques of Venise lace and ended in a sweeping chapel train. The lace-edged mantilla was affixed to a high pillbox. The bride carried a cascade of white Fuji mums and orange rosebuds, with orange velvet ribbon streamers.

Maid of honor was Becky Beachy, Grantsville, who wore an apricot polyester floor-length gown with an orange velvet ribbon accenting the empire waistline. She wore a lace headpiece with layers of sheer illusion of a matching orange and carried a yellow and bronze nosegay with green streamers.

Bridesmaids Miss Lucretia Brenneman, Grantsville, Miss Debbie Sisler, Deep Creek Lake, and Mrs. Linda Hevel, Rawlings, were green polyester floor-length gowns with green velvet ribbons accenting the empire waistlines. Headpieces were of green lace with layers of green illusion. Each carried a yellow and bronze nosegay with orange streamers.

Flower girls were Miss Vicki Kamp, Grantsville, and Miss Terri Diehl, Hancock, who wore gowns of orange polyester and headpieces of orange velvet bows with lace flowers.

Mother of the bride wore a floor-length light blue chiffon gown over taffeta, trimmed with a wide waistline with pearl bow and neck and sleeves of pleated chiffon. The mother of the groom chose a floorlength aqua gown with matching lace jacket. Yellow mum corsages were pinned on by Miss Janice Diehl, aunt of the bride. Grandmothers, Mrs. Clarence Sisler, Mrs. H. C. Diehl and Mrs. Gertrude Sebold also received corsages.

Lynn Brenneman, Bittinger, was best man, wearing a brown tuxedo with an apricot ruffled shirt to match the maid of honor's gown. Ushers were Tom Diehl and Rick Sebold, Grantsville; and Charles Hevel, Rawlings. All three were attired in brown tuxedos with green ruffled shirts. Ringbearers Jeff Sebold, and Gregory Diehl, brothers of the bride and groom, wore brown tuxedos also.

A reception followed immediately at the Grantsville fire hall, decorated with a green and orange backdrop accented by bronze and gold flowers. Approximately 145 attended.

For a wedding trip to Ohio, the bride wore a blue and white polyester long-sleeved dress with a rosebud corsage lifted from her floral cascade. The couple will reside on Route 495 in Grantsville.

The bride is a senior at Northern High School and the groom is employed as a driver with the Sebold Trucking Co., Grantsville. He is a 1973 graduate of Northern High School.

Out of town guests for the wedding and reception were from Ohio, Washington Johnstown, Frostburg, Hancock, Newell, W. Va., Baltimore, Friendsville, Accident and Oakland.

The bride was honored at two pre-nuptial showers, one a surprise kitchen shower given by her maid of honor and bridesmaids and the other a miscellaneous shower given by Mrs. Joan Holliday.

TIME TO LIME

This is the time of year for you to be thinking about liming your fields ... by applying mag lime now, your soil will be neutralized by spring and ready to go to work. Soil in this area has a high acid content, and it's necessary to apply mag lime to reduce this excess acidity ... in addition by using the proper amount of lime ... you save money ... by using less fertilizer.

Let ROBERT H. MILLER TRUCKING spread your fields with lime this fall, when fields are solid enough ... and when the trucks aren't nearly as busy as they will be next spring ... so don't wait until the last minute ... you can arrange to have Robert Miller spread your fields with lime by contacting your local Agway Store or representative ...

Now ... One Insurance Plan Can Cover You, Your Home, And Your Auto.

At last, all the things covered in your homeowners policy and all the things covered in your automobile policy can be covered in one policy.

Continental Insurance's new Personal Comprehensive Protection plan: PCP.

It's so comprehensive, you can even add hospital, disability income, and mortgage life insurance.

You actually get more insurance coverage for your insurance dollar.

For example, with a homeowners policy, you have separate limits of coverage for your home and personal property.

If a loss occurs, and it's more than one of these limits, you can't use the other limit. Even if it isn't used up.

With PCP, you have one overall limit, regardless of whether your loss is on your home, personal property, or other covered items.

You get better liability coverage with PCP, too. There are no more separate limits for your home, auto, and personal-activity coverages.

Again, you have one overall limit.

To get all the details, including how easy it is to convert your present policies to Continental Insurance's unique new PCP plan, simply give us a call.

Producer or Parasite?

This country was started by political amateurs. They understood the various forms of government. They knew from classical history that unchecked democracy degenerates into mob rule and dictatorship. In other words, they knew more about government than most people do today. But they weren't professionals. Government was not their business. The professionals were the parasites in the British bureaucracy who were saddling our people with taxes upon taxes.

Our forefathers were lovers of freedom. The Founders knew that government is a power which tends to corrupt, and therefore that an inordinate desire to serve in government is unseemly. Government service was something they did only for a time, because it was a civic duty. Then they returned to their various professions as farmers, physicians, and businessmen.

Now, almost 200 years later, the trouble is that the "experts" have taken over again — all in the name of "better education, long-range planning and full-time commitment." BUT those who would "plan" our future for us somehow overlook our Constitutional right to a GOVERNMENT OF THE PEOPLE, for the people and BY THE PEOPLE.

As in our colonial period, the American people are being harassed by a swarm of bureaucrats who are getting fat on public funds while the private producers grow skinny.

Even in Garrett County, government "planners" and "experts" are being permitted to establish state and federal agencies.

These agencies can be dangerous to our county for many reasons:

1. They cost us money. In order to get the federal money for such programs, it is often necessary for local governments to supply a certain percentage. Then the government subsidizes with "free" federal funds. I will remind you that there is no such things as a "free" government handout. The Government cannot give you anything it has not first taken from you. Almost invariably, there are strings attached to federal handouts. There are certain requirements that must be met in order to be "in compliance." In addition, Federal funds are often removed after a certain period of time, leaving the entire financial burden of the program to fall on the local taxpayers.

2. Services rendered by a government-funded program could discourage and possibly destroy related private enterprises. For example, a government bus system would hurt local transportation companies, and would make a privately-owned bus system impossible. Promoters of government bureaucracies contend that such agencies "create jobs." They do. But who pays their checks? The taxpayers. What happens when a private firm collapses because of government competition (or over-regulation)? Many jobs are lost. And even if government agencies provide jobs for all of them, the net effect is two-fold, less taxpayers, and more burden on the remaining taxpayers.

3. Government operations must be less efficient than private firms simply because there is no competitive incentive. There is no financial penalty for failure. The agency will be subsidized whether or not it performs efficiently.

The Voters of Garrett County must insure that their candidates set reasonable limits on these government agencies.

Highway Accidents Claim 12 Lives In State Last Week

Twelve persons lost their lives on Maryland Highways last week according to the weekly news release compiled by 1st Sgt. James Harvey of the Maryland State Police. Of those killed six were drivers, four were passengers and two were pedestrians. At least four of those deaths could possibly have been prevented had seats belts been in use.

Alcohol was a known contributing factor in four of the deaths, speed in eight and "driver error" in ten

Inattentive driving again has taken the lives of at least ten of the twelve fatalities which occurred last week. Nine of the twelve were involved in "Ran-off-Roadway" types of accidents.

Day-dreaming is a pleasant, relaxing way to spend a few moments on a summer day, but not at the wheel of a car. Driving is a full-time business, not a casual pastime.

Dear Sir:

I want to appeal to my fellow Garrett Countians to raise a united voice of opposition to Potomac Edison's latest request for a rate increase. According to last week's Republican, the Potomac Edison Company has filed an application with the Maryland Public Service Commission that would, if granted, result in a rate increase of about 22 percent. This is an unconscionable act that would add to the already drastic toll of inflation.

As we too well know, Potomac Edison raised its rates this past summer by about 30%. If the present request is granted that would mean a total rate hike of over 50% in less than a year. Lest some people should be confused, I would like to point out that these requested rate hikes are not increases that are necessitated by higher fuel costs, for by special arrangement with the Public Service Commission, the electric company can pass on fuel surcharges automatically.

The role of the Public Service Commission is to balance the requests of public utilities (they are monopolies after all, remember?) against the best interests of the general public. In the past couple years that balance has leaned heavily on the side of public utilities. Let's not lose our influence by default. Send your letter to the Public Service Commission, 301 West Preston Street, Baltimore, Maryland 21201.

Sincerely,
Stanley E. Weese

Dear Mr. Sincell:

I am writing this with reference to the article published October 3, 1974, about the award presented to Frances Martin by EFNEP for her leadership in setting up the Volunteer Service Center for receiving used clothing.

Carbon copies of this letter are being sent to the Cumberland News who published a similar article on October 4, 1974, and to the Department of Agriculture's Extension Service who presented the award. I feel that credit should be given where it is due and the record should be set straight. Frances Martin did not establish the Service Center.

Robert Shaffer, Supervisor of Services at the Garrett County Department of Social Services, first formulated the idea in July, 1973. He was instrumental in obtaining volunteers to serve as a board of directors and together they set up by-laws for the organization and each person involved in the program voted on them.

Financial support was provided by monetary donation from many area churches and service clubs. Robert Shaffer, Richard Stegmaier, and Rudy Cvetnick, service workers at the Department of Social Services, spent many hours of their time on evenings and weekends putting up shelves and getting the building in shape to use. The building was located by Alice Frederick, another service worker, and arrangements for its use were made by Mrs. Frederick.

Visiting Homemakers and Human Service Aides along with several public assistance recipients spent numerous hours washing clothing that had been donated, repairing, sizing and pricing it, all on a volunteer basis.

At the present time, the Center is being run by two volunteers, Mrs. Cora Friend and Mrs. Mae DeBerry. Without them it would be impossible to do the job that is being done. Also, without the financial support of local churches and service clubs, it would be impossible to continue to meet the expenses each month. Workers from the Department of Social Services are no longer involved in the Center except as they choose to volunteer their time.

It is a fine thing to give awards and to recognize persons who have made an outstanding contribution to the community, but the recognition should be given to those who have done the work. Mrs. Martin's contribution to the Center has been minimal.

Sincerely,
(Mrs.) Beverly J. Beard

SENSING THE NEWS

Southern States Industrial Council

Fighting Nuclear Progress

When Carl Soglin, the anti-Vietnam militant, was elected mayor of Wisconsin's capital city, predictions were made that the city would be involved in a far-out crusade. The validity of this prediction can be seen in Madison City Council's resolution against building a nuclear power plant near Lake Kushkonong southeast of the city.

According to environmental lawyer Mike Cherry, "This is the first city of any size to come out against a nuclear plant and authorize its administration to go out and do battle to keep the plant from being built." Mr. Cherry represents a group active in opposing Wisconsin Electric Power Company's nuclear plans. He has dubbed the plant "ecological madness" and hailed Mayor Soglin's resolution to oppose the nuclear facility. Mr. Cherry told the Madison press: "I called Ralph Nader and told him about the Council's decision (to oppose the plant). He was delighted."

Among those who aren't delighted are the directors of the Greater Madison Chamber of Commerce who are concerned about power needed by the community. The Madison Chamber of Commerce opposed Mayor Soglin's resolution and endorsed nuclear power as safe and economical. The board said that giving people new jobs means giving employers enough electric power. Otherwise, the board warned, new industry will locate elsewhere.

While Mayor Soglin is fighting the 20th century in the form of nuclear power, other people in this part of the country are keenly aware of the need for more electricity. The general manager of the United Power Assn. in Minnesota recently warned that "Minnesota is becoming even more of an energy desert." Bruce Barsch, director of economic development for North Dakota, noted that the construction of new power plants in his state "could mean billions of dollars and thousands of jobs."

Mayor Soglin clearly persists in a know-nothing policy in fighting nuclear power. This is Naderism at its worst. Scientific risk-benefit analyses of nuclear power have shown that the public is fully justified in placing confidence in nuclear power reactors. Dr. Richard Wilson of Harvard University's Physics Department recently pointed out in a speech in Denver, Colo., that a reactor accident with serious radiological consequences is extremely remote. Elaborate safeguards have been devised to prevent accidents and injuries. The hazards from nuclear reactors are far fewer than urban populations face from other causes—from airplane traffic, for example. Nevertheless, the scaremongers are at work, trying to shut down all existing nuclear plants and prevent new construction such as the projected plant at Lake Koshkonong.

Irrespective of what Mayor Soglin says or does, nuclear power is here to stay. Nations around the world are pushing construction of new nuclear power plants to meet the need for electricity. All Mayor Soglin, Ralph Nader and similar types can do is retard modernization and slow economic progress in certain areas. They no more have it in their power to end the nuclear age than the last-ditch defenders of the horse and buggy era could stop the coming of the automobile.

APPLICATION FOR NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT AND STATE DISCHARGE PERMIT TO DISCHARGE TO STATE WATERS

Public Notice No.: MD 0127
Public Notice Issue Date: October 10, 1974

The following company has applied for a State Permit and an NPDES Permit to discharge the described wastes into the described receiving waters. On the basis of approved discharge restrictions, the State of Maryland proposes to issue a State Discharge and NPDES Permit as provided in the Memorandum of Agreement between the Maryland Water Resources Administration and the United States Environmental Protection Agency.

Application Numbers:
State: 75-DP-0063, EPA: MD-0050161.

White Rock Mining, Bruceton Mills, West Virginia, has applied for an NPDES Permit and to renew its State Permit to discharge controlled wastewaters into the waters of Maryland.

The applicant is engaged in the strip mining of coal. The discharges described in the application are effluent from a sediment pond collecting strip mine drainage. The discharges are to adjacent groundwater and to Laurel Run, east of Keeler Glade, Maryland. The receiving water is classified for water contact recreation, for fish (natural trout waters), other aquatic life and wildlife.

On the basis of preliminary review and application of lawful standards and regulations, the Maryland Water Resources Administration proposes to issue a State Discharge and NPDES Permit subject to certain effluent limitations and special conditions. These proposed determinations are tentative. The Maryland Water Resources Administration (State) will hold a public hearing at the time and place stated below:

Date: Wednesday, November 13, 1974.
Time: 11:00 a.m.
Place: Westernport City Council Meeting Room, City Hall, Westernport, Maryland

Persons wishing to comment on the proposed determinations are invited to submit a statement to the Maryland Water Resources Administration, Water Quality Permits Section, Tawes State Office Building, Annapolis, Maryland 21401 (with a carbon copy to Water Resources Administration, Naves Cross-roads, P. O. Box 697, Cumberland, Maryland 21502), no later than five days following the public hearing, or to be present or represented at the public hearing, or both. All comments and suggestions will be considered in the formulations of final determinations regarding the application. Parties making presentations at the hearings are urged to address the issue stated in this notice. Oral statements will be heard, but, for the accuracy of the record, all important testimony should be submitted in writing. Oral statements should summarize any extensive written material to allow time for all interested parties to be heard.

The application, fact sheets, related documents, proposed effluent limitations and special conditions, comments received, and other information are on file at the office of the Water Resources Administration, Department of Natural Resources Building, Highland Estates, Naves Crossroads, Cumberland, Maryland. These documents may be inspected, and arrangements made for copying between 8:30 a.m. and 4:30 p.m., Monday through Friday except during State holidays. Fact sheets and further information may be obtained by writing to the above address or by calling 301-724-8530. A copying service is available for public use at a charge of 10 cents per copy.

Register of Interested Persons

Any person interested in a particular application or group of applications may leave his name, address, and phone number as part of the file for an application. The list of names will be maintained as a means for persons with an interest in an application to contact others with similar interests.

vs.
Kenneth Wayne Bittinger

Respondent
No. 6537 Equity
In The Circuit Court For Garrett County, Maryland

ORDER OF PUBLICATION

This is to give Notice that on the 14th day of August, 1974, a Bill of Complaint was filed in the Circuit Court for Garrett County, Maryland, by the complainant against the respondent, whose last known address was 709 Aledo, Coral Gables, Florida. The Bill of Complaint alleges in substance that on the 20th day of November, 1965, she was married to the respondent, Kenneth Wayne Bittinger at Cove, Maryland, by a duly ordained minister; that she resided with the said respondent until on or about the 15th day of July, 1973, at which time the said Kenneth Wayne Bittinger deserted the said complainant while they were residing in Baltimore City, Maryland, that although the conduct of your oratrix towards her said husband has always been kind, affectionate and above reproach, the said Kenneth Wayne Bittinger, without just cause or reason, abandoned and deserted her, and has declared his intention to live with her no longer, and that such abandonment has continued uninterruptedly for more than twelve months, is deliberate and final, and the separation of the parties is beyond any reasonable expectation of reconciliation; that two children were born of the said marriage, namely: Kenneth Scott Bittinger, born January 25, 1967 and Kimberly Ann Bittinger, born September 3, 1969 and who reside with your oratrix; that the complainant is a resident of Garrett County, Maryland, and has resided in this County and State for more than one year prior to the filing of this Bill of Complaint, while the respondent is a non-resident of the State of Maryland, and his last known address was: 709 Aledo, Coral Gables, Florida.

The relief prayed in the Bill of Complaint is substantially as follows:

(1) That your oratrix may be divorced A VINCULO MATRIMONII from the said Kenneth Wayne Bittinger.

(2) That your oratrix may have the custody and guardianship of the said infant children, namely Kenneth Scott Bittinger and Kimberly Ann Bittinger.

Whereupon, it is ordered by the Circuit Court for Garrett County, this 11th day of September, 1974, that the Petitioner cause a copy of this Order to be inserted in a newspaper published in Garrett County, once a week in each of four successive weeks, before the 11th day of October, 1974, giving notice to the said non-resident defendant of the object and substance of the Bill of Complaint and warning him to show cause, if any there might be, on or before the 12th day of November, 1974, why a decree should not be passed as prayed.

THE REPUBLICAN

VOLUME 98 | OAKLAND, GARRETT COUNTY, MD. OCTOBER 17, 1971 | PER COPY 15c | NUMBER 33

Good Profile . . .

We had an opportunity to get a view of middle class America one day last week and the result was a mighty good profile. We saw the family type, the elderly, the young and middle aged, and we were pleased.

There was no sign of rowdyism, no ill manners shown, but an air of respectability and citizenship responsibility all the way through. Politeness and cleanliness seemed to prevail.

The scene was at Disney World, near Orlando, Florida. If there is a cleaner place within travel distance we were not aware of it. We learned that no chewing gum or peanuts are sold in the area which would have helped.

The entire picture gave promise that IT CAN BE DONE in other areas as well as at Disney World. It just takes a little perseverance and educating the citizens. Why not start today?

Seventh Annual 4-Day Festival Ends On Sunday

Parade Sat. Witnessed By 35,000 to 50,000 Spectators

Features on the closing day included an antique car show at the Browning Foodland parking lot, a chicken barbecue at the McHenry fairgrounds, motorcycle races at the fairgrounds and a square dance festival at Garrett Community College, McHenry.

At the kickoff dinner last Wednesday evening at the Wisp dining area Sherri Ashby, Oakland, Southern High senior, was crowned queen of the festival by Lynn Beekman, president of the Deep Creek Lake-Garrett County Promotion council. She is the daughter of Mr. and Mrs. William Ashby. Her escort was David Callis. Other royalty included Princesses Kathryn Sincell, Renata Shillingburg, Paula Skiles, Sandy Beitzel, Karen Workman, Sue Uphold and Cindy Greco. Escorts were Fred Griffith, John Rodeheaver, Jim Livengood, Gene Rodeheaver, Terry Galica, Larry Wenzerd and Randy Eberhart.

Attendance at the Fiddlers' Championship contest on Saturday night totaled 1,400 while some 1,200 persons attended the banjo championship contest on Friday night.

Sponsored by the Promotion Council, with local organizations assisting, the seventh annual event will end up in the black, according to a preliminary summing up of expenses and receipts, and plans are already under way for the eighth annual event next October.

Hershman Trial Is November 25

Edward Hershman, 18, of Rosedale, who is charged with the murder of Mrs. Mabel Paugh August 31, will be tried in Garrett County Circuit Court November 25.

The trial has been tentatively set up as a jury trial, but Louis Patkin, Cumberland, attorney for the accused, has not yet announced whether he prefers a jury trial for his client.

Hershman, who is still incarcerated in the Allegany county jail in Cumberland, waived a preliminary hearing Monday, October 14.

The youth was picked up Friday, October 4, in connection with a robbery at Dr. and Mrs. Alvin Friend's home August 26, and was held on the charges of murder after additional information became available.

He has been ordered held without bond on the murder count, according to a ruling by Judge Miller Bowen, Cumberland.

Mrs. Calhoun Honored By BPW

Mrs. Arthur (Wilma) Calhoun, Oakland, was honored last Thursday evening as "Woman of the Night" by ex-members of the Garrett County Business and Professional Women's club.

Ceremonies honoring Mrs. Calhoun took place at the regular dinner meeting of the group at Wisp, McHenry.

Mrs. Calhoun, a BPW member for more than 20 years, has held every club office, including that of president in 1956 and 1967, and has been a chairman of almost every standing and special committee, including program chairman of the local BPW's 30th birthday celebration.

In addition she was a Heart Fund volunteer for many years serving as Heart Sunday chairman for Southern Garrett County in 1967 and Heart Sunday chairman of Oakland in 1968.

In 1970, Mrs. Calhoun was special events chairman of the Southern Garrett County Heart Fund.

Introduction of the "Woman of the Night" was made by Mrs. Phyllis Trickett, Mrs. Dorothy Francis and Mrs. Fannie Sullivan. Mrs. Calhoun was presented with a floral centerpiece and silver bowl arrangement by Mrs. Trickett.

School Board Is Opposed To Referendum 14

Action Taken At Meeting Last Thursday at Accident

At the regular meeting of the Garrett County Board of Education, held at Northern High School last Thursday, Oct. 10, the Board re-affirmed its opposition to aid for non-public schools. This item will be included as Referendum 14 on the November 5, General Election ballot. The Garrett County Board two years ago had also opposed this particular bill, feeling that it was not in the best interests of education in their schools. Similar action had also been taken by the Maryland Association of Boards of Education in early October at their annual meeting. Dr. William Buser County Superintendent of School, indicated that a flyer is available from the Board office giving reasons as to why the question was being opposed.

In other action, the Board gave tentative approval to Accident site work which is needed for the erection of the relocatable special education building. This project will need approval by the Interagency Committee on School Construction prior to the beginning of the project. The Board also granted a right-of-way easement to the Town of Accident for a sewer line on the school property to the Town Fire Hall.

James H. Trickett, Supervisor of Vocational Education, presented a report to the Board on various aspects of these programs. Board members discussed ways the program was meeting the needs of students and pointed out areas where the staff may be able to further enhance the program.

Little Church To Receive New Flag

A flag from the nation's capitol will be sent to Horse Shoe Run this week to replace one stolen from the smallest church in America at Silver Lake.

Rep. Harley O. Staggers, D-W. Va., said in Washington he would send a flag which will be flown over the capitol this week to P. L. Milkint, builder of a roadside church so tiny only twelve persons can enter at one time.

It will be in Horse Shoe Run by next Sunday, a spokesman for Cong. Staggers noted.

Milkint's little white steepled chapel, built a number of years ago as a family shrine and now a tourist attraction along U.S. 219, lost its cherished flag earlier last week to a thief.

The flag had been in the church since 1958. It once covered the casket of Milkint's brother, Anthony, a World War I veteran, who was buried in Arlington National cemetery. Milkint was crestfallen when he discovered the flag was missing and said he couldn't imagine anyone who would do such a thing. The flag had sentimental value to many people of the area.

Staggers said he read a UPI story about the flag theft and decided to help.

Milkint built the church before Alaska and Hawaii became states and is still called "The smallest church in the 48 states."

Equipment Bids For Waste Program To Be Advertised

Bids for equipment for the Solid Waste Management program are to be advertised in local newspapers this week for a three week period, it was announced by the County Commissioners.

Approval of a grant of $290,000 for the implementation of the Solid Waste plan was announced two weeks ago. Commissioner chairman Wayne B. Hamilton pointed out that the solid waste program would not interfere with private refuse collectors in the county but would provide trash removal services for residents in the rural areas.

He said that the Solid Waste bureau would also solicit bids from suppliers who would not receive the local newspaper. Mr. Hamilton said, "The Solid Waste Management program is essential for our county in order to eliminate potential health hazards and unsightly dumps throughout the county."

FOUR LIVES were lost in the blazing aftermath of an auto and tractor-trailer collision and resulting pile-up of the car into Mt. Mart Service Station at Red House early Friday morning. Oakland firemen and rescue squad members here prepare to remove auto from beneath collapsed roof of gas station. Lt. Wm. R. Turobull and Det. Sgt. Bernard J. Chabot investigated for the Maryland State Police.

He sustained an injury to his right leg, multiple injuries and underwent surgery after being admitted to a Cumberland hospital. He was listed as "critical".

State Police said Mr. Mannerburg was crossing route 40 from the north shoulder to the south shoulder and walked into the path of a car operated by David Thompson, Corriganville. Police added the Thompson vehicle was passing another car when the accident occurred at 6:50 a.m.

Friend's Stockyard Charged With Two Rule Violations

Friend's Stockyard, Inc., Accident, has been charged with violating trust account and recordkeeping requirements of the Packers and Stockyards Act, the U.S. Department of Agriculture (USDA) said today.

The firm is registered as a market agency and dealer to buy and sell livestock. It draws livestock from Western Maryland, northeastern, West Virginia, and southern Pennsylvania.

USDA's Packers and Stockyards Administration charged in an administrative complaint that the firm endangered prompt payment to consignors by having shortages in, and failing to properly maintain its trust account for proceeds received from the sale of consigned livestock; and failed to maintain sufficient accounts and records to fully and correctly disclose all transactions involved in its livestock agency business.

Filing of the complaint does not prove that the firm has violated the Packers and Stockyards Act. It has a right to a hearing to determine whether the evidence supports the charges. If the charges are proven, the firm would be placed placed under a cease and desist order. Its registration could also be temporarily suspended.

Unicef Drive Slated

Fiery Crash Thursday Kills Four Young People

Burial services were held earlier this week for four victims of a fiery car crash on Route 219 last Friday at Red House.

Killed were James Edward Vance, 21, Mt. Lake Park, driver of the car; Tommy Joseph Lipscomb, 21, Route 1, Gormania; Robert Foley, 21, Oakland, home on leave from the U. S. Army at Fort Bragg, N. C.; and Sheila Lynn (Griffith) Cornish, 19, Oakland.

Two other young people, Diane Mellinger, 21, Mt. Lake Park, and Carl McRobie, 21, Friendsville, also home on leave from the U.S. Army, Fort Bragg, were thrown from the vehicle and taken by Doug Thayer, who was following the Vance car, to Garrett County Memorial Hospital, where they were listed in satisfactory condition.

Miss Mellinger remains a patient at the hospital and is now in "good" condition, according to the 8 a.m. report today. Carl McRobie was released from the hospital on Wednesday, October 16.

According to state police records, the Vance car was traveling north on Route 219, disobeyed a flashing red signal, and struck the right rear wheel of a passing Allegheny Freight tractor trailer operated by William Allen Braithwaite, 45, Winchester, Va. Braithwaite was traveling east on Route 50.

The Vance car slid underneath the rear of the trailer before rolling over and careening into the service bay of Mountain Mart, a combination service station-general store.

The impact of the upside-down car was great enough to move a concrete pillar some 15 feet from its original position. The service station is owned by Benjamin F. Knepp and leased to Mrs. Frank Robinette, Route 1, Gormania, who sold health foods, clothing and handmade articles as well as gasoline.

The driver of the tractor trailer used his fire extinguisher on the burning car and had flagged down other passing trucks and these drivers also used their fire extinguishers in an attempt to quench the fire. They were forced back, however, when the car's gas tank exploded. The roof of the service bay eventually collapsed onto the vehicle.

Flames from the archway over the pumps funneled fire against a telephone cable, melting the lead sheathing and damaging some 400 lines.

Oakland firemen responded to the call about 1:30 bringing a pumper and tank truck. They were on the scene until 6 a.m. One fireman, Roger Welch, sustained a foot injury while fighting the blaze.

The 80-year old service station was gutted by the flames. Windows in the structure were from the Dixon-Kelso Store in Oakland, and the rear door was from the First National Bank, according to Mr. Knepp.

Mrs. Robinette's loss, including a new shipment of goods just arrived, was not covered by insurance.

The bodies were removed from

The following questions were typical of the kind asked of me

Please explain the federal health planning program recently approved by the House Commerce Committee?

Several weeks ago the committee voted to set in place a new national network of local health agencies charged with preventing unnecessary hospital construction and monitoring the distribution of federal health funds. Changes in the nation's health planning systems are considered essential before enactment of any national health insurance legislation.

Where can I obtain a copy of the latest migratory game bird regulations covering western Maryland?

The "1974 Point System Guide for Maryland Duck Hunters" is available from the Maryland Department of Natural Resources, Wildlife Administration, Taxes State Office Building, Annapolis 21401.

What kind of enforcement power would be established under the proposed campaign finance reform bill?

Enforcement power would be vested in an eight-member bipartisan full-time supervisory board controlled by six voting public members. Two of the public members would be appointed by the House Speaker, two by the president of the Senate and two by the President, all of whom would be confirmed by Congress. The House clerk and the secretary of the Senate would be ex-officio members. The board would have civil enforcement powers and would be able to seek court injunctions. Criminal cases would be referred to the Justice Department for prosecution.

Our class is currently studying insurance and I wondered if you had any booklets on buying insurance?

To help young consumers learn more about the three major types of insurance that most people buy, the U. S. Department of Agriculture has printed a leaflet entitled "Insurance for your Health, Car and Life". Copies are available free from Consumer Information, Pueblo, Colorado 81009.

Has the budget for rural development programs been cut?

Appropriations for the Farmers Home Administration (FHA) and for the FHA water and sewer grant program have not been reduced by Congress.

A neighbor told me you were trying to help local dairymen. How about eliminating dairy imports as a starter?

As you probably know, I have joined with several other congressmen in requesting a special White House meeting to discuss the economic problem facing America's dairymen. I, too, am concerned over the increasing dependence on dairy product imports and feel the dairy farmer must be given some stability in the market place.

Film On Breast Self-Examination Available Locally

The Garrett County Unit of the American Cancer Society is making available to local groups the film "Breast Self-Examination" to aid in early detection of breast lumps which may be malignant.

Each year 90,000 American women will develop breast cancer, and 29,000 of these women will die. Self examination is a critically important step in detection, since approximately 90 percent of all breast lumps are discovered by women themselves, rather than by physicians.

Clubs and organizations may obtain the film with speaker and appropriate literature by contacting Clint Englander, chairman of the county unit of the Cancer Society, or Mrs. John Durst, chairman of the crusade in the southern part of the county.

The American Cancer Society has initiated this re-emphasis on breast self-examination as a result of the attention given to Mrs. Gerald Ford's recent surgery.

President Vetoes Retirement Bill For Railroaders

President Gerald Ford last Saturday vetoed the railroad employes benefit bill.

He said enactment of the bill would cost the general taxpayer $285 million a year for the next 25 years without bringing him either benefits or a return on his investment. The president said that the railroad bill, which was engineered through the House of Representatives by Rep. Harley O. Staggers of West Virginia, would have put a $7 billion burden on the taxpayer by having the government finance soaring benefits for the railroad workers.

In a message to Congress he said railraod workers' benefits had increased 88 percent since 1970 without either railroad employes or operators paying the added costs.

Hampshire Trims Southern 31-8

Tim Haines ran for two touchdowns, through another and came up with three intereceptions to lead Hampshire high school to a 31-8 defeat of Southern High of Oakland last Friday night at Romney, W. Va.

Holding a 6-0 lead after a four yard run by Haines in the opening quarter the Trojans cracked the Rams with an 18 point second period.

Southern's Jim Livengood took a pass from quarterback Kevin Liller in the final period and then went 30 yards for the only Ram TD. Livengood and Liller also conbined for the conversion.

Scoring other Trojan TD's were Brian, Judy, and Tracy Fitzgerald. John Corbin kicked the only successful Hampshire extra point.

Each team had 10 first downs. Hampshire completed two of seven passes while the Rams completed six of 12 attempts. The Trojans had 291 yards rushing compared to 219 for the Southern Rams.

Southern will play Tygart Valley on the local field this Friday evening.

Suffers Knee Fracture

Glenna Bracey, Route 1, Friendsville, was admitted to Garrett County Memorial Hospital early Tuesday morning suffering from a fractured right knee.

She was taken in the hospital by members of the Southern Garrett County Rescue Squad after a fall from an apple tree about 8:30 a.m.

Mrs. Bracey was attempting to shake a limb of the tree for apples when the limb broke and threw her to the ground.

THOMAS B.
DABNEY, JR.
State's Attorney
Lever - 16A

Dear Fellow Garrett Countian,

Assuring your safety and the safety of your property is the job of the State's Attorney. I think you will agree that this job can be better done than it has been in the past year. In my practice and in recent conversations with hundreds of county residents, I have become more and more concerned with the depth of our crime problems.

Like you, I want to see safety and a sense of well-being returned to our citizens. As a parent, I appreciate the urgent need to provide a safe and secure community for ourselves and our children. Being the first of nine children and the son of a career Naval Officer, I was brought up to fully understand the significance of a close-knit community and family. Rules of conduct and their enforcement are absolutely necessary to assure the well-being of all persons.

As your State's Attorney, I will dedicate my efforts toward eliminating drug traffic, violence, and property-related crimes which now threaten all of us.

With your vote and your cooperation I will use the full powers of my office to make Garrett County the safe place it has been in the past.

Next week I will set out my experience and qualifications to take over the job of State's Attorney.

Sincerely,
Thomas B. Dabney, Jr
Candidate for State's Attorney

IN MEMORIAM

In loving memory of our father and grandfather Earl W. Staub who passed away October 14, 1964.

All the days since you've been gone have been lonely, but today is the saddest, for on this day ten years ago you were taken away from us, dad. Your favorite chair is still empty and never will be filled. What it meant to lose you no one will ever know. For time so far has only proven how much we miss you yet.

Sadly missed by his daughter, son-in law and two of his grandchildren, Mr. and Mrs. Glen E. Frazee and Joyce and Lynn.

THE MANDEL RECORD

Before the taxpayers go to the polls on November 5, they should take a close look at the Mandel Administration's record. SHOULD PEOPLE REALLY LIKE GOVERNOR MANDEL?

1. Governor Mandel has boasted frequently that no general tax increase has been imposed during his term in office, but the fact remains that he has INCREASED TAXES to Marylanders by $677 MILLION. He has also RAISED the GASOLINE TAX from 7c to 9c on the gallon.
2. Governor Mandel has continually SUPPORTED the GUN CONTROL Movement which infringes upon your Constitutional right "to keep and bear arms."
3. Governor Mandel has led the FIGHT FOR "LAND USE" legislation which would give unlimited power to his hand-picked committee to dictate the use of your private property.
4. Governor Mandel brags about his success in promoting SOCIALISTIC LEGISLATION which is the major cause of HIGH TAXES, INFLATION, and WASTEFUL GOVERNMENT SPENDING.

We as taxpayers must demand more respect for our hard-earned dollars and individual rights! We as taxpayers must reject these dangerous policies by denying Mandel our support in the upcoming election! We as taxpayers must send him a message by eliminating Mandel's cronies from our local government! SEND MANDEL A MESSAGE!!

Mrs. Elaine J. Simons and John W. Robinson league officials expressed their appreciation to Mrs. Frances Riley, of Oakland, member of the league and also president of the Civic Club of Oakland.

She wrote "The women couldn't have enjoyed their trip more. I heard no complaints whatsoever. The Country club was ready and waiting for us and they were very hospitable.

"I am sure that everyone attending is now aware that Oakland which is in Garrett county, is truly God's special spot in Maryland."

CONDITIONS WEREN'T THE BEST Sunday afternoon for flying electronic-controlled airplanes, but several members of the Cumberland Aircraft Model Society spent the afternoon giving flying demonstrations despite the windy weather at McHenry. Large groups of interested people congregated on the fairgrounds and along the roadway to watch the planes perform. In the center of the photo is Earl Parsons, Moorefield, a CAMS member, while Dick Miller, right, keeps an eye on his plane. Other CAMS members who brought planes were Larry Athey, Earl William, Carl Tribut, Charles Jones, Gerry Ingal, Paul Smith and Bob Riggs. CAMS, chartered in 1965, now has 23 members and gives four or five demonstrations a year, in Paw Paw, Rowlesburg, Allegany Community College, and now Oakland. According to Mr. Riggs, a kit containing all necessary parts for the airplanes costs approximately $100, and takes about 45 hours to assemble. The radio is the most expensive item needed, and the entire outfit, including radio and airplane, usually averages about $300 to $400, or more.

LETTER TO THE EDITOR

Dear Mr. Hanst:

Tastefully displayed in her store window on Second Street, Oakland, Mrs. Sandy Flanigan, proprietor of Youthland, recently presented a tribute to the Southern High Band.

She was not asked by members of the band or the band boosters to develop the display. It was presented through her own initiative to show her pride in the band.

Although many of us are proud of our fine band, few take the time to express our feelings. I consider Mrs. Flanigan's efforts an outstanding display of civic pride and awareness. She is to be congratulated.

Sincerely,
Ben Ridder
Oakland, Md.

Program On Hot Meals Seen Cut

Recent proposed allocations from the state for the hot meals program indicate the need to undergo a cutback, according to information from the County Commissioners this week who contacted the Maryland Commission on Aging to bring them up to date on the status of the hot meals project.

The program now serves 700 senior citizens a month at a minimal cost. Following a meeting with Dale Ellis of the County Commissioners on Aging, the Commissioners took action to request further funding be made available through Title VI of the Social Security Act on the nutrition program.

Earl Opel is commissioner representative to the Community Action committee. The Commissioners noted that a large portion of the county's population is comprised of senior citizens and that many of them needed the program offered by the Commission on Aging.

Other Action

Mr. Opel, chairman of the Roads board, met with Roads Department representatives to review personnel concerns and the status of the paving and resurfacing program. Mr. Opel pointed out that the merit System is the official body which handles personnel concerns but that the county commissioners meet with roads department employe representatives regularly to check out individual concerns. In this way, he added, "we can become aware of problems before employe dissatisfaction becomes unmanageable. This policy was developed at the beginning of the term of the present commissioners to help eliminate a roads strike that occurred in the county four years ago." Mr. Opel said that the regular contact with employe representatives had been a real asset in maintaining good personnel relations.

Hamilton at Workshop

Wayne Hamilton, commissioner chairman, is participating in an Ohio River Basin workshop being held in the county. Mr. Hamilton is involved in this workshop because the Youghiogheny river is one of the tributaries of the Ohio river. He said the commissioners must be aware of future plans for natural resources that will affect the county's environment. Mr. Hamilton pointed out that "it has been our policy to keep the natural beauty of our county as a priority concern."

Mr. Hamilton also attended meetings regarding the Neighborhood Youth corps advisory committee and the proposed conference center for this county.

A donation is asked of each family in that area, and containers are available at Cindy's Tavern, Clark's Grocery, and Warner's Store.

Forest Paintbrush

Arnold and Connie Krochmal
USDA Forest Service

Visitors to our eastern forests are dazzled by the brilliant colors of leaves at this time of the year. Yellows, orange-yellows, and shades of red excite the eye and the imagination. Shrubs and trees join in to herald the coming of fall.

Where do the colors come from?

Why do some plants turn bright yellow while others turn a vivid red or a warm purple?

The differences lie in the plants themselves, very much in the way that some people, for example, have red hair, others black. A heredity factor decides what the fall color will be.

As fall approaches, plants receive signals to prepare for winter—the gradual shortening of the days, and the slowly lowering day and night temperatures. The most visible preparation by plants that cast their leaves is the change in leaf color.

During spring and summer, of course, almost all leaves are green. Their color is due to tiny structures containing chlorophyl. These bodies die and are replenished all during the growing season. As the warning signals of fall are received, each leaf produces a corky layer at the bottom of its stalk. This layer slops the movement of minerals and water needed by the chlorophyl bodies. They die and are not replaced in the fall.

In many trees, including walnut, hickory, yellow-poplar, and sycamore, a rich yellow color appears. Oddly enough, that color has been present in the leaves all the time, hidden by the green chlorophyl. Only now as the chlorophyl disappears can the yellow appear to the eyes.

Trees that have red foliage, such as some oaks and maples, tell a different story. The layer of cells on the leaf stalk that cuts off food and water also keeps the plant sugars manufactured in the leaves from moving out. The plant converts these sugars in the leaves into red and purple pigments. The rate and degree of color change vary from tree to tree. This process is much favored by cooler nights and by clear, cooler days, and many other factors may affect the process.

Frost is not needed for color change to begin. In fact, a heavy frost kills the leaves, and the bright colors disappear soon after.

Trees that produce red foliage in autumn, then do so by manufacturing pigments in the leaves at that time of year. Trees whose leaves turn yellow do not produce these pigments.

The state's 1974 apple crop was estimated at 60 million pounds.

IS YOUR HOME A "HALFWAY HOUSE"?

If your house was built in 1964, it would probably cost 50% more to build the same house today. So it's important for you to watch property values carefully to make sure your insurance stays current with these increasing costs.

We can help you find out if you own a "Halfway House". We'll give you a copy of the Dwelling Approximator, a simple folder that will help you determine the approximate replacement value of your home. Then, we'll review your present home insurance with you to help you determine whether it gives you adequate protection.

Two Motorists Satisfactory Following Crash

Robert M. George, 62, route 1, Salisbury, Pa., and Marilyn Darlene Crowe, 42, star route, Grantsville, who were injured in a two-car pedestrian accident Monday morning on U.S. route 40 in this county, both were reported in "satisfactory" condition in Meyersdale Community hospital.

The car operated by the Crowe woman, traveling in the same direction, attempted to avoid a collision but her car struck the George auto and then continued across the highway and struck the McClintock boy.

Community Action or Federal Interaction?

This ad is not an attack on individuals who are directly employed by government agencies. On the contrary, its purpose is to further point out the dangers of Big Government to government employees as well as to private interests.

A multitude of government-funded projects are springing up in our County. In other words, a sizeable bureaucracy is being entrenched. The names of the Commissions, Committees and Associations are bewildering, and their purposes are many and varied. If the powers that be go unchecked, it is probable that more agencies will spring up after the election.

These agencies can be dangerous to our County for many reasons (as explained in last week's ad). Let us take the local Community Action Committee (CAC) as a case study.

Community Action is being promoted all over the nation. The services rendered are many and diverse. Our local CAC provides 3 main services to the community:

1. Child Development (ages 0-6) and Headstart (ages 3-6)

These provide a place for parents to leave their children in the daytime. Even if the personnel and facilities are excellent, do you think a state-financed facility can replace the family as the basic social unit for instilling virtues of loyalty, respect, and discipline among young children? Think about it. Considering the rapid moral decline in this country, won't a free day-care center present a strong temptation for young mothers to shirk their responsibility as parents? What about the future?

2. C.A.C. provides hot meals and organizes activities for Senior Citizens.

Is Christian charity outmoded? Don't we care enough about our own parents to care for them anymore? Are our churches so dead that they don't even organize activities for the aged members of their congregations?

3. Operation Mainstream. This is a work training program. Trainees provide public services to the community. Work was done on the Deer Park Fire Station, and roadside bus shelters were built by Mainstream trainees. There is also a Housing Rehabilitation program, which provides "free" labor for rehabilitation of a home if the owner provides the materials. I imagine that this service would be only to underprivileged or elderly homeowners, because the services rendered must be public services.

CAC costs the County $32,000. I would venture to say that this is only a small portion of the annual cost of the program. CAC is also funded by 3 separate agencies of the Federal Govt. These are the Department of Labor, the Office of Economic Opportunity, and the notorious Department of Health, Education, and Welfare (HEW). For some reason, the Congress of the U.S. did not appropriate your money to support CAC this (fiscal) year. Don't ask me how or why, ask Byron) but it did pass a "continuing resolution" to fund the program from July 1 to September 30. I guess that means that when Congress says "no" to Big Govt., it really means "maybe". CAC is presently awaiting another "continuing resolution".

So, fellow citizens, shall we take upon ourselves the responsibility of Christian charity and sensible government, or shall we leave it to the professionals?

OPEL HAMILTON GUY

As chairman of the Roads Board, Earl E. Opel has shown an unceasing concern for the residents who must live on the county road system, or drive it daily. Mr. Opel has demonstrated his enthusiasm for this department by holding regular meetings as a Roads Board, establishing continual contact with road employee representatives, and being available for bid openings and budget work sessions on the county roads budget.

In addition, Mr. Opel puts in overtime while the county budgeting process takes place. With a six million dollar budget to consider, Mr. Opel has taken pains to see that the county funds are equitably distributed throughout al the county agencies.

Mr. Opel represents the commissioners on the Social Services Board and the Community Action Committee.

Mr. Hamilton has taken over the day-to-day responsibilities of the office of county commissioner with non-stop effort. Because of his high level of involvement, Mr. Hamilton is able to establish contact with regional agencies which greatly benefit Garrett County, such as the Tri-County Council. Mr. Hamilton has additional fiscal responsibilities, as chief administrative officer of the county, with regard to the Federal Revenue Sharing program, and its expenditures of funds.

In addition, Mr. Hamilton is the commissioner representative to the Sanitary Commission, Planning Commission, and Promotion Council.

PUSH DOWN LEVER 10A

Mr. Guy has taken on the responsibility of keeping the capital improvements in the county and facilities in the best possible maintenance. Mr. Guy has several facilities and day-to-day attention needs that must be met. Because of his efforts several dollars have been saved on behalf of the county taxpayers, rather than pay out for needed repairs which could have been prevented. Mr. Guy is also concrened with scheduling various maintenance programs to comply with the demands placed upon the commissioners by the Grand Jury.

In addition, Mr. Guy represents the county commissioners on the Bicentennial commission and the Garrett County Historical Society, both of which are getting involved in the National Bicentennial celebration for 1976.

Special Instruction On "TM" Will Be Offered At College

Special instruction in Transcendental Meditation, or TM, will be offered at Garrett Community College, Area B, beginning on Thursday, October 21 at 7:30 p.m. according to Scott Ward, Youth Counseling Services Coordinator.

The training will be conducted by two certified TM trainers, Doug and Elsie Burbeck, from Berkeley Springs, W. Va. The Burbecks describe TM as a widely accepted technique for obtaining balance and tranquility between mind and body through self-reflection. It has proven useful in reducing the use of drugs, alcohol and tobacco in lessening anxiety and tension, Mr. Ward pointed out.

Two no-cost orientation sessions will be conducted at GCC on Thursday and Friday evenings, October 21 and 25. This will be followed by five individual training sessions held during the period October 26-30 at the Oakland "Walk-In-Center" for people desirous of completing the instruction.

Cost of the individual training will be announced during the initial meetings, Mr. Ward said.

Commissioners Accept Check For Conference Center Study

Garrett County Commissioner chairman, Wayne B. Hamilton, center, receives a check from Joseph G. Anastasi, secretary of the Maryland Department of Economic and Community Development, for half the costs of a feasibility study of a conference center for the county. Commissioner Earl Opel is at right.

The check was presented at 2 p.m. Tuesday afternoon in the Commissioner's office in Oakland.

The Commissioners and the Department of Economic and Community Development will jointly sponsor the $15,000 four-month study of the conference center, which has been suggested for years as one means of expanding the tourism base of this county.

The study is to be made by System Design Concepts, a Washington research firm, which will concentrate on the economics of the proposed conference center, the type and size of any such facility and the benefits the county could expect.

Secretary Anastasi said he was impressed by the "determination of Garrett County officials to make maximum use of the great natural beauty of the county to attract more visitors and thus strengthen the economic base, create additional tax revenue and provide new jobs. Hopefully, this joint state-county effort can attract private investment once the feasibility of the project has been established."

No decision will be made on the center until after the entire four-month study.

The Commissioners are meeting today with John Nelson, from the Department of Tourism, to discuss the conference center.

Commissioner Bernard Guy was unavailable at the time the above photograph was taken on Tuesday afternoon.

ACE Chapter Is Chartered October 8

The Western Maryland Chapter of Active Corps of Executives (ACE) sponsored by Frostburg State College Center for Management Development and the United States Small Business Administrative, was officially shartered Tuesday, October 8, at Frostburg State College.

Among those attending the dinner meeting were Richard Stanton and James Michael, First National Bank of Oakland, and Harold Kahl, Garrett National Bank.

One Slightly Hurt In Wreck Monday

One passenger in a car was slightly injured in a two-car wreck on U.S. Route 40 Monday morning. There were no apparent injuries in two accidents Saturday.

Rose Lena Leonette, 33, Alexandria, Va., received possible slight injuries while riding in a car driven by Martha Jean Leonette of Upper Marlboro.

Martha Leonette was driving east on Route 40 just east of Keyser Ridge and attempted to pass a towed truck being pulled from the westbound lane of the roadway. Mary Susan Christopher, Carmichaels, Pa., following the Leonette car also attempted to pass the same truck and the two collided.

Cpl. R. J. Reed charged Mary Christopher with operating at excess speed.

Two Saturday accidents occurred in the Thayerville and Accident areas on U.S. Route 219.

Horace H. Countryman, High Street, Oakland, and Paul R. Sanders, Cumberland, were traveling south on Route 219 just before noon about .3 mile south of the Glendale road. Sanders attempted to pass the Countryman car as it made a left turn and the two collided. The left rear turn signal was not flashing but the left front was.

Tfc. L. R. Rosage apparently made no charges.

Clarence D. Carpenter, Kansas, Ill., was traveling north on Route 219 about 10 o'clock last Saturday night when a deer entered the roadway from the left. Carpenter hit his brakes but was unable to avoid striking the animal. Tfc. Dale K. Williams investigated.

Card of Thanks

The family of Clem Teets wishes to express their deep appreciation to the untold number of friends that aided and consoled the family during the time immediately following Clem's death on October 6, 1974. A special thanks goes to the many individuals and groups that provided flowers, donations to various charities, and the many cards the family received.

Also, the family expresses their thanks and appreciation for the many food gifts they received as well as for the fine work performed by the Terra Alta Chapter — Order of Eastern Star in preparing and serving it.

Clem's death was a great shock to us all, and only with the help of our many fine friends was the blow lessened.

May God bless each and every one of you.

Sincerely,

Ruth, Jim, Bob

60 Units Participate, Weather Cooperates, and Estimated 35,000 Watch Autumn Glory Parade

The seventh annual Autumn Glory parade has marched into history, leaving behind memories and these photo highlights of the glorious affair. ● Left to right: six-horsepower Belgian team and wagon of Robert Decker, Garrett, Pa., show how it was before the horseless vehicle came on the scene. ● "Maryland — Next Door To Heaven" float of Oakland Mt. Lake Park Lions Club featured Little League Footballers. Lions have promoted the game at Southern High for the past ten years, contributing nearly $700 annually. ● Miniature Conestoga of the Robert O. Glotfeltys is powered by ponies. Fractious leaders were kept in line by Joan Glotfelty, a student at U. of Md. Conestoga was built locally.

● Reigning Queen Sherri Ashby, under the lucky horseshoe, greets the crowd and is attended by Princesses Cindy Greco, Sue Uphold, Karen Workman, Sandy Beitzel, Kathryn Sincell, Renata Shillingburg and Paula Skiles. ● First place winner of high school bands of over 70 members was Williamsport, Md., directed by Harry E. Kight. Keyser High won first for bands under 70 members.

● A row of waving dignitaries: Grand Marshall Marvin Mandel, governor of Maryland; Miss Maryland Susan Jane Wohlfarth, of Potomac, Md.; and Rep. Goodloe Byron and family.

● Winning commercial float was Oakland Rotary, featuring scholarship winners Mary Jane Fike, Lisa Hinebaugh, and Sean Sanders. ● Junior Woman's Civic Club of Oakland captured first honors for amateur floats for originality and club's emphasis on pollution and recycling of empty glass jars.

● For the 7th time around, Ali Ghan Shrine units contributed mightily to interest and variety in the parade. Here clowns ham it up, to the delight of spectators, with Oakland policeman Frank Finch. ● Miniature cars buzzed expertly in figure eights while ● burros and carts set a leisurely pace throughout Oakland's downtown streets.

Benefit Weekend Set At Bruceton

Cycle stunt jumper and current World Champion Bob Gill will be making one more appearance at Appalachia Lake Park near Bruceton Mills, on October 19th and 20th.

However, instead of a bike, Gill will be sporting a new wheelchair and instead of his usual breathtaking jump, he will be talking with and signing autographs for those who attend the Bob Gill Benefit Weekend of motocross racing. Two days of racing, plus movies, bands, and other activities have been planned with all proceeds going to help pay for Bob's present medical bills and future physical therapy treatments.

Over 500 riders have sent entries to Appalachia Lake for the event with the theme being, "Ride to help make him walk." Bob Gill was injured earlier this year while attempting to set a new record for himself by jumping the Lake. He fell short. He may never walk again.

Student at WMC

Jean M. Alvarez, daughter of Dr. and Mrs. Joseph Alvarez, Oakland, is among the 406 new students at Western Maryland College, Westminster.

Total undergraduate registration was 1,274 when classes opened on September 9.

My neighbor Marty is a certified public accountant. He is also an assistant scoutmaster. And treasurer of the Civic Association. Hard worker for local charities. And—oh yes—Marty is a Saturday morning bricklayer. He can build a mighty fine wall to set off that patio he put in last summer.

You'd think that a man so capable and versatile wouldn't feel dependent on anybody or anything. Not so.

It is usually the folks like Marty—the ready, willing and able ones—who are first to recognize their spiritual needs. Nor are they ashamed to admit their dependence on God—and His Church. You'll hear Marty and his wife give credit to their religious beliefs for the strength of their marriage and for the ideals that inspire their family life.

In fact, it's Sunday morning rather than Saturday, when they do their most important *building*. How about joining them at church time?

THE BIBLE SPEAKS

BY LAWRENCE W. ALTHOUSE

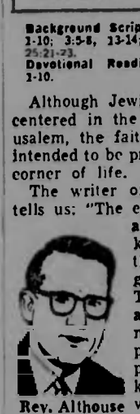
IN EVERY PLACE

Lesson for October 20, 1974

Background Scripture: Proverbs 1: 1-10; 3:5-8, 13-14; 15:1-4; 23:19-21; 25:21-23.
Devotional Reading: Proverbs 1: 1-10.

Although Jewish worship was centered in the Temple at Jerusalem, the faith of Israel was intended to be practiced in every corner of life.

The writer of Proverbs 15:3 tells us: "The eyes of the Lord are in every place, keeping watch on the evil and the good." In the Temple there was a special awareness of God's presence, but the people of Israel knew that God was not limited to that place.



Rev. Althouse

In all your ways . . .

Furthermore, they knew that there was more to religion than worship. Although worship in the temple was one great facet of the faith of Israel, the exercise of religion in daily life was another. Both of these religious perspectives were regarded as essential to the Jewish faith.

One guide for daily living was to be found in the laws of Israel. The heart of this law was to be found in the Ten Commandments, but there were many laws in addition to these, all of them with the purpose of helping the Jew to live by God's daily guidance.

The laws gave specific guidance for particular situations in daily life, but beyond this there was felt a need for principles and ideas that could be utilized in many different situations. The Book of Proverbs was assembled as an answer to that need. These are short, terse sayings that are intended to instruct the Jew in all areas of life.

In fact, this is indicated in one of the proverbs: "In all your ways acknowledge him, and he will make straight your paths" (3:6). This was a rather radical approach to religion, for the faiths of some of the neighbors of Israel emphasized worship and sacrifice. Religion was what these people practiced when they were in a temple or holy place. Often it was quite unrelated to how they related to their fellowman.

The key of moderation

The faith of Israel, however, was a faith for "every place" and the Jews were counseled to acknowledge God's presence and will in "all your ways." Key to this approach to daily living is the concept of moderation.

The wise practitioner of the faith will practice moderation in his relationships with other people, particularly in his speech with other people: "A soft answer turns away wrath, but a harsh word stirs up anger" (15:1). One does not have to be brilliant to appreciate the truth of that proverb.

The understanding man will also be moderate in his personal habits, for example: eating and drinking. He will not be a "wine-bibber" or a "glutton," but will eat and drink in moderation.

The end result of this daily religion in every place will be not only a God who is pleased but a man who is truly blessed.

HOW MUCH IS A PRESCRIPTION WORTH?

About half of them cost $3.25 or less, the average price of all of them is about $4.50 and of course some of them are $6.00 or more.

But, how do you really estimate the value of the modern medicines that are helping add many years to almost every life? How much is a three day cure for pneumonia worth, or almost immediate relief from a kidney infection? When you are sick, get a prescription from your physician. You get well quicker and save both time and money.

TIME TO LIME

This is the time of year for you to be thinking about liming your fields ... by applying mag lime now, your soil will be neutralized by spring and ready to go to work. Soil in this area has a high acid content, and it's necessary to apply mag lime to reduce this excess acidity ... in addition by using the proper amount of lime ... you save money ... by using less fertilizer.

Let ROBERT H. MILLER TRUCKING spread your fields with lime this fall, when fields are solid enough ... and when the trucks aren't nearly as busy as they will be next spring ... so don't wait until the last minute ... you can arrange to have Robert Miller spread your fields with lime by contacting your local Agway Store or representative ...

TESTING THE NEEDS

There's a lot of insurance written to satisfy the needs of others. Lending institutions require insurance to protect their interest in mortgages and installment loans. The State requires insurance to protect the interests of employees against accidental injury.

But, what about YOUR interests for your family property or business operations — a program expressly designed to satisfy your needs.

The best test we know is two fold:

1. Determine the kinds of less to which you are exposed.
2. Protect against those losses which you could not reasonably pay out of your own resources.

We've been in the risk management business a long time; assisting people to identify those hazards which they can control and to economically insure against the risks that are beyond their control. If this is the kind of insurance service that appeals to you, won't you give us a call.

ELECT

WAYNE B.

HAMILTON

Mr. Wayne Hamilton has been serving in the capacity of County Commissioner since 1970, three of those years, he has been Chairman of the Board of County Commissioners. In this capacity, he has been active in several county projects: Improved Health Services, Planning, Economic and Community Development, Employment Improvement, Rural Transportation and Revenue Sharing, just to name a few.

Also, in his capacity as Chairman, Mr. Hamilton has brought to the office of county commissioner an understanding of the many problems that face the some thirty agencies of the county. This awareness takes a full-time effort on his part, which he has faithfully demonstrated for the past two years.

Because of Mr. Hamilton's interest in the county, he has made several state level contacts, which if lost, would cost the county much-needed money and much-deserved respect.

Sharon Green, of Northern High School, and Tom Panther, of Southern High School, attended the Forestry Conservation Workshop at Catoctin Mountain National Park, near Frederick, from August 25 to 31. The workshop was sponsored by the Maryland Association of Forest Conservancy District Boards and the Maryland Department of Natural Resources, Forest Service.

During the workshop, the students were exposed to many phases of conservation including forestry, forest protection, wildlife biology, fisheries management, soil conservation and recreation management.

At the October 10 meeting of the Garrett County Board of Education the Board decided to change the observance of Memorial Day from Monday, May 26, 1975, to Friday, May 30, 1975. This was done to make the holiday consistent with the date being observed by other agencies in the Garrett County area.

Herbert G. Harman reported to the Board on Resolutions presented to the Maryland Association of Boards of Education at their annual meeting in Columbia earlier this month.

In transportation matters, the Board approved of awarding bus contracts from Emile Germain (Route 36-A) to John Evans, Jr., and Robert Enlow (Route I-A) to Jack Rodeheaver. Bus drivers who will be approved pending the successful receipt of all papers are: John Richard Livengood, Alice Kathleen Magruder, William Bender, Ernest C. Durst, Donald W. Friend, and Donald O. Bowman.

The Board, upon the recommendation of the superintendent approved the appointment of Janet L. Cozad as a teacher at the Oak Street Kindergarten.

No Respect . . .

A letter to the editor of The Sun, Baltimore, the other day, took almost a column to belittle the president's speech before the FFA in Missouri. This woman stated the speech was an insult to the intelligence of the American people, directed to those with a mental age of about ten.

This was a most ridiculous statement when his talk was very well received by the FFA members present and the millions who heard him on television.

It is remarks like these, and they appear to be numerous, that create a loss of respect for the presidency—not the president. Too many of the American people seem to have lost respect for the office of president and for the Congressional offices. Under no circumstances, we feel, should citizens lose respect for the offices under which this Democracy operates and endures.

We admit it is very difficult at times. When Congressmen quietly increase their expense money by $10,000 annually, in the face of inflation, raise salaries of federal workers, without apparent regard for the president's plea to hold steady, indiscreet activities of numerous elected officials, involving lack of morality and honesty; unnecessary trips abroad by many Congressmen at public expense, absenteeism by many elected officials—these are just a few of the reasons that give us concern for the loss of morality and responsibility. Eventually we will get back on the right track, but in the meantime maintain high respect for the office, if not for the office holder.

Flyer's Body To Be Returned Here For Burial

The body of Jack E. Weber, 54, of 3701 Webber Street, Sarasota, Fla., native of Oakland, has been recovered from an air transport crash in Laos, Southeast Asia, and will be returned to Oakland the latter part of this week or early next week, it was learned yesterday afternoon from members of the family.

He was flying relief supplies to mountain tribesmen in that country and was reported missing last Monday by the American Embassy in that country.

The C-46 transport plane being piloted by Weber, was reported to have been sighted on Tuesday by rescue planes and at that time the embassy said there appeared to be no sign of life.

His wife, Mrs. Sue Weber, received a cable from the Vientiane embassy in Laos on Wednesday. Cause of the crash was not known, but it was down in the west central mountains, a territory Mrs. Weber said was controlled by the Communist Pathet Lao.

Jack was employed by Royal Air Laos as a civilian cargo transport pilot, however, he operated under U. S. government contract and his salary was paid by United States Aid. He served as a captain in the U. S. air force during World War II.

Mr. and Mrs. Weber had lived in Laos for five years, 1969 to 1973. They moved to Sarasota where Weber's eldest son, Edward, 29, is employed as an attorney in a law firm there.

Weber had 33,000 cockpit hours and had been flying for more than 30 years.

The body will be returned to the Durst Funeral Home in Oakland, with services at a later date and interment in the family cemetery.

Surviving are his widow, Mrs. Sue Weber; one son, Edward, Sarasota; another son, Warren, a pre-medical student now interned at North Florida General Hospital, Gainesville; a daughter, Susan Mary, a senior at Eckerd College, St. Petersburg; and a son, Ralph, a freshman at Emory Junior College in Oxford, Ga. Also surviving are the following brothers and sisters, Bond Weber, Charleston; Logan Weber, Belsy Sukow, Cara Webber, and David Weber, all of Oakland. He was the second youngest son of the late Ralph and Mary Weber.

An Amtrak Train Route Through Oakland Possible

A new passenger train route is likely to be announced this week which would perhaps follow the B and O Railroad route passing through Oakland.

The propose train route would be between Washington and Denver, Colo., passing through Cumberland, Keyser and Parkersburg enroute. Other places to be served would be St. Louis, Kansas City and Topeka.

Beyond Parkersburg, one of two possible routes would be followed, either through Cincinnati to St. Louis or a more likely northerly route to join the present National Limited through Columbus and Indianapolis to St. Louis.

The last Amtrack train through Oakland continued on to Parkersburg but a few years ago was cut back to Cumberland.

Several routes are possible between Kansas City to Topeka and Denver.

Although the announcement could be made this week, it was said, the actual operation of the train could take several months before beginning.

Kitzmiller Fires Thought To Be Work Of Arsonists

Kitzmiller Volunteer firemen were called to two fires this week, on Tuesday morning and early Wednesday morning. It appears that both fires may have been the work of arsonists.

The first call came about 11 a.m. Tuesday, when it was reported that a trash fire had spread to the woods at the intersection of Routes 135 and 38. Apparently some trash dumped in the vicinity of a telephone building was set afire. Approximately one-half acre was burned before firemen doused the blaze.

A call at 3 a.m. routed 11 men and sent three vehicles to a wood ed area about three miles west of Kitzmiller, off Route 38, where a missile was on fire.

An estimated one and one-half acres were burned over before the fire was controlled.

County Gets Tax On Admissions, Amusements

Admissions and amusement tax revenues distributed for July, August and September of fiscal year 1975 in Maryland amounted to $2,190,111.37, according to Louis L. Goldstein, state comptroller. This compared to $1,808,812 for the same period last year.

These revenues have shown an increase of 21 percent for the first quarter over the same period last year.

The distribution figures showed that Garrett county received $12,073.71.

Deadline Nears On Wheat, Grain Feed Program

The final date for farmers to file a certification and a report of acreage planted for 1971 is November 1st., Darrell Martin, Chairman, Garrett County Agricultural Stabilization and Conservation (ASC) Committee said.

Martin stated "many producers throughout the county do not understand the significance of signup and certification of crop acreage this year." The new law which went into effect in 1974 and continues through 1977 provides under certain conditions for disaster payments the producers who suffer substantial barley, corn, or wheat losses because of drought, flood, hail, or fire.

Disaster payments will be made when planting is prevented, or when total feed grain or wheat production is less than two-thirds of the allotment times the program yields because of natural disaster conditions.

Conserving base requirements for the 1974 crop has been suspended. Substitution of nonquota crops will be allowed for allotment preservation purposes.

All that a producer has to do in 1971 to be eligible for target prices assurance and other program benefits is to sign up for the feed grain and wheat program before November 1, 1971.

New Playground Equipment Here

The new playground equipment has arrived, has been installed and is now in use by the students of the Center Street school, it was announced this week by Wayne R. Johnson, principal.

The project became a reality through the efforts of the Mayor and Town Council of Oakland who leveled off, put in a stone base and tarred and chipped the surface. Money was contributed by the Center Street Parent-Teacher association, the Oakland-Mt. Lake Park Lions Club, the Oakland Rotary Club, the Junior Woman's Civic Club, the Civic Club of Oakland and individual members of the BPO Elks.

Mr. Johnson said the equipment was assembled and installed by members of the Garrett County Community Action committee last week. It had been ordered in late June but just received because of the shortage of steel and the heavy demand for this type of equipment.

Mr. Johnson said they would like to complete the project by eventually putting a safety area of fine sand around each piece of equipment and a smooth black top layer.

Oakland Mayor H. D. Swartzentruber, center, accepts checks for the $200,000 Water Bond issue for Oakland from Nordeck Shaffer, left, of the Garrett National Bank, and Courtney R. Presentation of the checks was made last Thursday, October 17, in the Council Room at City Hall.

Injured Girl Gets Additional Settlement

Dawn Monica O'Leary, the 15-year old girl from Oakland, who lost both arms when she contacted an uninsulated high voltage electric wire two years ago in Grant County, W. Va., has received $75,000 from Fairfax Sand and Crushed Gravel company in a settlement in the Federal District Court in Elkins.

Miss O'Leary, formerly of Scherr, W. Va., had received $300,000 in a settlement September 20 from the Potomac Edison Electric company which operated the electric line stretching over a pile of gravel in a gravel storage area that Fairfax Sand owned and maintained.

The girl had been playing on the pile located near her home just outside of Scherr and she stood on top of the pile and raised both arms above her head.

Bank Resources In County Over $105 Million

The two banks of Garrett county, with their various branch offices, have shown resources of more than $105 million dollars in statements of condition appearing in this week's issue of The Republican, from the First National Bank of Oakland, and the Garrett National Bank in Oakland.

The First National Bank statement shows resources of $61,087,787.11 a gain of over three million dollars since the last statement. It also showed deposits of $53,646,358.01, a surplus of $3,061,500 and undivided profits of $823,506.06.

The Garrett National statement showed resources of $41,258,295.46, a gain of almost four million dollars over the previous statement. It showed deposits of $39,370,000.96, a surplus of $1,601,575, and undivided profits of $515,103.39.

The amount of resources in the county does not show assets of Liberty Trust of Cumberland, which has offices at Grantsville.

The rise of the Nation's crime rate continues unabated.

$200,000 Water Bond Issue Now Complete

Bonds Are Purchased By Two Oakland Banks

The $200,000 Water Bond Issue of the Mayor and Town Council of Oakland was closed last Thursday, October 17, when representatives of the First National Bank and the Garrett National Bank in Oakland, who had purchased the bonds, delivered their checks to Mayor H. D. Swartzentruber at City hall in Oakland.

Improvements to the water supply to be financed by the Bond issue include an eight inch water transmission line connecting the Broadford Dam Water purification plant with the reservoirs located on Crook Crest, in the town of Oakland, and the extension of the water distribution lines to certain areas not presently served by the town.

It was explained that the eight inch transmission line is 10,107 feet long, beginning at a point in the Broadford Dam recreation area and extending through Mt. Lake Park and along Dennett Road to 8th street, in the town. The line then passes through private property until it reaches Crook and Fourth streets. The line then runs the length of Crook street until it connects with lines to the reservoirs.

Pipe for the line has already been distributed to locations along the route where various property owners are cooperating with the project by permitting temporary storage of the pipe on their properties.

The laying of the pipeline will be done by the H. J. Schneider Construction, Inc., of Pittsburgh, Pa. The company has already begun the necessary boring operations at Crook and Third street in order to pass the pipeline underneath U.S. Route 219. Valves are to be provided at different points along the eight inch pipeline in order to permit water distribution lines and fire plugs to be installed to serve adjacent residential areas.

The installation of an additional reservoir is planned at a future date at a location near the mid point of the pipeline. It was anticipated that the pipeline would be completed by the end of this year.

The connection will improve the city's water supply and the overall capacity.

Park Councilman Resigns Position

Joseph Bowen, member of the city council of Mt. Lake Park, has resigned his position, as of a letter to the council on October 20, it was learned this week.

This came two days after Elmer Upole, after resigning as mayor of the Park, was re-elected to that position at a meeting of the council on October 18.

Other members of the Mt. Lake Park city council are Ethel Boltz, Jack Wilson, Everett Bray and James Sharpless.

It will be the responsibility of the council to name a fifth member to serve the unexpired term of Mr. Bowen.

Fire Set Under Gas Tank Destroys Church Bus Friday

A 60-passenger bus owned by the Full Gospel Church of Deer Park was destroyed by a fire which had been set under its gas tank last Friday morning about 9:30.

The fire was first noticed by a young son of Rev. Walter Leake, pastor of the church. Rev. Leake attempted to get the fire extinguisher from the bus, but found the doors locked.

Deer Park Volunteer Firemen were called to the scene and moved the bus from the parking lot near the church before dousing the flames.

Robert Shriner, Westernport, fire investigator with the state fire marshal's office officially listed the fire as "malicious burning" the term used for arson when a fire is set anywhere other than an inhabited dwelling. Malicious burning is a felony in this state.

Although the wind kept flames from reaching the church, some smoke damage was done to the

Listen, Americans!

By DR. GEORGE S. BENSON
President—National Education Program
Searcy, Arkansas

A Guest Column:

I do not often use guest columns. But I have come upon one so good that I must pass it on to you. It is not often that we Americans brag about what we are doing for other countries. But a Canadian writer by the name of Gordon Sinclair did a story not long back on the good things about America. He wanted to counteract, if possible, the international criticism that seems to be rampart everywhere and I appreciated his effort, and it follows:

The United States dollar took another pounding on German, French and British exchange this morning, hitting the lowest point ever known in West Germany.

It has declined there by 41 per cent since 1971 and this Canadian thinks it is time to speak up for the Americans as the most generous and possibly the least appreciated people in all the earth.

As long as 60 years ago, when I first started to read newspapers, I read of floods on the Yellow River and the Yangtze. Who rushed in with men and money to help? The Americans did.

They have helped control floods on the Nile, the Amazon, the Ganges and Niger.

Today the rich bottomland of the Mississippi is underwater and no foreign land has sent a dollar to help.

Germany, Japan and to a lesser extent Britain and Italy, were lifted out of the debris of war by the Americans who poured in billions of dollars and forgave other billions in debts.

None of those countries is today paying even the interest on its remaining debts to the United States.

When the franc was in danger of collapsing in 1956, it was the Americans who propped it up and their reward was to be insulted and swindled on the streets of Paris.

I was there. I saw it.

When distant cities are hit by earthquake, it is the United States that hurries in to help. Managua, Nicaragua, is one of the most recent examples. So far this spring, 59 American communities have been flattened by tornadoes. Nobody has helped.

The Marshall Plan, the Truman Policy, all pumped billions upon billions of dollars into discouraged countries. Now newspapers in those countries are writing about the decadent war mongering Americans.

I'd like to see just one of those countries that is gloating over the erosion of the United States dollar build its own airplanes.

Come on let's hear it!

Does any other country in the world have a plane to equal the Boeing Jumbo Jet, the Lockheed Tristar or the Douglas 10?

If so, why don't they fly them? Why do all international lines except Russia fly American planes?

Why does no other land on earth even consider putting a man or woman on the moon?

You talk about Japanese technocracy and you get radios. You talk about German technocracy and you get automobiles.

You talk about American technocracy and you find men on the moon, not once but several times and safely home again.

You talk about scandals and the Americans put theirs right in the store window for everybody to look at.

Even their draft dodgers are not pursued and hounded. They are here on our streets. Most of them, unless they are breaking Canadian laws, are getting American dollars from Ma and Pa at home to spend here.

When the Americans get out of this bind — as they will — who could blame them if they said the Hell with the rest of the world. Let someone else buy the Israel bonds. Let someone else build or repair foreign dams or design foreign buildings that won't shake apart in earthquakes.

When the railways of France, Germany and India were breaking down through age, it was the Americans who rebuilt them. When the Pennsylvania Railroad and the New York Central went broke, nobody loaned them an old caboose. Both are still broke.

I can name to you 5,000 times when the Americans raced to the help of other people in trouble.

Can you name me even one time when someone else raced to the Americans in trouble?

I don't think there was outside help even during the San Francisco earthquake.

Our neighbors have faced it alone and I'm one Canadian who is damned tired of hearing them kicked around. They will come out of this thing with their flag high. And when they do, they are entitled to thumb their nose at the lands that are gloating over their present troubles.

I hope Canada is not one of these.

But there are many smug, self-righteous Canadians.

And finally the American Red Cross was told at its 18th annual meeting in New Orleans this morning that it was broke.

This year's disasters — with the year less than half over — have taken it all and nobody has helped.

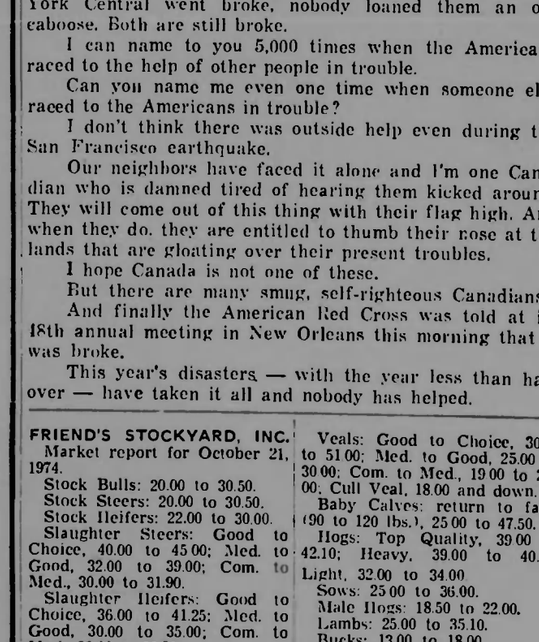
Discusses Issues



In any political campaign, contacts between candidates and voters tend to bring issues to the surface. My positions on those most frequently mentioned to me by voters will appear here this week and next.

I. Land Use — I am firmly opposed to any state legislation regulating land use in Garrett County and will act vigorously against it.

II. Taxes — Normal growth in the taxable base should yield sufficient additional funds to provide for increased services in the forseeable future without tax increases. Real estate should be taxed less and the lost revenue made up through broader based taxes such as sales and income.

III. Unemployment — Most unemployed Garrett Countians are those with low or obsolete skills. We need an adult job training program in skills having local demand. This would not only render the unemployed employable, but it would generate the establishment of many small businesses.

IV. The New Morality in Goverment — People generally are demanding new standards of morality in politics and government. I will strongly support any legislation which promotes fair election practices on the part of candidates and fidelity to the public welfare on the part of office-holders.

The bus had a full tank of gasoline, and the fire was set directly under the tank. Only the fact that the cap was not on the tank kept the vehicle from exploding, it was said.

The bus was used to carry children to church services from the Swanton area. Estimates to replace the vehicle have been set at $3,500 or more.

last night. Responding to the call were the Deer Park, Bittinger and Bloomington fire departments, the Southern Rescue squad, the Northern communications group of the rescue squad, the sheriff's office and the Maryland state police. Some 75 to 100 persons were in the area at various times. The Oakland firemen were called at 6:30 this morning to aid in the search.

The search continued throughout the night with hunters taking various groups into the area where Mr. Fazenbaker had last been seen.

When discovered by another hunter Mr. Fazenbaken appeared to be in good condition.

Barn Is Burned Near Aurora

Fire destroyed a barn on the farm of Carl Cummings late Saturday morning near Aurora, W. Va.

Firefighters from Aurora and Oakland responded but a spokesman said that the blaze had nearly leveled the building by the time the firemen arrived.

The barn contained 6,000 to 7,000 bales of hay, three plows, a corn picker, milking unit and dairy feed.

One wagon, a tractor and livestock were saved.

The Gorman fire company also responded to the call.

Firemen surmise that the blaze started as a result of an electrical short over a doorway entrance in the 60-feet long barn. A house was situated within 120 feet of the barn but firemen managed to keep the blaze from spreading.

The call was received at 11:10 Saturday morning and firefighting units remained at the scene until mid-afternoon.

On Executive Board

Mrs. Thomas (Brenda) Butscher, chairman of the Republican State Central Committee was appointed to the executive board of the Maryland Republican State Central Committee, it was learned this week. She attended her first meeting of the new board on Tuesday evening at the Maryland Inn in Annapolis. Accompanying her to Annapolis were Mrs. Walter Bittinger and Mrs. Mason Callis.

Oakland Teams To Vie For Champions

It will be all Oakland in the championship game for the Youth Football league crown this coming Sunday.

Both Oakland teams advanced to the final round by shutting out their opponents last Sunday on the Southern High field. The Oakland Raiders defeated the Terra Alta Dolphins 28 to 0, and the Oakland Jets advanced by blasting the Friendsville Steelers 36 to 0.

The consolation game will be the first game of the doubleheader action this Sunday, as the Friendsville Steelers will battle the Terra Alta Dolphins. The championship game will follow immediately with the Oakland entries, the Jets and aiders, fighting for the league crown. Games will be played at the Southern field beginning at 2:30 p.m.

Hearing Set On Rules For Off Road Vehicles

The Department of Natural Resources has arranged a public hearing in the Court House on Tuesday evening, October 29, at 7:30 o'clock, concerning proposed regulations on snow mobiles and other off road vehicles.

Proposed rules are available for public examination at the office of the County Commissioners in the court house.

Fifty four miles of trails in state forests have been designated in the draft regulations which DNR is proposing. Trails are to be located in Swallow Falls, Potomac, Savage River, Green Ridge and Pocomoke State Forests. Trails have been located so as to minimize conflicting uses and disturbance of wildlife and habitat.

SENSING THE NEWS

ANTHONY HARRIGAN

Southern States Industrial Council

Strikes And Inflation

Summit meetings of top level economists and congressional leaders will have little practical effect in stopping inflation until something is done about the hundreds of strikes which boost prices and retard the nation's productivity.

The day after the country's most prestigeous economists met with President Ford to discuss anti-inflation measures, retail clerks in District of Columbia supermarkets went on strike. The clerks went on strike because they weren't satisfied with a new contract which provides for a 15 per cent wage increase this year.

Given this attitude on the part of unionists, how can anyone expect that inflation will be brought under control?

The strike that shut chain food stores in the nation's capital is a minor incident as compared to work stoppages in major industries. The American Economic Foundation recently reported that there were 500 strikes in one week.

This is organized labor's real answer to President Ford's Labor Day appeal for workers to help the struggle against inflation by increasing productivity.

The United States is an extraordinarily strong country. But it isn't exempt from the rules. America's gross national product—the total value of goods and services produced—dropped 7 per cent in the first quarter of this year. Every strike makes economic recovery more difficult.

As the New World Economy Newsletter points out, "the chronic strike situation in Britain in the last few years helped destroy the possibility of international economic initiatives from London long ago." Strikes could have the same effect on America's internatinnal capabilities.

Less than a quarter of the nation's work force belongs to a labor union, but that unionized minority has an enormous capacity for slowing down the economy.

Many vital industries are highly vulnerable to union strike action. Municipalities are frequently threatened by disruptive and destructive strikes such as the Baltimore police and garbage strike last July. In recent weeks, a strike against a major East Coast airline denied important transportation services to business travelers and vacationers—at heavy cost to the economy.

A strike is a shocking device in a time of acute economic danger. A strike frequently is designed to protect the inefficient and incompetent or to block a technological advance, as in the case of strikes by printers against publishers seeking to use new "cold type" printing.

A strike, in the case of municipal workers, can boost the cost of city government to the point where there is an exodus of taxpaying citizens to other communities. This is what's been happening in Baltimore.

A strike produces a chain reaction, affecting employers and employes in other than the directly affected industry or business. A pattern of strikes causes business investment cutbacks and leads to a decline in employment.

Americans need to undergo a drastic change of attitude toward strikes. They need to understand that strikes are suicidal when an industrial country is in a precarious situation. If strikes aren't curbed, they could push the country to the brink of economic disaster. Widespread strike activity will increase prices and taxes. Thus continuation of the current pattern of strike activity could undo what is done in other areas to curb inflation.

A Tale Of Two Senators

The Constitution designates the President of the United States as the chief architect of U.S. foreign policy. This is for a very logical reason: only the President is privy to all of the relevant information in determining how to act toward other countries.

Most Americans understand this rudimentary lesson in American government by the time, say, they are out of Junior High School. Two who apparently failed to learn it, or have forgotten it, are Jacob K. Javits of New York and Claiborne Pell of Rhode Island. And, since both of them are U.S. Senators, their failure is particularly disgraceful.

On September 30, the two Senators returned to Washington after spending three days in Cuba, a country that has been controlled by a Communist dictator for 13 years and which is an absolute puppet and tool of the Soviet Union. Following a visit with Premier Fidel Castro, Sen. Javits reported that the dictator is interested in a "normalization" of relations with this country. Sen. Pell added that their talks were "frank, warm and friendly."

What did Castro do during their trip — which, incidentally, was frowned upon by the State Department — to earn such high marks? What he did was use the occasion to deliver one of the most violently anti-American speeches he has uttered in years.

While his two senatorial guests watched on a nearby television, Castro, in a 45-minute harangue devoted entirely to attacking the United States, flatly blamed the U.S. alone for the world economic crisis. Mentioning the "hundreds of billions of dollars" the United States has spent on its "war budget," the dictator said, "In these deplorable imperialistic policies are the roots of inflation, which emerged long before the oil price increases." Castro also described the Organization of American States as a "prostitute, shameless and ridiculous" and urged Latin American states to form an organization excluding the U.S.

Even after this harangue, the two Senators issued a statement in Havana saying, "We believe that Premier Castro is interested in working toward better relations with the United States . . . a normalization of relations, that is our impression."

Nikita Khrushchev, Castro's late Communist comrade-in-arms, hit it on the head when he once noted how peculiar Americans are: "Spit on them and they'll thank you for the rain water."—U.S. Press Association.

2 Minor Accidents Noted

Two minor weekend accidents were noted, one near North Glade, the other at McHenry.

Eileen P. Youmans, RD 2, Accident, was driving south on Deep Creek drive Monday morning. Charles A. Edmiston, of Cumberland, in a dump truck, was in the process of making a left turn into Sang Run road and failed to yield the right of way to the Youmans car and hit it on the right side. Tpr. J. E. Foley charged Edmiston with failing to yield the right-of-way.

Leroy F. Witt, Frostburg, was backing north on the southbound shoulder of Md. Route 495 just before noon last Saturday. Witt had passed the turnoff to enter Glendale road. In the process of backing, the right front end dropped down an embankment causing the vehicle to hit a state route sign and come to rest. Tpr. Dale K. Williams investigated.

State's Attorney

Lever - 16A

Dear Fellow Garrett Countian:

Last week, I discussed with you how my background reflects on my present feelings concerning the office of State's Attorney. This week I would like to discuss my qualifications and experience.

After graduating from Villanova University and working several years with a nationally known business firm, I entered the John Marshall Law School in Chicago. While attending law school I also worked with the law firm of Simon and Ingram, where I was in daily contact with the court system and the massive criminal problems of a large city.

From this experience I gained not only my degree in law, but a wealth of knowledge about the underworld, drug pushers, common hoodlums and other criminal operations. Upon graduation I was admitted to the Maryland Bar.

I have practiced exclusively in Garrett County as a full-time trial attorney. My trial experience has covered all phases of criminal practice and procedure. As a result I have developed a deep concern about the criminal problem in Garrett County.

As your State's Attorney I will have no other interest but the full-time practice of law. As your State's Attorney I will make sure that all criminals are prosecuted, including those who traffic in drugs.

To put my training experience and concern into action for you as State's Attorney, I need your vote on November 5, 1974.

Sincerely,

Thomas B. Dabney, Jr

Candidate for State's Attorney

County Directory Now Complete

The Ruth Eulow Library now has available the completed "Garrett County Directory of Agencies and Organizations" which has been in prepaxation at the library this summer and fall.

As Phillip Barton, editor and compiler of the directory pointed out in his introduction, it is impossible for such a directory ever to be truly complete. However, a great effort has been made to make the current information accurate and to provide space for future changes. The looseleaf format makes it possible to insert additional pages.

A copy of the directory has been reserved for each agency and organization which furnished information for it. These may be picked up at the library. A limited number will also be available for purchase, but mail orders cannot be accepted at the present time.

Phillip Barton, who was coordinator of community center libraries and library services to nursing homes and forestry camps at the Ruth Enlow Library has recently been appointed Director of the Southport-Brunswiek County Library in North Carolina. Margaret Mauce, who has worked at the Ruth Enlow Library since January, 1973, has taken over Mr. Barton's duties as Project Coordinator.

United States

United Nations

Using children to promote UN projects has become standard operating procedure. It has the double advantage of appealing to the parental and protective instincts of adults while, it has a profound influence on the attitudes of the children themselves who participate. For example, UNICEF sent out a folder entitled, HOW HALLOWEEN FUN CAN HELP NEEDY CHILDREN ALL OVER THE WORLD THROUGH TRICK-OR-TREAT FOR UNICEF. The back page says:

What a UNICEF Halloween can mean. One cent — five glasses of milk. Five cents — vaccine to protect five children from T.B. Ten cents — penicillin to cure two children of Yaws, etc.

This is the kind of calculated tug on the heart strings that loosens the purse strings. Tattered and starving children peer at us from billboards, movie celebrities urge us over radio and TV to give generously, and professional organizers appear in some communities to excite an uncritical emotion of compassion. Community leaders are maneuvered into endorsing a project they don't understand and an organization whose budget they are never permitted to see. And then ordinary housewives enthusiastic because THEY are sincere, march from home to home ringing doorbells. But if the person solicited questions the noble cause, the volunteers naturally feel insulted. After all they know their own motives are beyond reproach, and since they have already identified themselves emotionally with the cause, they cannot helo but react with horror when they find someone so cruel and selfish as to ask questions when tiny children are starving.

Each year, over 2 million dollars are raised for UNICEF by American children on Halloween night. But much of this money is consumed in administrative and promotional costs before it is ever available to needy children. Even though 2 million dollars is a considerable amount, this is less than 2% of the total annual UNICEF funds. The rest comes from tax money which is given directly by the government to UNICEF.

The real importance of the Halloween caper to UNICEF was disclosed inadvertently by the U.S. Committee for UNICEF in a Defense Bulletin, which had been prepared to expose what it called unfounded charges against UNICEF. "The truth in connection with this is that Trick-Or-Treat for UNICEF is primarily an educational campaign."

In other words, the caper accomplishes the same purpose that the U.N. Display accomplishes at the local library. It conditions people to accept and revere the U.N. as a wonderful "Peace" organization.

Informed citizens will recall the U.N. aggression against anti-communist Katanga in 1961, when civilian hospitals were bombed and civilians were brutally murdered by U.N. mercenaries. UNICEF helped finance it. The U.N. action was hotly debated in Congress at the time. U.N. officials got 10 millions dollars from UNICEF. (Congressional Record, June 19, 1961, page 9932)

When children come knocking for UNICEF, explain to them and their parents that U.S. Citizens owe our allegiance to the UNITED STATES — not the UNITED NATIONS. Don't give them money — give them this clipping.

One-A-Day Minor Mishaps Occur

Several relatively minor mishaps occurred during the past week at opposite ends of the county, one or two each day, last Tuesday through Sunday, but none Saturday.

Last Tuesday shortly before midnight, Johnny R. Mankins, Tunnelton, W. Va., was traveling west in a pick-up on the Crellin road near the Old Crellin road. He lost control when rounding a right curve, ran off the left side, and hit some guard rails and failed to stop. He returned the following day to report the accident to Cpl. R. J. Reed who charged him with failing to keep to the right side of the road.

The following morning Victor C. Miner, RD 2, Grantsville, and Henry E. Yoder, RD 1, Grantsville, were traveling west on U. S. Route 40 in Grantsville.

Yoder placed his turn signals to make a left turn into Koltz alley. Miner was unable to stop, proceeded to pass and the two collided. Tfc. C. D. Skidmore charged Miner with passing against roadway markings.

Two vehicles collided on U. S. Route 40 just east of Keyser Ridge as the result of a two-vehicle and pedestrian collision about an hour and a half before. This accident was noted in last week's Republican.

Albert Plummer, Frostburg, in a heavy truck, traveling west on Route 40, struck the car of George B. Christopher, Carmichaels, Pa., stopped facing east in the westbound lane. Christopher was in that lane due to the previous accident. Cpl. R. J. Reed charged Plummer with excessive speed.

Another collision occurred last Thursday, in the afternoon, in the parking lot of Foodland near Oakland.

The car of William H. Clary, Mt. Lake Park, was parked on Foodland lot and was backed into by a car driven by James B. Swick, Mt. Lake Park, who failed to stop. Information of the accident was supplied by witnesses and the report was prepared by Tfc. Ronald Lewis.

Another parking lot mishap occurred off U.S. Route 40 at the Hill Top Fruit Market last Friday.

The car of Ord Joe Darby, Frostburg, was parked unattended but occupied by passengers, Edith M. Richardson, Star Route, Oakland, was facing west on the lot when she looked to the rear seat area of the car as something fell from the seat to the floor. The operator then looked ahead and her car struck the Darby car in the rear. Tfc. Dale K. Williams investigated.

A one-vehicle mishap occurred on the Crellin-Hutton road near Hutton just past midnight Sunday morning.

Davey Lee DeWitt, Mt. Lake Park, in a pick-up, was traveling west when he was blinded by an east bound vehicle and ran off the roadway into the ditch. Tfc. L. R. Rosage made no charges.

American Freedom and Christian Responsibility

By Rev. W. H. Leake, Deer Park, Md.

"This know also, that in the LAST DAYS perilous times shall come" or as the Amplified Bible says, "Understand this, that in the LAST DAYS there will set in perilous times of great stress and trouble hard to deal with and hard to bear." II Timothy 3:1-2.

This is presently taking place not only in the nations of the world but right here in our own beloved Garrett County, Md. Witness all the wanton murder, stealing, robbery, etc. etc. in the past year. Last Friday, October 18th, our church Bus was burned to a total loss. It was parked in back of the church in Deer Park not more than 10 to 15 feet from the church; according to the Police and Fire Investigating Authorities, it was a MALICIOUS FIRE started under the gas tank which was full at the time. Only the Grace of God and the quick and proficient action of the Deer Park Voluntary Firemen saved the church from burning. The Maryland Fire Marshal said "two things kept the 20-25 gallons of gas from exploding; First, whoever set the fire left the gas cap off the tank, and Second, the tank was full."

We as of yet do not know who was responsible for the fire. But the sad part is that it was more than just a 1965, 60 passenger bus in excellent condition, it was a way to Sunday School for 35-40 boys and girls. Although we had adequate insurance while on the road, we had no coverage for fire on the parking lot. We are building a new church on Highway 135 and since we started building, costs have gone up from a third to double on some items, and we cannot afford to buy another bus at this time.

At the suggestion of some friends, we have started an EMERGENCY BUS FUND. If you would like to contribute to this fund, make your check payable to EMERGENCY BUS FUND and mail to Rev. W. H. Leake, Deer Park, Maryland.

Or if you know of a bus for sale please contact same.

REMEMBER, NATIONS AND PEOPLE THAT WILL NOT TAKE A STAND, DESERVE TO FALL AND THEY SOON DO.

Hey Taxpayers!

Get this. Somebody in Annapolis thought Garrett County ought to have a new "conference/resort center! So, on July 30, 1974, somebody sent Wayne B. Hamilton a letter and a "scope of work" to "determine the feasibility for a resort/conference complex in Garrett County." The letterhead says, STATE OF MARYLAND DEPARTMENT OF ECONOMIC and COMMUNITY DEVELOPMENT. The names of Marvin Mandel (Governor) and Joseph G. Anastasi (Secretary) are right beside it. It is signed by Anastasi, who says that he has "reviewed" the "proposal," and believes "it will do the job that BOTH OF US would like to see done." (my emphasis)

Eight days later, Hamilton and his Board of Commissioners of Garrett County (who are supposed to represent you) sent back a letter approving the entire "study." It said, "Please have your department pursue this study and bill us for Garrett County's share of the cost of the study." (which Mr. Anastasi chose to be one half of the $15,000 cost.) "We are eagerly anticipating a favorable amount of data to support necessary decisions posed by considerations involved by all concerned.' That last sentence is the best example of high sounding nonsense I have ever read. I guess it means "We are eagerly anticipating a favorable amount of data to support whatever you say, Sir."

What kind of conference/resort complex are they talking about? I assume that is to be determined by the study, which will be conducted by Systems Design Concepts, Inc. It will take them an estimated four months.

There are 3 main parts to the Scope of work:

1. Market Analysis — SDC experts will analyze operating and proposed "potential competitive conference facilities." They will "determine such factors as: ... number of rooms ... usual type of meeting: high-level: mid management; with or without families ... amenities for conventions; multi-lingual equipment, theatre; closed circuit TV; stenographic services, etc. ... geographic origin of attendees ... other pertinent information ... pool? golf? entertainment facilities?
2. Economic and Financial Analysis — would include "type of complex: deluxe, first class, other ... types of supporting facilities and amenities; in-house or out (golf course, tennis, etc.) ... probable construction costs ... operating costs."
3. Impact on County — This includes "benefits" and costs.

Supposedly, the benefits include an increase in jobs and income "directly attributable to the facility." In last week's Republican, we were informed that Anastasi was impressed by the "determination of Garrett County officials ... to attract more visitors and thus strengthen the economic base, create additional tax revenue and provide new jobs." Anastasi did not mention the costs, but he did suggest that "... this joint state-county effort can attract private investment ..."

Our professional politicians seem to have evaded the central issue. DO THE PEOPLE OF GARRETT COUNTY WANT TO PAY FOR IT? Even the planners admit that it will cost us money to build and to operate, and that it may have costly "impacts ... on existing business." We don't need anything more than the local gym for our "conferences," and it is my opinion that we don't want to build a deluxe resort for the clowns in Annapolis who would "plan" us into a New Baltimore. Garrett County was the only County in the State who voted against Mandel last time. I'm proud of that.

A Parade Slip

he Pittsburgh Post Gazette ober 17 carried an unusual n in a column, "Our Towne," oe Browne. He called it a slip and the item follows:

Ah, the glory of autumn in aryland, especially in northwestern area bordering Pennsylvania. Its flaming foliage is akin in beauty to that of the hills and valleys of them its northern neighbor.

"It's so nice that a lot of Pennsylvanians take a ride across the state line to marvel at Maryland's magnificent fall splendor, especially when the Autumn Glory Festival is held in Oakland and the Deep Creek region.

"A Pleasant Hills nature lover drove down last weekend and she really enjoyed everything, especially the big parade. The parade was wonderful, very interesting. Governor Marvin Mandel was the grand marshal, and he came riding by in a beautiful Cadillac convertible, red with cream upholstery.

"And Miss Maryland, as gorgeous as the autumn leaves, came riding by in a gold convertible. Oh, the glories of Maryland. Hey, but wait a minute, the license plates on those beautiful cars in that beautiful parade of Maryland beauty—they were Pennsylvania license plates. Oh, Maryland, My Maryland!"

Miss Keim Bride of Mr. Hillegass

Gloria Elizabeth Keim became the bride of Gerald M. Hillegass in a candlelight evening service Saturday, September 14, in St. Paul's United Church of Christ, Somerset, Pa.

The Rev. Richard Shellenberger led them through the exchange of their vows and rings in a setting of candelabra, ferns and spider mums before the altar.

The bride is the daughter of Mr. and Mrs. Jack E. Keim of 268 West Church St., Somerset. The bridegroom is the son of Mr. and Mrs. Harry S. Hillegass of Berlin, Pa., RD 3.

The bride's father escorted her down an aisle lighted by single candles. She wore a floor-length gown of ivory silk organza and taffeta with a ruffled hemline, high neckline and long, puffed sleeves. The fitted bodice was of daisy lace and pink satin trimmed the waistline, neckline and cuffs. Her ensemble was completed with a detachable chapel train edged in matching lace.

Her short mantilla veil was attached to a Camelot headpiece. Both the cap and veil were trimmed with matching daisy lace.

The bride carried a nosegay bouquet of dark and light pink roses and dried baby's breath, with eggshell lace ribbon.

Serving as her matron of honor was Mrs. Jackie Boland of Washington, D.C. Her gown was a floor-length crepe print of pink and yellow-orange flowers on an off-white background. The dress was styled with a high waist, a roll collar and high-cut armholes. Her off-white picture hat was trimmed with a matching shade of pink illusion veiling accented with a matching flower.

Bridesmaids were Gloria Hillegass, bridegroom's sister, Berlin; and Mrs. Terrie Dietz, Somerset. They were attired in gowns identical to Mrs. Boland's but with hats trimmed in yellow-orange veiling. Bridesmaids carried nosegay bouquets of yellow-orange tinted feathertop pompons with star flowers, while Mrs. Boland's nosegay was rose-tinted.

Flower girls were Kristina Speicher and Rebecca Clapper, cousins of the bride. Both wore floor-length gowns fashioned from material matching the dresses of the other bridal attendants. In their natural wicker baskets they carried tinted feathertop pompons with eggshell streamers.

Serving as best man was Gerry Langley, Johnstown, Pa. Ushers were Wayne Ebersole, Salemville, and Tom Movinsky, Meyersdale. All the men were attired in gray Windsor tuxedoes with black lapels. Their boutonnieres matched the flowers of the girl they escorted.

The bride's mother wore a floor-length modified kaftan in a soft apricot shade. While the bridegroom's mother chose a floor-length polyester gown in aqua. Both carried corsages of off-white cymbidium orchids, white stephanotis and baby's breath with ribbons matching their gowns. Corsages were pinned on grandmothers, Mrs. Vena Beachy, Mrs. Ernest Keim, Mrs. Ollie Loechel, and Mrs. Pearl Miller.

Organist for the ceremony was Harold Showman, Jr., who presented both traditional and modern pieces prior to the service. His prelude was "Trumpet Voluntary" by Purcell and his postlude was "Choral Song" by Wesley.

Soloist Mrs. Judy Kelley sang the "The Wedding Song" and "The Lord's Prayer". A Men's quartet, which included Joel Shaffer, Mark Shaffer, Mark Shellenberger and the bride's brother, Gregory Keim, sang "Somewhere" and "O, Perfect Love."

Following the ceremony, a reception was held at Hidden Valley Farm Inn, Somerset, where guests greeted the couple, Janice Suder of Somerset attended the guest register.

Mrs. Hillegass, a 1969 graduate of Somerset Area Senior High School, is a graduate of Tri-State Beauty Academy, Cumberland. She is employed at Miller's Barber and Beauty Shop.

Her husband, a 1968 graduate of Berlin-Brothersvalley High School, is a 1972 graduate of the Pennsylvania State University with a degree in agricultural engineering. He is employed by Snyder's Potato Chip Company in Berlin.

After honeymooning at Myrtle Beach, S. C., the couple is residing at 232 West Union St., Somerset.

A pre-nuptial shower was given by Mrs. Doris Lambert, at her home, and Mrs. Terrie Dietz. A rehearsal party, held in the social room of the church, was hosted by the bridegroom's parents.

Shepherd-Teets Vows Exchanged

Mary Elizabeth Teets, daughter of Mr. and Mrs. Ellis Teets, Eglon, W. Va., became the bride of Donald Lee Shepherd, son of Mr. and Mrs. Merle Shepherd, Cameron, W. Va., in a double ring ceremony performed by Rev. Galen E. Fike at 2 p.m. July 27 at the Maple Spring Church of the Brethren.

Given in marriage by her parents, the bride wore an empire styled gown of white polyester crepe with a chiffon overskirt. The gown and skirt were trimmed with embroidered daisies. The floor-length mantilla fell from a Camelot headpiece. Her bouquet was of white daisies.

Miss Martha Teets, sister of the bride, was her only attendant and appeared in a mint green gown styled similar to that of the bride. Her bouquet was of yellow daisies. Both gowns were fashioned by the bride.

Best man was Kenny Blake, Morgantown, friend of the groom. Ushers were M. Scott Teets and Mark Teets, brothers of the bride. Wedding music was provided by Mrs. Claude Winters organist.

Registering guests at the reception, which followed in the Church Fellowship Hall, was Joni Shepherd, sister of the groom. Assisting at the reception were Mrs. M. Scott Teets, Mary Roth, Ann Feather, Lori Shepherd, Rebecca Winters, Mrs. Marvin Harsh, Mrs. Wade Harsh, and Mrs. Ernest Harsh.

Theatre V Brings 30 Actors To Area

Anyone passing the McLaughlin Building at Second and Alder Streets in Oakland recently has probably heard some strange goings-on. Those long-haired oddly-dressed young people who seem to live over the phone company are a professional theatre company attached to Garrett Community College, members of Theatre V.

Theatre V was formed last September through R.C.E.D.A., and spent the year teaching and performing in schools throughout Garrett and Allegany counties. Last summer they produced eight plays at G.C.C. and other theatres. This year the troupe will be doing much the same thing, with one big difference. Last year's group number five—this year there are 30 of them.

These young actors are professionals from all over the U.S. and Canada.

The three companies that compose Theatre V are mime, story theatre and Commedia dell' Arte. Bernard Gomez Band, director of the mime company, is from Stockton, Calif., and has studied with such personalities as Marcel Marceau. He and the three other mimes that compose his company will be teaching their art to grades K-12.

The story theatre director is Jan Rothman a young actress with very distinguished credits. Her troupe interprets legends and fairy tales and performs for children of all ages.

The largest of the three companies is under direction of Don McDonough one of the original members of Theatre V who directs Commedia dell' Arte involving stock characters placed in stock situations from which hilarity erupts.

The group has a six-week tour of the mid-west planned for spring.

Housed on the second and third floor of the building these thirty people rehearse six hours every day then actors and actresses participate in workshops designed to increase their mastery of their art. Company members teach other company members fencing, juggling, gymnastics, mime, dance and voice.

Aside from the actors, there is Johniene Papandreas, Theatre V's designer; Pat Paine, seamstress, Patrick Dungan, carpenter; W. B. Mann, lights; Barbara Taylor, designer and builder of props; coordinator Larry Smith, and secretary Mae Wilson.

One Natural Resource Violation Noted

One Natural Resources violation was noted on the docket of District Court for the week ending October 22.

George F. Sweitzer, Jr., Kitzmiller, pleaded not guilty of hunting squirrel with an unplugged shot gun near Swanton. Judge Lewis R. Jones placed him on probation without verdict and charged $5 costs.

Halloween Parade Plans Complete

Final plans for the Halloween celebration to be held in Oakland next Thursday evening, October 31, under sponsorship of the Oakland-Mt Lake Park Lions club, have been completed, according to Tom Kulm, project chairman.

The annual parade will begin at 7 o'clock after forming on Fourth street, in front of the county jail. Milford H. Beckman is chairman of the parade committee. Other chairmen include Dr. Robert Gibson, cake walk; Rev. James Remley, prizes; Delbert Gnegy, wheels; Fred Colaw, food stand; Dick Travis, popcorn; Paul DeWitt, public address system; and Jim Simms, setting up and demolishing the stands. Max Messenger, balloons; James Nordeck, television; Bob Kurtz, finance; Phil Davidson, clean-up; Tom Graham, snow cone; Wayne Johnson, publicity; Paul Hoye, dart board.

Prizes to be awarded following the parade and the television set, to be given away that evening, will be on display in the Sears window on Second street.

The parade will conclude in downtown Oakland where the festivties will be held on Second street, between Green and the railroad crossing.

Record Fish Caught

Three large mouth bass were caught recently by Jay Rice, and Fran Nicklen, of Oakland, with one of them surpassing the county record for this past season, but too late to be included in the contest.

They were caught near the breast of the dam, Deep Creek Lake. The winner was 7 pounds, 4 ounces. The two others caught were 5 pounds and 11 ounces, and six pounds and four ounces.

Education Week Starts October 27th

American Education week is being observed the week of October 27 through November 2. Dr. William H. Buser, county superintendent of schools, reminded all parents Tuesday.

During the week a special invitation is being given to parents and other citizens to visit their local schools. Several schools have made special plans for the week and may have informed parents of these plans.

Parents are being urged to participate in activities that mark the observance with the theme, "Stay Involved."

Dr. Buser said the position of the county schools is that parents may visit schools throughout the year, but that a special invitation is extended during American Education Week.

To Conduct Fund Raising Effort For St. Mark's Church

Charles S. Stief, Beltsville, a former "Martin Luther" film field promotional man and Lutheran Brotherhood Life Insurance representative in Washington, a fund raising counselor for the Lutheran Laymen's Movement for Stewardship of the Lutheran church in America, will be in Oakland in November to conduct a fund raising effort for St. Mark's Lutheran church, designed to raise funds for a new church building.

Long an active lay leader at St. Peter's Lutheran church in Washington, he served there as a church councilman, president of the men's group, and a member of the evangelism and fund drive committees. He was also president of the Washington District Brotherhood and an executive committee member of the Maryland Synodical Brotherhood.

A native of Lebanon, Pa., he served over eight years in the U.S. air force, was a master sergeant in aerial photography and a photographic laboratory chief.

Mr. Stief and his wife, Olive, are the parents of two sons and a daughter.

Mr. Stief plans to come to Oakland early in November to conduct the fund raising event, beginning November 11th. The campaign will end December 5.

IN MEMORIAM

In memory of our parents who died a year and 14 days apart, Esther (September 14, 1971), and Charles Nedrow (October 28, 1972).

The blow was hard, the shock severe.
We never thought your deaths so near.
Very often we speak of how you died,
And to think, we didn't say "good-bye."
But each time we see your pictures
They seem to smile and say
"Don't cry, we're only sleeping,
Till we meet again some day."
We wish God could have spared you
For many more years.
For some you may be forgotten
To some a part of their past.
To us who loved and lost you
Your memory will always last.

Their Children

Ralph M. Burnett

Candidate For

State's Attorney

Garrett County, like much of the nation, is experiencing a rapid rise in violent crime. Vital to effective law enforcement in the drive to eliminate all crime and violence is effective prosecution by a State's Attorney who has these qualifications for office:

LEGAL ABILITY

Ralph M. Burnett graduated with a Bachelor of Arts degree from Dickinson College at Carlisle, Pennsylvania, and completed his legal education at the University of Baltimore with a Juris Doctor degree. He served as law clerk to Judge Robert Watts, Baltimore City Criminal Court, broadening his legal knowledge and has been actively engaged in the practice of law in Baltimore City and since October, 1972, in Garrett County, Maryland. Since selecting Garrett County as his home, Ralph M. Burnett has been named Adjunct Professor of Law at Garrett Community College, where he teaches criminal law courses.

EXPERIENCE

Ralph M. Burnett has prosecuted crimes in the western district of Baltimore City as an assistant to Baltimore City State's Attorney, Milton Allen, and since October, 1972, has been Assistant State's Attorney in Garrett County, with Fred A. Thayer, State's Attorney, with whom he is presently associated in the practice of law. In performing his duties, Ralph M. Burnett has tried virtually all of the criminal cases in the Maryland District Court as Assistant State's Attorney and numerous cases in Garrett County Circuit Court. He has assisted with Grand Juries, juvenile cases, investigations and in all facets of criminal prosecution. He will bring to the office experience of his past three years and has the full backing and support of Fred A. Thayer, the present State's Attorney, who has decided not to seek re-election.

DEDICATION

Ralph M. Burnett spends most of his productive hours on State's Attorney work. He maintains close relationships with State Police, Town Police, Wildlife officers and Sheriff's Department personnel. He participates, actively, in criminal investigations at all levels and is always available to law enforcement officials for legal guidance in criminal procedure and in all phases of his duties, both day and night, where teamwork with all law enforcement agencies is essential.

UNDERSTANDING

Ralph M. Burnett has developed an understanding of the broad objectives of law enforcement in Garrett County. His two years in the State's Attorney's Office here has led him to grasp the law enforcement's needs and goals of the county.

Ralph M. Burnett has been able to grasp the details of the role of the State's Attorney in the overall objective of law enforcement as it progresses through (1) investigation, (2) apprehension, (3) prosecution, (4) conviction or acquittal, (5) sentence or dismissal, and (6) appeal.

With this understanding, developed as a result of his legal ability, experience, and dedication, Ralph M. Burnett will strive for the ultimate goal of law enforcement: JUSTICE.

Nothing To Fear

Hallowe'en today means children flocking from door to door to enjoy the bounty of neighborliness. But in the Dark Ages this night was regarded with dread and apprehension.

Warmth, friendship, kindness, generosity inspired by our religious faith have replaced superstition. Believing in the Love of God man has nothing to fear.

Your children will remember for years the fun of Hallowe'en. Are you making sure they are learning the fundamental spiritual truths that have turned yesterday's fear into today's faith?

Once a year we celebrate the death of superstition. Every Sunday we celebrate the birth of Believing.

THAT'S RELIGION

Lesson for October 27, 1974

Background Scripture: Amos 5:10-24; 6:4-6; 7:10-17; 8:4-6.
Devotional Reading: Amos 5:18-24.

Amos was neither popular nor well-received in Israel. In fact, he was clearly unwelcome and one religious authority of that land gave him the Biblical equivalent of "Get lost, buddy!"

There seemed to be good reason for his rejection.

Rev. Althouse

For one thing, he was a stranger to Israel. It seemed highly presumptious for this citizen of Judah to come north to tell the people of Israel what was wrong with their way of life. His kind of meddlesome trouble-making was not appreciated by the people of Israel.

A matter of Credentials

Secondly, Amos had no religious credentials. He was not a priest, nor did he seem to have any special education or training for religious work. Actually, he was a layman, a farmer: what business did he have trying to speak as a religious authority?

Furthermore, he was condemning people who regarded themselves as very religious. They were a nation that had a number of holy places and shrines for worship, they observed all the religious festivals and feasts, and they regarded themselves as "God's people." How dare he point an accusing finger at them!

Finally, although he claimed to speak for God, he was meddling in lots of areas of life which were not religious, but social and economic. For example, he protested the treatment of poor people. Evidently he did not understand economics!

He also criticized the administration of justice, particularly the use of bribes and pay-offs. Didn't he realize that everyone did it and this was the accepted normal way in modern society?

Another one of his criticisms was levelled at the shrewd business practices of many affluent merchants. So they foreclosed and repossesed on people who couldn't pay their bills, after all: that's business! So they cheated on weights and measures: that's the way business is conducted by everyone these days!

Prophet: Go Home!

Amos was particularly obnoxious to Amaziah, the priest of the temple at Bethel: "O seer, go, flee away to the land of Judah and eat bread there; but never again prophesy at Bethel, for it is the king's sanctuary . . ." (7:12). It was just another way of telling Amos to go home and stick to religion.

But Amaziah was wrong on two counts. First, the temple at Bethel did not really belong to the King of Israel, but to God. Where better to speak is God's message than in his own sanctuary!

Furthermore, Amos was "sticking to religion." The people of Israel thought that elaborate worship and religious festivals were the essence of religion, but Amos lifted up the oppression of the weak, the lying and cheating of the powerful, the corruption of economic, social, and political life and was saying as loudly as he could: "That's religion!"

Horse Shoe Run Youth Earns Highest FFA Degree

Dale Mullenax, of Horse Shoe Run, W. WINS $1,000 — Clarence (Hunk) Cogley, Oakland, is pictured above with two of his lucky companions, son Bill, 10, and his bowling ball, both of which were with him when he won $1,000 in a bowling tournament in August. Mr. Cogley's score at the Monroe Summer Classic in Pennsylvania was 1,310 with handicap. Although he has won in several other competitions, this is the first big prize money he has been awarded. Locally, he bowls on four leagues, including the Wednesday Night Civic League, Tuesday Night Travelers League, Sunday Night Mixed, and the Mt. Top Men's League. His average score is 175. Son Bill is also interested in bowling. When asked how he will spend the money, "Hunk" laughingly said he plans to give a big party.

Democrat Group Adopts Open Meeting Resolution

The Democrat State Central Committee adopted a resolution to hold at least six open meetings per year at the last meeting of the group October 17. At least two meetings will be held in each commissioner district.

The group met at campaign headquarters in Oakland and gave a vote of thanks to Mrs. Brenda Thorn, full-time coordinator for the Democrat headquarters.

Ada Mae Welch announced the latest registration figures available from the Supervisors of Elections office. By October 1, there were 5,860 registered Republican and 4,023 registered Democrats, compared with 5,839 Republicans and 3,838 Democrats two years ago at this time.

LETTER TO THE EDITOR

Dear George:

For the past several months I have noticed that with almost every issue of The Republican, there have been photos depicting our County Commissioners issuing a proclamation for some publicity hungry group, or signing a document that is supposed to ultimately improve the life style of all and sundry in Garrett County. (This past week there were two pictures of the Commissioners signing two profoundly significant documents.)

I feel The Republican is being made a patsy by the publicity conscious Commissioners and by whoever is able to slip these photos into the paper. Now, I understand, the Commissioners recently acquired a secretary-publicity agent who sends out the photos and copy to the news media, and show their appreciation by giving the more important news releases to the Cumberland papers several days before The Republican's publishing day on Thursday.

In Thursday's issue aside from the usual pictures of the Commissioners there are also pictures of the Autumn Glory Festival Parade. I see Governur Mandel and Representative Byron in separate cars waving to the crowd. The latter was not supposed to be in the parade according to the rules laid down by the parade officials. Both parties were to be limited to one float each. It would be interesting to know why and who authorized the last minute change. The parade chairman, a Democrat!

Being an election year, having Mandel or any politician as Parade Marshal is, in my opinion, very bad taste and is causing considerable resentment among many persons who otherwise might have voted for the Governor. Pictures of the Republican float and Louise Gore, the latter being permitted to bring up the tail end of the parade, were not used.

As you know I worked for The Republican for about twenty-five years and I can remember the day when it was the policy of the paper to give the candidates of each party a fair shake, and especially after the Mountain Democrat ceased publication, but now it sadly appears that this is no longer the case.

Two persons were treated and released from the hospital following an accident on Md. Route 495 just south of the Glendale road the evening of October 12.

TIME TO LIME

This is the time of year for you to be thinking about liming your fields ... by applying mag lime now, your soil will be neutralized by spring and ready to go to work. Soil in this area has a high acid content, and it's necessary to apply mag lime to reduce this excess acidity ... in addition by using the proper amount of lime ... you save money ... by using less fertilizer.

Let ROBERT H. MILLER TRUCKING spread your fields with lime this fall, when fields are solid enough ... and when the trucks aren't nearly as busy as they will be next spring ... so don't wait until the last minute ... you can arrange to have Robert Miller spread your fields with lime by contacting your local Agway Store or representative ...

TIME FOR A TUNE-UP — Alan K. Douglass, left, is shown with his teacher, Roy F. Athey, as he tunes up the pedal steel guitar he constructed at the Vocational-Technical center in Cresaptown. He was attending the school under the Manpower Development and Training Act program and the guitar construction project was an unusual one at the center.

His Project Is Steel Guitar Construction

An unusual project underway at the Vocational Technical center on McMullen highway, Cresaptown, is the construction of pedal steel guitars.

The person responsible is Alan K. Douglass, of Oakland, who was participating last month in a Manpower Development and Training Act program, state and federal project for those out of school.

Mr. Douglass was employed for a short time by the Z. B. Guitar company, Phoenix, Ariz., which builds the pedal steel guitars for the music industry, including such stars as Merle Haggard, Buck Owens, Charles Pride, Al Perkins and Jerry Garcia.

Alan was involved in the electrical department of the firm, making pickups and wiring, and he also worked in the wood finishing department and final inspection department for tuning adjustment and shipping.

Most interesting to him was the machine shop where much of the instrument was created.

The MDTA program is administered by the Maryland Employment Department and after several visits with officials there, Alan soon found himself in the classroom of the machineshop at Vo-Tech, being taught by Roy Athey. The Vo-Tech program is designed as a thorough workout session for serious students. Eight hours each day six months out of the year, students study mathematics from remedial to advanced courses in the classroom. They also study the operation of all tools in the shop.

The instrument was built from scratch by Alan, although he had trouble getting aluminum. The instrument also made use of scraps that abound in the shop. The wood is mahogany inlaid with tack on top and it has inlay stripes of holly, ebony and mahogany on the front and back. The six-coat varnish finish is hand-rubbed. The guitar has three pedals and two knee levers which raise or lower the pitch of whatever string they are hooked on to. There are 10 strings, all of which can be raised or lowered in pitch. Each string has two screw adjustments for tuning.

Alan has been building body electric guitars and basses for the past ten years. He was currecently working on two more pedal steel guitars and an electric bass. Alan is the son of Mr. and Mrs. Douglass, Crook Crest, Oakland.

He will begin work next week with Miller Custom, Inc. at Chillicothe, Ill.

Discuss Problems On Youth, Taxes

Problems of local youth were under discussion by the County Commissioners and Tom Cregan, director of the Community Youth program under Community Action, at the weekly Commissioner meeting Monday.

Commissioners pointed out that half of the county budget was directly or indirectly spent on youth, under the Board of Education and Community college budgets, and cited additional local dollars through the Health department.

They said the county government had also taken on young qualified employes.

Commissioners also discussed the tax assessment department conversion to the computer system for tax assessments with Jerome Moyer, supervisor of Assessments and Taxation. The state of Maryland take-over of assessments includes a switch to a computer system on a shared basis with other counties. An increased workload and more property owners were cited as the reasons for the conversion to the computer system.

Commissioners also attended meetings for the planning commission and hospital board.

Chairman Wayne Hamilton read a statement into the record at a public hearing in support of a Milk Hauling station in the Grantsville area. The Department of Water Resources, under the Department of Natural Resources, conducted the hearing.

Story Features Hunting For Ginseng Roots

"Combing Maryland's Mountains for the Elusive Ginseng," was the title of an article by Henry Scarupa appearing in a special supplement to the Baltimore Sun of Sunday, October 20, on Maryland Folklore.

The story features Larry Crosco and his nephew, Carl, of Oakland, two of the persons who are continually in search of the root of the ginseng plant.

The two page spread has photos by Paul Hutchins and shows Larry and his nephew searching in the woods and displaying the root of one of the plants. Larry works a produce route for part of the week and does his "sanging" at other times. His nephew is unemployed at present.

'74 Farm Census Starts In January

The 1974 Census of Agriculture, the largest argicultural statistical project of the past five years, will begin in January. It will he conducted by the Bureau of the Census, part of the Department of Commerce's Social and Economic Statistics Administration.

From Alaska to Florida, from Maine to Hawaii, farmers and ranchers will receive census forms in the mail around the first of the new year. The report forms are to be filled out and mailed back promptly.
